U.S STATE OF AFFAIRS–INSURGENCY CRISIS

WHAT'S BREWING ON THE HOME-FRONT_

GEOPOLITICAL ASSESSMENT & TOPOGRAPHIC THREAT LANDSCAPE
U.S CITIZENRY & ENEMY INSURGENCY

REPORT DATE– **26 OCTOBER 2025**

ASSESSMENT PREPARED BY– ***JESSE ROBERT, ATO-II , CAS***
REPORTING PERIOD— ***01 SEPTEMBER 2025 — 07 OCTOBER 2025***

Taken directly from the 2025 National Security Strategy

LETTER FROM THE CHAIRMAN

"My fellow Americans, the United States now confronts a threat of unprecedented character, scope, and immediacy. In an earlier era, President John F. Kennedy described a long twilight struggle between freedom and authoritarianism, between democratic self-government and centralized control. That contest, once defined by geopolitical confrontation abroad, has entered a new and more insidious phase. Today, the principal strain on the American Republic arises not from foreign shores, but from within our borders."

"The adversary is no longer merely approaching, it is already here. It operates from within our institutions, distorting systems of governance, undermining public trust, and weakening the civic and cultural foundations that uphold our constitutional order. This strategy of internal subversion, carried out by foreign powers through ideological infiltration, institutional capture, and strategic psychological warfare, represents an existential challenge to the American experiment in self-government. "

"In such an environment, traditional approaches centered on deterrence and containment are no longer sufficient. The United States must adopt a strategy that identifies and neutralizes the root causes of internal degradation. This effort must be grounded in the founding principles that have long protected the American people: limited government, the rule of law, individual liberty, and public accountability."

The United States was founded on the belief that every individual is entitled to life, liberty, and the pursuit of happiness, and that unchecked political power leads inevitably to oppression. Guided by these principles, the Founders established a republican form of government based on limited authority, the separation of powers, and the consent of the governed. The 2025 National Security Strategy renews this foundational vision and offers a path forward to confront the current era's unique challenges."

INTRODUCTION

The Assassination of Charlie Kirk and Its Symbolism

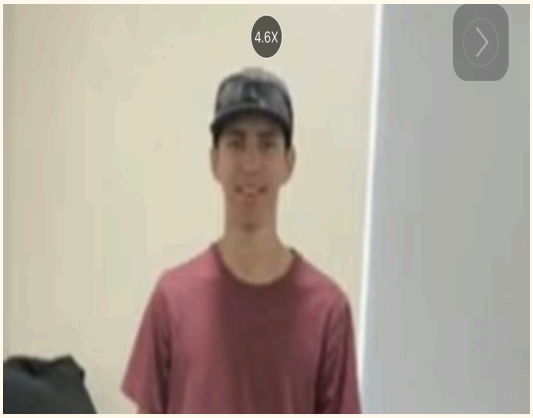
On the eve of the 24th anniversary of the September 11th attacks came the political assassination of the prominent Christian, author, conservative leader, youth influencer, missionary, and US Constitutional Patriot Charlie Kirk represents a significant and historic yet highly ironic turning point in our nation's journey. While I did not know Charlie personally, I had always hoped to meet him at a Turning Point or another conservative event someday. Now, I'll have to connect with him in the afterlife. His death has resonated with millions of adult Americans and youths around the world as we witnessed young Kirk, beginning at 18 years old and younger, seek Christ, wisdom, and higher knowledge, eventually transforming into the righteous father, husband, man, and righteous leader he became. Kirk's main fellowship encompasses a broad spectrum of conservative youth and aspiring young leaders globally. Nevertheless, the true extent of his influence may not be fully realized in the US for many years ahead. One would think that such a targeted assassination would quickly trigger a Civil War 2.0, particularly in light of the FBI and Law Enforcement's preliminary investigative findings that the assailant is Tyler Robinson, a leftist domestic terrorist. The fact that no released videos have shown Robinson in possession of the rifle is odd. His connection to Utah State University, dropping out after one semester, in which he was part of an agency program (CIA) within the college. Was he just a patsy?

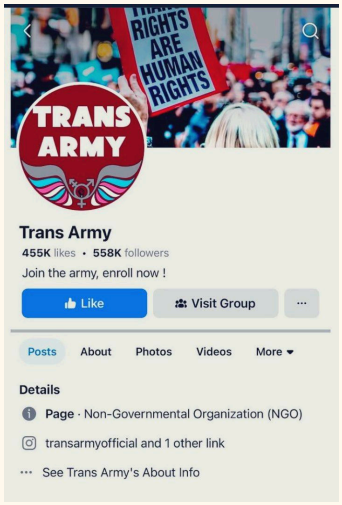
Why are there reports that there was a ‘host’ aircraft that released or deployed a set of new multi component- drone systems that was operating in the area? I believe he was shot by someone over his right shoulder at a downward trajectory since Alex Jones states “reports from the coroners indicate his C-1 through C-4 vertebrae were impacted, with a large fragmented portion of the round that was found near the heart. Why was George Zinn present at this function, arrested, released, re-arrested? I’m only proposing those as questions not seeking controversy.

I, like many, simply want answers on ballistics reports consistent with coroners reports which we may never see due to Utah laws whereas they are not released to the public. However, the family may release or it could be acquired through trial records at a later date. I do not understand why Director Kash Patel or Deputy Director Bongino can’t simply collect the TOP 15 questions or conspiracies surrounding Kirk’s death, head to the Joe Rogan or Shawn Ryan show, sit-down and answer these questions with authority, clarity, and assuredness that the answers given are true and correct. If the question could negatively affect the criminal case then don’t answer, but explain why!

NOTE: It should be noted that Charlie’s TPUSA was officially under FBI investigation and illegally targeted by Biden’s DOJ under investigation code name “Artic Frost” approved and signed off by Merrick Garland former disgraced Attorney General.

Robinson is reported to have been raised in a conservative environment, is 22 years old, a straight A+ college student with a scholarship, and recently dropped out after just one semester. I believe he was also enrolled in a secondary specialty trade school for electronics. He is now labeled as a far-left extremist gay man and a transgender sympathizer, who had a live-in boyfriend named Lance Twiggs, who is undergoing sexual transition. Robinson has been in custody since 33 hours post incident. Apparently Twiggs is either in the wind or some sort of government sanctioned Witness Protection (WitSec). As with any investigation, there are numerous unanswered questions regarding the suspect and his role in the assassination. The primary question is, who else had operational knowledge of the plan of attack; was there an accomplice or other facilitator (s) involved, and is there a connection to a foreign intelligence service (FIS) or a domestic or foreign terrorism nexus related to his radicalization, and did he receive any assistance?





Source: X- LEFTIST convert, alleged assassin- Tyler Robinson

Many alternative media platforms such as **X** (Twitter) and YouTube channels are working to answer those questions. FBI top leadership Director Patel and Deputy Director Bongino are both good friends of Charlie, and I don't think they would intentionally obscure any facts to the public because they are essentially "the public" in less than 3 years. Unless there's a larger ongoing "OPs" that requires "obscurity" of true details and facts surrounding Charlie's investigation due to "operational" clandestine nature. However, having worked for the government for over 20 years, I understand service and in their case the 'imperative' of repairing the image and overall reputation of the once coveted Federal Bureau of Investigation, 'the world's premier law enforcement agency,' that simply put, the public no longer trusts.

BACKGROUND

Domestic Terrorism, Political Violence, Domestic Insurgency

Hardly mentioned in the media on that same dreadful day as Kirk's death are the two individuals identified as Adeeb Nasir, 58, a Pakistani-born U.S. citizen, and his son, Adil Justice Ahmed Nasir, 31. They secretly planted improvised explosive devices (IEDs) or some form of incendiary device within the undercarriage of a local Utah News 13 van. Fortunately, the devices did initiate but failed to detonate successfully, as some reports suggest it was an incendiary device not

intended to explode for effect, thus there was no explosion or injuries. Subsequently, the two Paki-Americans were arrested and booked. They face charges including manufacturing a weapon of mass destruction and attempted aggravated arson. I am unsure why domestic terror charges haven't been filed.

The media kept it low-key, with some news outlets not displaying their photos, others not even mentioning their distinctly ethnic Pakistani names, and some reporting they were booked into jail with a physical descriptor of 'Caucasian' or 'White,' instead of Middle-Eastern. All of these actions represent significant efforts to conceal and suppress the identities and origins of the perpetrators.

As far as the public is aware, there have been two known attempts to assassinate President Donald J. Trump. The attack in Butler, PA was unsuccessful; the supposed shooter, Crooks, missed by just 1/16th of an inch,successfully piercing Trump's ear. The alleged shooter was subsequently shot in the head by a law enforcement entity. The second attempt was foiled at a Florida golf course, where Ryan Routh was waiting for DJT's golf cart to come within target range. He was apprehended following a hurried escape. Investigations revealed connections to foreign entities and our very own intelligence apparatus. I am convinced there have been additional plots that have not been made public. This is in addition to his political adversaries, backed by the globalist elite cabal, engaging in extensive lawfare, media manipulation campaigns (Russia, Russia, Russia), and countless investigations into various matters, all resulting in nothing. They raided his Mar-a-Lago residence, doing everything possible to bankrupt and imprison him indefinitely. This has been ongoing for ten long years, utilizing OUR weaponized federal government. None of this appears democratic to me; rather, it resembles a full-blown Democracy, which is contrary to a Constitutional Republic. To top this off there are separate Iranian IRGC or MOIS operatives within the perimeter of the US trying to actively assassinate Trump. We also have confirmed intelligence that rocket-propelled grenades and launchers (RPG's) with Middle-Eastern (Iranian) nomenclature were successfully smuggled through the South/West border during the Biden regime. Iran has vowed revenge for General Soeilimeni's death.

June 2025 Iranian Targets Jews with Moltovs- On June 1, 2025, at approximately 2:00 p.m. MST, SOLIMAN threw two lit Molotov cocktails at individuals participating in a pro-Israel gathering near the Boulder 3 Courthouse, located at 1303 Pearl St, Boulder, CO 80302. When he threw the Molotov cocktails, SOLIMAN yelled "**Free Palestine**!" and the Molotov cocktails ignited in the crowd of people, causing burn injuries to eight individuals. SOLIMAN was detained by local law enforcement. A black plastic container with a yellow top was found near where SOLIMAN was arrested. In the black plastic container were at least fourteen unlit Molotov cocktails, comprised of glass wine carafe bottles or Ball jars containing clear liquid and red rags hanging out of the bottles.

SOLIMAN stated that he had researched on YouTube how to make Molotov cocktails, purchased the ingredients to do so, and constructed them. He traveled to Boulder in his vehicle with the Molotov cocktails and threw two of them at individuals participating in the gathering. He stated that he wanted to kill all Zionist people and wished they were all dead. He stated that he would do it (conduct an attack) again. Throughout the interview, Soliman stated that he hated the "Zionist group" and did this because he needed to stop them from taking over "our land," i.e., Palestine. He stated that he had been planning the attack for a year." The suspect's family filed a suit to have charges dropped; it was dismissed by the courts.

In June of 2025 two lawmakers who were victims of a targeted assassination at their homes in Minnesota this year were Minnesota House Speaker **Emerita Melissa Hortman** and her husband, **Mark Hortman**, who were killed on June 14th. Another lawmaker, **State Senator John Hoffman**, and his wife, **Yvette Hoffman**, were shot and injured in a separate but related incident on the same night. The attacks were considered politically motivated. The suspect, **Vance Boelter**, was later apprehended after a manhunt. Federal prosecutors described the attacks as "targeted **political assassinations**" and stated that Boelter had a list of other Democratic lawmakers and abortion rights advocates he intended to harm. Authorities found a manifesto in his vehicle. "After extensive research and planning, Boelter embarked on a murderous rampage targeting Minnesota's elected officials and their families. On June 14, 2025, the defendant disguised himself as a member of law enforcement and traveled to the homes of Democratic elected officials with the intent to intimidate and murder. Early that morning, the defendant traveled to the Hoffman's home in Champlin, Minnesota. By posing as a police officer, Boelter compelled the Hoffmans to answer their door. He then repeatedly shot Senator Hoffman and Yvette Hoffman and he attempted to shoot their daughter, Hope Hoffman.

Boelter then traveled to the homes of two other Minnesota elected officials, only to find that no one at those locations was home. He next drove to the home of Speaker Emerita and Representative Melissa Hortman. There, Boelter repeatedly shot, and killed, Representative Hortman and her husband, Mark. Following a two-day manhunt, law enforcement arrested the defendant near his family residence in Green Isle, Minnesota." He has been charged with murder, attempted murder, and other related charges. Even though he was a radical leftist he essentially 'turned' on the lawmakers for voting opposite of democrat agendas. I repeat, the democrat lawmakers had flipped their vote in agreement with Conservatives, for that they were assassinated in the safety of their homes.

Let us not overlook the two Israeli staff members who were tragically shot in Washington D.C. by a pro-Hamas, pro-Gaza individual. In May 2025, two employees of the Israeli embassy lost their lives outside the Capital Jewish Museum in Washington, D.C., at the hands of a gunman who shouted, "Free, free Palestine!" as he was taken into custody. The victims were a young couple, Yaron Lischinsky (30) and Sarah Lynn Milgrim (26), both of whom worked at the Israeli

embassy. The Israeli ambassador stated that they were planning to get engaged in Jerusalem the following week. The shooter was identified as Elias Rodriguez, a 30-year-old resident of Chicago who had come to Washington for a work conference. Court documents and witness testimonies indicated that Rodriguez shouted, "I did it for Palestine, I did it for Gaza," during his arrest, suggesting that this was a targeted attack. Prosecutors later disclosed that Rodriguez had worn a body camera to document the murders, highlighting the premeditated aspect of the crime.

"Surveillance footage reportedly shows Rodriguez walking past the victims before turning and firing multiple rounds. After the victims fell, he allegedly continued firing at close range, including as one attempted to crawl away. Investigators recovered a 9mm handgun and 21 spent shell casings at the scene.

Rodriguez entered the Museum after he committed the murders. Witnesses and surveillance video reportedly confirmed his involvement. He had flown from Chicago to Washington the day prior with the firearm declared in his checked luggage."

July 21, 2022, during a campaign rally in Fairport, New York. Now, Congressman Lee Zeldin at the time, Zeldin was the Republican candidate for governor of New York. A man, later identified as **David Jakubonis**, climbed on the stage, approached Zeldin, and attempted to attack him with a sharp pointed object (improvised stabbing implement). Zeldin, a military veteran, was able to grab the attacker's wrist and other people in the audience quickly intervened to subdue the man until police arrived. Zeldin was not seriously injured in the attack and returned to the stage to finish his speech.

Prior to that, In June 2022, a California man named Nicholas John Roske traveled to Chevy Chase, Maryland, with the intention of assassinating Supreme Court Justice Brett Kavanaugh. The plot was thwarted when Roske called 911 on himself and was arrested near Kavanaugh's home. According to court documents and police interviews, Roske was upset by a leaked draft opinion suggesting the Supreme Court was poised to overturn *Roe v. Wade* and was also concerned about the possibility of Kavanaugh voting to loosen gun control laws. Prosecutors later revealed that Roske had also planned to kill two other conservative justices. Roske flew from his home in Simi Valley, California, with a suitcase and backpack containing a Glock 17 pistol, ammunition, a tactical knife, pepper spray, zip ties, and duct-tape. He told investigators he had been planning the attack for about a month. Thankfully he was apprehended in the justice's neighborhood possessing the backpack.

Prior to that, on June 14, 2017, a gunman opened fire on Republican members of Congress and their staff during a baseball practice in Alexandria, Virginia. The annual charity game was

scheduled for the next day, and the practice was underway at Eugene Simpson Stadium Park when the attacker began firing. The gunman was **James T. Hodgkinson**, a 66-year-old from Belleville, Illinois. Hodgkinson was reported to be a “left-wing activist” who had expressed anger and staunch opposition toward the Republican Party and then-President Donald Trump on social media. Prior to the attack, Hodgkinson had been living out of a van in Alexandria for weeks. A congressional aide reported that before the shooting, Hodgkinson had asked if the team on the field was Republican or Democrat. Hodgkinson used a rifle and a pistol, firing at least 70 rounds. He struck Steve Scalise, giving him life threatening injuries. U.S. Capitol Police special agents, who were part of House Majority Whip Steve Scalise's security detail, immediately engaged the shooter. Alexandria Police also responded and joined the shootout, which lasted for about 10.

New York Governor Kathy Hochul deployed National Guard members to the NYC subway system in March 2024, with additional members added later in December 2024, to address a rise in subway crime and to deter individuals from carrying weapons. The deployment involves around 750-1000 National Guard members and state police performing random bag searches at busy subway stations. Rising Crime in early 2024, New York City's subway system experienced a significant increase in crime, including assaults. NG members conduct random bag searches alongside NYPD and state police at the entrances of busy subway stations.Some riders feel safer with increased LE presence, while others view the militarized presence as unsettling. 250 extra NG were added in December of 2024. That rise in crime included the jailing of former Marine Daniel Penny for defending the public from a crazed lunatic who threatened to kill a helpless elderly person and other innocents riding the subway. Penny prosecuted a choke-hold that ended up taking the attacker's life unexpectedly and unintentionally. NYC laws, WOKE District Attorneys prosecutors and a likely misled uninformed jury was not in Penny’s favor. A while after Penny’s incident a Honduran criminal alien decided to set a sleeping woman, located on a subway bench, completely on fire, killing her, I believe he watched.

As can be easily observed, the former Democrat party, which once merely held differing opinions from conservatives while still embracing American values, following the constitution and having some sense of Patriotism, has now completely adopted ideologies associated with Cultural Marxism, Communism, Socialism, Anarchism, and Islamism covering many flavors amongst the diverse constituencies and extremist like anti-American leadership like AOC, Tim Walz, Ilhan Omar, Hakeem Jeffires, seriously do they have a party left? The issue is that the majority of Americans do not subscribe to these ideologies, as they are fundamentally opposed not only to conservative values and principles, but also to the very essence of The United States of America, including their incompatibility with the Constitution, the Bill of Rights, and the Declaration of Independence. Indeed, most of the wars and conflicts in which the USA has engaged were fought purportedly to counter and eradicate these perilous authoritarian and totalitarian Communist ideologies, such as Fascism and Nazism.

The Biden administration let 200,000 Special Interest Aliens (SIA) into the country without vetting. Meaning CBP had them at a checkpoint logged their I.D (if they had one) but didn't fully run their name through the system or their country of origin does not have the capability to supply this requested data. Data like what local, regional convictions they have and the current status I.E crimes like Terrorism, Murder, Rape, Crimes Against Children, Narcotics Sales/Possession/Traffic, Human Trafficking and the disposition of the charges, I.E parole, probation, work relsease

Additionally, there were over 13k criminal aliens released into the USA that were convicted of murder or had a pending charge of murder. It seems as of January 2025 only 171 had been picked up. More ERO special operations have been tasked such as “Operation **CrossCheck**” where they rounded up 2059 bad guys.

Source: DHS-ICE Website

Undoubtedly, there exists both foreign and domestic influence and logistical funding in many facets of this situation. Globalist elites, including figures like Neville “Roy” Singham, George Soros, and Bill Gates, are among the most prominent names that come to mind. For example, Singham resides in China, establishing a clear foreign connection; however, his wife is an elitist activist who founded Code-Pink, which claims to represent grassroots movements in the US. There are literally thousands of NGOs, charities, or 501(c)(3) organizations created as “fronts” or “covers” to obscure and disguise the insidious chaos and violence directed at citizens, businesses, institutions, and both federal and local governments.

FOREIGN NATION STATE ACTORS AND HYBRID WARFARE

This is typically where Anarchism becomes relevant, as it involves the mobilization of these hundreds of groups protesting various issues, such as the Israel-Hamas conflict, the Russia-Ukraine war, or Gender Equality—take your pick. They often regurgitate propaganda, such as the nonexistent genocide in Gaza, or the plight of starving people in Gaza, which is occurring due to the ruthless actions of Hamas, a designated foreign terrorist organization since the 1990's. The propaganda machine, combined with Hamas' adept execution of "narrative design," has been extraordinarily effective information warfare campaigns . Hamas has also recently committed a heartless attack on Israel, resulting in the deaths of over twelve hundred (1200) Jewish citizens.

Certainly, there are also climate activists, DEI advocates, gender justice proponents, LGBQT supporters, and numerous other progressive issues championed and contested by so-called "useful idiots" and financially motivated agitators. Hamas has consistently received backing from Iran. Iran, mainly through its Islamic Revolutionary Guard Corps (IRGC), has offered enduring support to Hamas, which is a component of Iran's "Axis of Resistance" opposing Israel and the United States.

This IRGC support includes financial aid, weapons, and training, and is a well-documented aspect of Iranian foreign policy. U.S. and Israeli officials have estimated that Iran provides tens of millions of dollars to Hamas and other Palestinian militant groups annually. **The IRGC's elite Quds Force has been instrumental in providing military training and weaponry to Hamas over the years, but also another lingering threat currently operating on U.S, Mexican and Venezuelan soil, Hezbollah.** This has included smuggling automatic weapons and operational components into Gaza through networks and tunnels to bolster Hamas's military capabilities. Hamas leaders have publicly acknowledged this support. In the weeks leading up to the October 7, 2023, attack on Israel, for example, reports indicate that hundreds of Hamas and Palestinian Islamic Jihad (PIJ) fighters received specialized combat training in Iran. Documents captured by Israeli forces suggest coordination between the IRGC and Hamas regarding the October 7, 2023, attack, including discussions on planning and deployment. It should be noted that intelligence from Sarah Adams' sources have evidence that the Oct 7th Hamas attackers also trained within Afghanistan inside AQ/Taliban terrorist camps prior to assaulting Israel.

Per reports from *Clifford D. May,* the founder and president of the Foundation for Defense of Democracies (FDD) and a columnist for the Washington Times. *"*A retired U.S. Air Force officer, now a visiting scholar at National Chengchi University in Taiwan, reports that the Israel Defense Forces have found large amounts of advanced Chinese military equipment and weapons technology in Gaza, and that tunnel engineers from China's People's Liberation Army helped

Hamas build the sophisticated, extensive, and expensive fortress under Gaza, a key strategic component in the ongoing war against Israel."

The Iran-Hamas relationship is rooted in strategic and ideological alignment, despite sectarian differences:

- **Anti-Israel stance:** Both Iran, a Shia-led state, and Hamas, a Sunni Islamist group, are united by their opposition to Israel. This shared objective often overrides sectarian tensions.
- **Proxy warfare:** The IRGC views proxy groups like Hamas as a cost-effective way to project influence and threaten its adversaries without engaging in direct, full-scale warfare.
- **Shifting dynamics:** While the relationship is long-standing, it has experienced fluctuations. For example, relations were strained when Hamas did not support the Iran-backed Syrian regime during the civil war but later reconciled.

In 1999, two scheming top level colonels in the People's Liberation Army (PLA), Qiao Liang and Wang Xiangsui, penned Unrestricted Warfare, a venomous manifesto masquerading as military theory. This book lays bare the Communist Chinese Party's (CCP) ruthless ambition: to dismantle the United States not through conventional battles, but via a shadowy, all-encompassing assault on every pillar of American society. This doctrine fuels the CCP's ongoing hybrid war, blending economic sabotage, cyber intrusions, cultural poison, and more to erode U.S. supremacy. The CCP, a tyrannical regime built on oppression, coercion, and deceit, views America as its prime obstacle to global domination.

Their strategy exploits Western openness while shielding their own ruthless, iron-fisted control, aided by naive and complicit supporters in international business, academia, and politics who prioritize profit over principle. Economically, the CCP wields unrestricted warfare like a blunt instrument to cripple America's prosperity. Through predatory trade practices, intellectual property theft, and forced technology transfers, Beijing siphons trillions from U.S. innovation. Huawei's infiltration of global telecoms isn't about fair competition—it's espionage disguised as business, enabling data theft and network sabotage.

The Trump administration has successfully pushed back with tariffs, export controls, and investment scrutiny, curbing some CCP aggression and revitalizing domestic manufacturing, but it needs to go further by fully decoupling supply chains and imposing harsher penalties on enablers. The so-called "trade war" exposed this: China's economic coercion, including tariffs and supply chain manipulations, aims to bankrupt American industries while flooding markets with subsidized goods. Domestically, CCP-linked entities buy up U.S. farmland and critical infrastructure, not for benign investment, but to control food supplies and exert leverage during crises. Their Belt and Road Initiative ensnares nations in debt traps.

While U.S. intelligence officials have stated that Iran did not orchestrate the October 7, 2023, attack or have foreknowledge of its precise timing, Iran's decades of support for Hamas's military and terrorist infrastructure are seen as broadly complicit in the group's actions.

The Chinese Communist Party (CPP) has hold of the Iranian regime having joint ventures in Venezuela where IRGC cadre trains imported terrorist Hezbollah fighters to train at Margherita Island, a designated terror training outpost. Maduro has provided jihadi Hezbollah terrorist authentic citizenship and travel documents sufficient to bypass US authentication protocol. Hezbollah and the wider Lebanese immigrant population have established communities and legitimate businesses in Venezuela that fund terror operations globally. China secured a 600 billion dollar purchase of Iran’s crude oil and I’m certain the deal is three-ways with Maduro’s Venezuela. Circumventing Sanctions is the main trade relationship, particularly in oil, serves as a crucial economic lifeline for Iran by helping it mitigate the effects of U.S. and international sanctions this rings true for Venezuela also. This is primarily why we have the Israel/Gaza conflict meant to distract the U.S coupled with Ukraine while the CCP focuses elsewhere like Taiwan.

CCP FORWARD U.S OPERATIONS

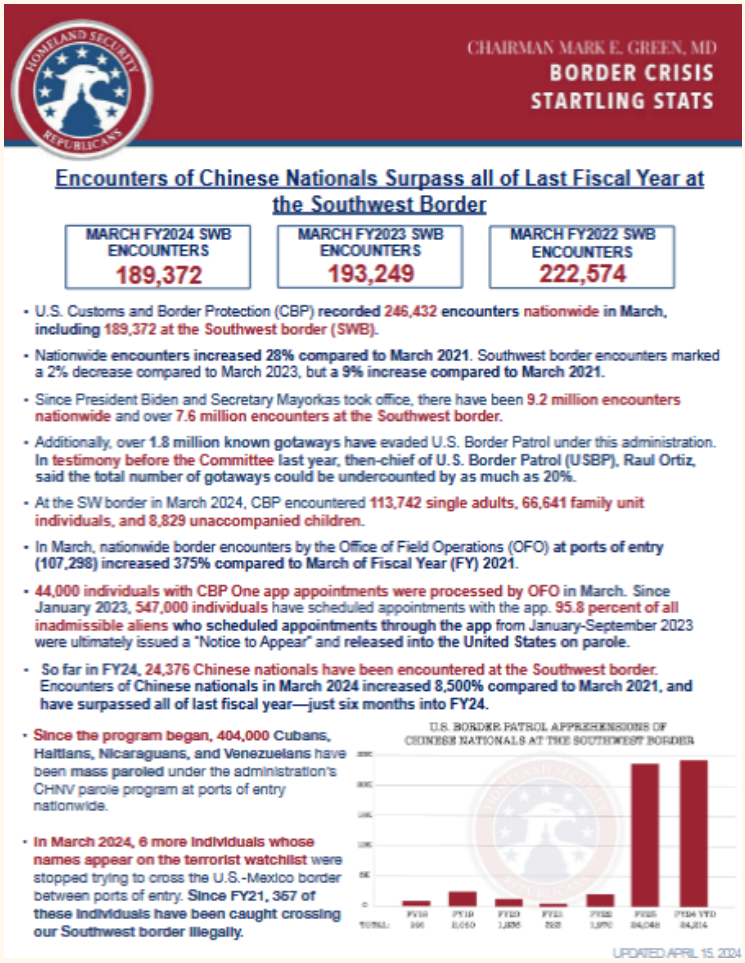
MSS MINISTRY OF STATE SECURITY	美国中美友好协会 China America Friendship Association in USA	US-China Peoples Friendship Association 友

I have duly noted that during the Biden administration there were an estimated fifty-thousand (50k) illegal ethnic Chinese migrants that arrived on US shores in a short period. In total over one-hundred thousand (189,37k). Many reports indicated that the majority of these immigrants were Male, without families, military fighting aged 18-55, all had military haircuts, fresh change of clothes and military demeanor. They all had what we refer to as “Military Bearing”. In between this reporting there were several US incidents where a Chinese national was caught attempting to penetrate or conduct illegal surveillance on military installations or sensitive government sites. In Lompoc California an operative was caught operating a surveillance drone over and around Vandenberg Space Force Base. He was arrested and quickly released due to the system being

compromised. In a just world, the suspect would have been interrogated, exploited and charged with espionage.

For reference, all males in China are obligated to participate in military or government service. Thus, technically, ALL of these men who have entered illegally should be viewed as SUSPECTED foreign enemy agents or combatants. The CCP does not permit just anyone to exit China. There is a necessary approval process that must be completed, and one must receive approval from the CCP. So, how did these 50,000 to 189,372k soldiers or operatives leave the CCP?

The general consensus is that they are present for multiple mission sets or purposes. Many could be deployed for a coordinated military offensive against key locations. Many will likely integrate into the extensive US university system, and once their education is finished, they will return to the CCP for debriefing, knowledge exploitation and transfer will occur. A large number will be incorporated into American industry post graduation, working for major corporations with the aim of conducting industrial espionage at a future date or stealing intellectual property (IP) for the CCP. Another task a Chinese operative may be charged with is to, set-up and operate hacking stations inside a companies walls or just outside the facility in order to more easily breach targeted systems stealing IP or to sabotage, by causing damage or disruptions to business operations or systems. Regardless of their intentions, they must be expelled from US territory without delay. If I were in charge, I would turn many of them, creating hundreds of double agents and sending them back home with a guarantee to return legally to a residence and employment.



CHAIRMAN MARK E. GREEN, MD

BORDER CRISIS STARTLING STATS

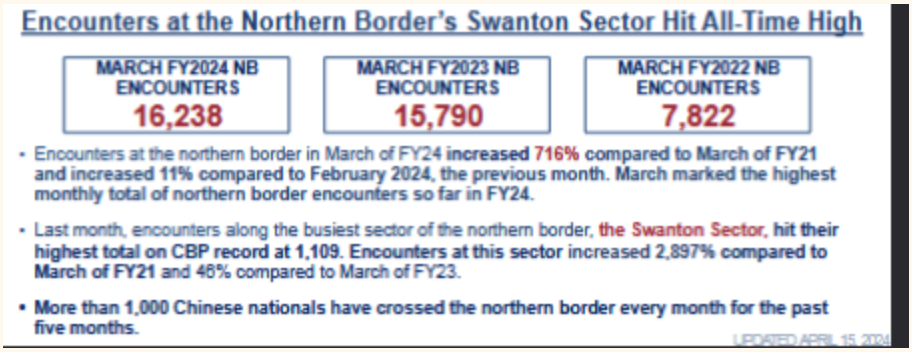
Encounters of Chinese Nationals Surpass all of Last Fiscal Year at the Southwest Border

MARCH FY2024 SWB ENCOUNTERS	MARCH FY2023 SWB ENCOUNTERS	MARCH FY2022 SWB ENCOUNTERS
189,372	193,249	222,574

- U.S. Customs and Border Protection (CBP) **recorded 246,432 encounters nationwide in March, including 189,372 at the Southwest border (SWB).**
- Nationwide **encounters increased 28% compared to March 2021.** Southwest border encounters marked a 2% decrease compared to March 2023, but a **9% increase compared to March 2021.**
- Since President Biden and Secretary Mayorkas took office, there have been **9.2 million encounters nationwide** and over **7.6 million encounters at the Southwest border.**
- Additionally, over **1.8 million known gotaways** have evaded U.S. Border Patrol under this administration. **In testimony before the Committee last year, then-chief of U.S. Border Patrol (USBP), Raul Ortiz, said the total number of gotaways could be undercounted by as much as 20%.**
- At the SW border in March 2024, CBP encountered **113,742 single adults, 66,641 family unit individuals, and 8,829 unaccompanied children.**
- In March, nationwide border encounters by the Office of Field Operations (OFO) **at ports of entry (107,298) increased 375% compared to March of Fiscal Year (FY) 2021.**
- **44,000 individuals with CBP One app appointments were processed by OFO in March. Since January 2023, 547,000 individuals** have scheduled appointments with the app. **95.8 percent of all inadmissible aliens who scheduled appointments through the app** from January-September 2023 were ultimately issued a "Notice to Appear" and **released into the United States on parole.**
- **So far in FY24, 24,376 Chinese nationals have been encountered at the Southwest border. Encounters of Chinese nationals in March 2024 increased 8,500% compared to March 2021, and have surpassed all of last fiscal year—just six months into FY24.**
- **Since the program began, 404,000 Cubans, Haitians, Nicaraguans, and Venezuelans** have been mass paroled under the administration's CHNV parole program at ports of entry nationwide.
- **In March 2024, 6 more individuals whose names appear on the terrorist watchlist** were stopped trying to cross the U.S.-Mexico border between ports of entry. **Since FY21, 357 of these individuals have been caught crossing our Southwest border illegally.**

U.S. BORDER PATROL APPREHENSIONS OF CHINESE NATIONALS AT THE SOUTHWEST BORDER

UPDATED APRIL 15, 2024



Encounters at the Northern Border's Swanton Sector Hit All-Time High

MARCH FY2024 NB ENCOUNTERS	MARCH FY2023 NB ENCOUNTERS	MARCH FY2022 NB ENCOUNTERS
16,238	15,790	7,822

- Encounters at the northern border in March of FY24 **increased 716%** compared to March of FY21 and increased **11%** compared to February 2024, the previous month. March marked the highest monthly total of northern border encounters so far in FY24.
- Last month, encounters along the busiest sector of the northern border, **the Swanton Sector, hit their highest total on CBP record at 1,109. Encounters at this sector increased 2,897% compared to March of FY21** and 46% compared to March of FY23.
- **More than 1,000 Chinese nationals have crossed the northern border every month for the past five months.**

UPDATED APRIL 15, 2024

IRREGULAR WARFARE (IW)-

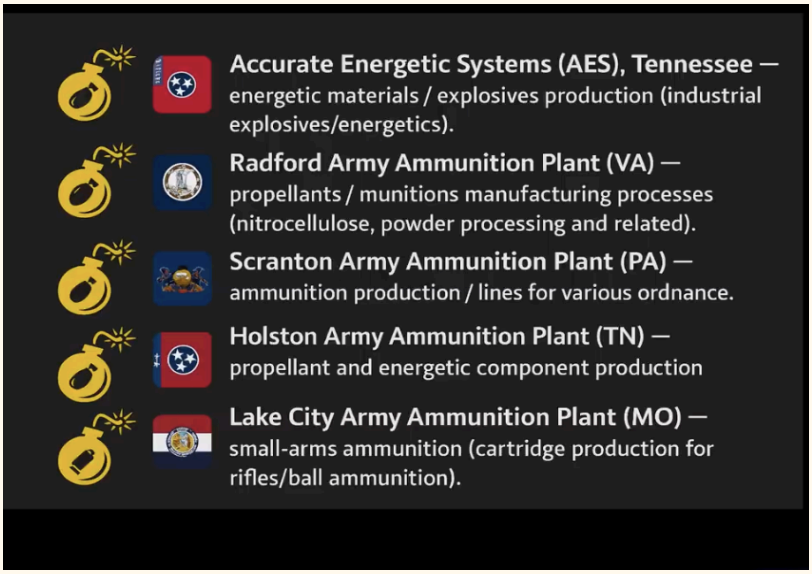
Irregular Warfare is Irregular Warfare (IW) is a violent struggle for influence over a population that uses indirect, non-traditional, and asymmetric methods. Unlike conventional or "regular" warfare, it does not prioritize the physical destruction of an enemy's armed forces. Instead, the goal is to undermine or support a political authority's legitimacy and will.

While irregular warfare has become a prominent term in modern military doctrine, the types of activities it describes have existed for centuries. Both state and non-state actors can engage in IW.

Key characteristics

- *Focus on legitimacy: The central objective is to gain or erode a political authority's legitimacy and win the support of the populace. The battlefield is less about territorial control and more about public perception and political will.*
- *Protracted struggle: Irregular warfare is an inherently long-term and patient effort that tests the political and emotional resolve of an adversary and its allies.*
- *Indirect and asymmetric approach: Actors often use indirect and unconventional tactics to offset the conventional military advantages of a stronger opponent. This involves avoiding direct, large-scale confrontations.*
- *Exploitation of vulnerabilities: IW targets an adversary's weaknesses and societal vulnerabilities through a combination of military and non-military tools.*
- *Blurred lines: The distinction between combatants and non-combatants can be ambiguous, and the actions often take place across a spectrum of conflict, from subversion and coercion to outright violence.*

The below graphic depicts the U.S Munitions plants or Explosives manufacturers who have had questionable incidences of Fire or Explosion or suspected Sabotage in the last few years..



Accurate Energetic Systems (AES), Tennessee — energetic materials / explosives production (industrial explosives/energetics).
Radford Army Ammunition Plant (VA) — propellants / munitions manufacturing processes (nitrocellulose, powder processing and related).
Scranton Army Ammunition Plant (PA) — ammunition production / lines for various ordnance.
Holston Army Ammunition Plant (TN) — propellant and energetic component production
Lake City Army Ammunition Plant (MO) — small-arms ammunition (cartridge production for rifles/ball ammunition).

SOURCE: Monkey WERX-Youtube Channel

As I recall my 20+ year career protecting people, government contract facilities, classified hardware and information and sensitive research surrounding our Warfighters tools. Part of which entailed protecting a high value, emerging high technology, research & development & special technology manufacturing facility consisting of four campuses, 15 buildings, we had only a few incidents of suspected sabotage. One event in particular involved two employees of an ethnic descent, one had just relinquished their dual citizenship, a requirement for obtaining certain clearances, he did this in protest. One of our labs collectively known as the "Bomb Room" had a particular process running inside. The process involved chemical gases both hydrogen and Silane (SiH_4) ; one is explosive, the other incendiary and explosive upon contact with Oxygen (Air). They were both housed in cylinders contained and dispensed within a "Gas Cabinet" which is an encapsulated housing box with protruding hoses. The set-up requires manual controls to activate, but is monitored remotely over a network, which allows for adjustment of controls, i.e flow rate, quantities, duration etc. Whatever the heck, the set-up blew up the lab, blew the DoD/U.L/OSHA rated entry-door off hinges, consisting of fire rated ½ hour, solid wood core, X-07 Model Lock (associated panic hardware), and the hinges were completely off the door frame, throwing the door into the regularly occupied hallway. Several could have easily been killed if present. We ended up contacting the FBI to investigate a sabotage case. They were in town about 1.5 weeks while the hallway and blown up room remained taped off keeping out looky loos. Incidents like this happen across the country and the public never hears a lick of it.

After some research looking back to 2021 until present, there have been several incidences of either suspicious fires or explosions at some of the many different Oil Refineries within the U.S.

This is a list of major oil refinery fires and explosions that have occurred in the United States from 2021 to 2025. All of these incidents were attributed to accidental causes, such as equipment malfunction or operator error, based on reports from the U.S. Chemical Safety and Hazard Investigation Board (CSB), other official investigations, and company statements. No evidence of sabotage, arson, or terror was reported in the publicly available information regarding these incidents. If the public was aware that Irregular Warfare was occurring between nation states and independent threat actors they would likely have a different attitude and level of concern.

2021

- ***Chevron Phillips Chemical Company, Port Arthur, Texas***
  (February 15, 2021): *A hydrogen and hydrocarbon gas mixture was accidentally released into a fired heater and ignited, causing a fire.*

  Details: *According to a CSB report, the root cause was determined to be water that froze in the instrument air supply during freezing temperatures, preventing a fuel gas isolation valve from closing.*

ExxonMobil Baytown Complex, Baytown, Texas
(December 23, 2021): *An explosion and fire occurred in the refinery's hydrotreater unit.*

Details: *Four workers were injured, but no fatalities were reported.*

2022

- ***BP-Husky Toledo Refinery, Oregon, Ohio***
  (September 20, 2022): *A catastrophic explosion and fire killed two BP employees and resulted in nearly $600 million in property damage.*

  Details: *A CSB report concluded that a series of failures, including inadequate liquid overflow prevention, poor management of abnormal situations, and an overwhelming "alarm flood," led to the incident.*

- ***BP Whiting Refinery, Whiting, Indiana***
  (August 2022): *While not an explosion or fire, a power outage during flooding caused foul odors and an oil sheen in nearby floodwater.*

  Details: *Reports of headaches and nausea followed the incident.*

2023

- ***Phillips 66 Borger Complex***
  , Borger, Texas (January 17, 2023): *A fire occurred at the complex that resulted in one contract worker fatality and injuries to five other workers.*

  Details: *While the fire was extinguished the same day, the worker died later from injuries sustained in the incident. The cause was under investigation.*

- ***Shell Deer Park Chemicals facility, Deer Park, Texas (May 5, 2023):*** *A fire erupted at the olefins unit of the petrochemical plant, sending five contract workers to the hospital.*

  Details: *No evacuation or shelter-in-place orders were issued for the public.*

- ***Marathon Petroleum refinery, Garyville, Louisiana***
  (August 25, 2023): *A fire started due to a naphtha leak at two chemical storage tanks.*

  Details: *Some nearby residents were evacuated, though reports also indicate a lack of immediate community alarms.*

2024

- ***Phillips 66 refinery, Borger, Texas***
  (April 1, 2024): *Two employees suffered severe burns in a fire at a processing plant within the refinery complex.*

Details: *The cause of the fire was under investigation.*

- ***PBF Energy refinery, Torrance, California***
  (June 1, 2024): *A fire burned three temporary office trailers.*

  Details: *The refinery's operations were not impacted.*

- ***Phillips 66 refinery, Billings, Montana***
  (February 9, 2024): *Two separate fires occurred in one day at the refinery's "fines pit," causing plumes of black smoke.*

  Details: *No injuries or evacuations were reported.*

2025

- ***Chevron refinery, El Segundo, California***
  (October 2, 2025): *An explosion and massive fire broke out at the largest refinery on the West Coast.*
  - ***Details:*** *It was not immediately clear what caused the blaze, and an investigation is underway.*
- ***BP Whiting refinery, Whiting, Indiana***
  (October 24, 2025): *A fire broke out after an operational incident and external power outage.*
  - ***Details:*** *Multiple units were taken offline, but no reports of injuries or fatalities were included in the immediate news coverage.*

From a high-level 30k ft. perspective of the entire situation outlined in this report, much of the dialogue, protest activities, riots, demonstrations, and instances of kinetic violence in our nation, along with various pockets of instability, are primarily organic in nature. However, a significant portion is funded internally by individuals such as Soros, Gates, and many others. Additionally, many of these efforts are influenced by non-organic nation-state actors outside the continental United States (OCONUS), including China (CCP/MSS), Russia (SVR), Iran (IRGC, MOIS), North Korea (MSS), or Cuba (DGI). Their capacity for manipulation and influence knows no limits.

The interference from these nation-state actors must always be a primary consideration in any analysis or evaluation. Irregular warfare has deeply infiltrated the essence of American discourse. This interference typically ceases when the funding check is cut, leaving behind breadcrumbs for investigators like Ryan Mauro to uncover. Without these breadcrumbs, it becomes increasingly difficult to discern whether an organization is genuinely organic or

grassroots, or if it is merely a byproduct of foreign intelligence operations that provide funded propaganda, influence, campaign efforts, or direct action operations through proxies.

The Chinese Communist Party (CCP) has been involved in a multitude of irregular warfare activities against the United States. These initiatives, often labeled as "unrestricted warfare," include actions that fall below the ‘conventional' threshold of armed conflict and are designed to undermine the U.S. and fulfill the CCP's strategic objectives without engaging in direct, open confrontation, such as kinetic Large Scale Combat Operations (LSCO). .
Key irregular warfare activities used by the CCP against the U.S. include:
Cyber operations and espionage

- **Espionage:** China's intelligence services, backed by the military, have repeatedly used hacking and other methods to steal U.S. military and commercial technology, intellectual property, and sensitive government data. Targets have included defense contractors, technology firms, and government agencies.
- **Critical infrastructure attacks:** Cyberattacks on U.S. critical infrastructure, such as power grids, telecommunications networks, and water systems, have become increasingly common. These attacks, sometimes attributed to hacking groups like Volt Typhoon or Salt Typhoon, are seen as attempts to disrupt U.S. systems and deter military responses, particularly concerning Taiwan.
- **Infiltration of networks:** State-sponsored Chinese hackers have been found to be deeply embedded in the networks of U.S. telecommunications companies, potentially allowing for intelligence gathering and surveillance.
-

Political Influence and Dis/Mal/Mis-information

- **Disinformation campaigns:** China operates sophisticated online disinformation campaigns on platforms like TikTok and X (formerly Twitter). These campaigns aim to sow political division in the U.S., portray American democracy as chaotic and declining, and influence public opinion.
- **Exploitation of social rifts:** Chinese-backed actors have targeted specific demographic groups with tailored misinformation to exacerbate distrust and stoke political animosities within American society.
- **Intimidation of dissidents:** The CCP uses its online and intelligence networks to harass and intimidate Chinese dissidents and critics residing in the U.S.. This has included using online platforms to deliver threats of violence.
- **Subnational influence operations:** The CCP, through front organizations like the United Front Work Department, targets U.S. state and local leaders to influence their policies and reduce criticism of China.
-

Economic Coercion and Manipulation

- **Weaponizing trade:** China has used economic coercion by imposing trade restrictions, sanctions, and boycotts against countries or companies that cross its political lines. This can involve cutting off access to China's lucrative market to pressure companies and governments.

- **Supply chain control:** The CCP is working to develop vertically integrated supply chains globally, which gives it leverage to use market access and trade controls to pressure or incentivize behavior.

- **Fentanyl trade:** The CCP has been accused of facilitating the flow of fentanyl precursor chemicals to the U.S. via Mexico, contributing to the fentanyl crisis in America.

- **Targeting of U.S. businesses:** Chinese authorities have raided the offices of U.S. firms and initiated probes to retaliate against U.S. policies, such as semiconductor technology export controls.

Military and Paramilitary Actions

- **Maritime Gray zone activities:** China's maritime militia, which is trained and funded by the CCP, has engaged in bullying and harassment of regional partners in the South China Sea. While these actions are typically directed at U.S. allies, they are intended to weaken U.S. influence and project Chinese power.

- **Bioweapons proliferation risks:** Experts suggest that the CCP is investing heavily in asymmetric weapons, including bioweapons, as part of an "Assassin's Mace" (Shāshǒujiǎn) doctrine. This doctrine is focused on identifying vulnerabilities in an enemy state with superior capabilities, such as the U.S., and precision targeting them to cause paralysis.

Other Unconventional Tactics

- **Leveraging universities:** Chinese intelligence services have used students and researchers to acquire U.S. technology and research from Western universities.
- **Recruitment of agents:** Traditional methods of espionage, such as recruiting agents through financial incentives or blackmail, are used alongside cyberattacks.
- **Drug networks:** In addition to fentanyl precursor chemicals, concerns have been raised about CCP involvement in or enabling of other drug trafficking networks as a destabilizing irregular warfare tactic.

Fentanyl

Fentanyl is a potent synthetic opioid that has become a notable focus for /FTO/TCOs due to its high profitability and potency. Although originally synthesized in 1960, the DEA began to note stark inclines in fentanyl-related deaths between 2011-2016. FTO/TCOs in Mexico like the CDS and CJNG are increasing production of illicit fentanyl and fentanyl-laced pills smuggled into the United States. These TCOs often source precursor chemicals from countries like China, highlighting the global nature of the supply chain and these operations.

China's Role in the Fentanyl Crisis

While the Chinese Communist Party (CCP) is not a TCO, the CCP is complicit in TCO activities by subsidizing the Chinese companies' production and export of fentanyl precursors to TCOs in Mexico. A House Select Committee on the CCP report published in April 2024 established that the PRC government, under the control of the CCP conducts the following:

1. 1
   Directly subsidizes the manufacturing and export of illicit fentanyl materials and other synthetic narcotics through tax rebates.
2. 2
   Gave monetary grants and awards to companies openly trafficking illicit fentanyl materials and other synthetic narcotics.
3. 3
   Holds ownership interest in several PRC companies tied to drug trafficking.
4. 4
   Fails to prosecute fentanyl and precursor manufacturers.
5. 5
   Allows the open sale of fentanyl precursors and other illicit materials on the extensively monitored and controlled PRC internet.
6. 6
   Censors content about domestic drug sales but leaves export-focused narcotics content untouched.
7. 7
   Strategically and economically benefits from the fentanyl crisis

IRANIAN FAILED ATTEMPTS ON U.S SOIL

U.S. authorities have publicly linked multiple failed assassination plots and intelligence operations on U.S. soil to Iran's Islamic Revolutionary Guard Corps (IRGC), its Quds Force (IRGC-QF), and the Ministry of Intelligence and Security (MOIS). These groups act as arms of the Iranian government, targeting perceived enemies abroad. For some reason Iran still has animosity for the targeted killing of IRGC Commander General Suleimani who was struck by drone attack order by Donald Trump. The Quds Force has dispatched more than one kill team within the United States.

IRGC and Quds Force (IRGC-QF) plots

- Plot to assassinate John Bolton (2022): The Department of Justice (DOJ) charged Shahram Poursafi, a member of the IRGC-QF, for attempting to arrange the murder of former National Security Advisor John Bolton. The plot was assessed to be in retaliation for the January 2020 killing of Quds Force commander Qassem Soleimani.
- Plot to assassinate Mike Pompeo (2022): In a related case, the DOJ charged an IRGC operative for a murder-for-hire scheme targeting former Secretary of State Mike Pompeo. The suspect was not apprehended in the U.S.
- Plot to assassinate Donald Trump (2024): The DOJ announced charges against Iranian asset Farad Shakari for directing a network of criminal associates, on orders from the IRGC, to plan the assassination of then-President-elect Donald Trump.
- 2011 plot against the Saudi ambassador: The DOJ revealed that Manssor Arbabsiar, acting on behalf of Iran's Quds Force, conspired to hire a hitman from a Mexican drug cartel to assassinate the Saudi ambassador in Washington, D.C..

- Targeting of a journalist (2025): Two men were convicted of a murder-for-hire plot targeting Iranian-American journalist Masih Alinejad on the orders of high-ranking IRGC officials.
- Targeting of a journalist (2021): Previously, the DOJ charged four Iranian intelligence officials, and one intelligence asset, with a plot to kidnap Alinejad from her home in Brooklyn.
- Recent border arrests (2025): Among Iranian nationals arrested by U.S. Immigration and Customs Enforcement (ICE), at least one was identified as a former IRGC member with connections to Hezbollah.
-

Ministry of Intelligence and Security (MOIS) plots

- Attempted abduction (2021): U.S. officials implicated the MOIS in the foiled plot to abduct Iranian-American journalist Masih Alinejad, which was also linked to the IRGC.
- Transnational repression: In August 2025, U.S. officials condemned an MOIS-led "transnational repression network," known as the Zindashti network, for plots targeting dissidents in the U.S. and other countries.

-MORE BACKGROUND

~~~DROP BACK DOWN FROM 30k FT VIEW

Cities governed by Democrats across the United States are witnessing a troubling rise in crime across various categories. The rates of robbery, homicides, and other offenses are alarmingly high in cities like Washington D.C. (which has experienced a rapid decline due to the deployment of the National Guard), Chicago, Los Angeles, New York, Portland, and Philadelphia. The ultra-liberal policies enacted by radical activist governors such as J.B. Pritzker of Illinois and Gavin Newsom of California are often held responsible for this alarming trend, particularly as we reflect on the tenure of former President Joe Biden, his administration, and its ineffective policies. Additionally, foreign and external entities like Roy Singham possess significant financial resources that facilitate these developments.

Moreover, the deliberate placement of 'activist' Marxist District Attorneys by George Soros in these Democratic bastions has been a strategic move aimed at creating widespread chaos and disorder at the community level, as we witness violent criminals being released without adequate prosecution. This not only deprives citizens of justice but also leads to a cycle of re-offending among criminals who face no consequences.

A recent legal immigrant from Ukraine, who was seeking asylum from her war-torn nation, was brutally murdered on a commuter train in North Carolina. The perpetrator, a disheveled and
~~~

mentally unstable black man, attacked her from behind without any provocation. Surveillance footage of the incident captured her death, while numerous passengers sat idly by, unwilling to intervene despite her clear need for life-saving help. The mainstream media has shamefully ignored this story, likely due to the victim's race and the fact that the attack was perpetrated by someone who was not already incarcerated, underscoring the alarming reality of cold-blooded killings. A family member revealed that the suspect had been arrested and released fourteen times before for offenses such as aggravated assault, remarking, "he was identified as a threat to society long ago, yet they keep allowing him to go free."

December 4, 2024-UnitedHealthcare CEO Brian Thompson was assassinated in Midtown, New York City, when he was shot by a masked gunman while on his way to an investor conference. Police described the attack as premeditated and targeted. The alleged killer, Luigi Mangione, was charged with murder but the terrorism charges against him were dismissed in September 2025. Thompson had previously received threats related to medical coverage, according to his wife. A handwritten manifesto found with the suspect, Luigi Mangione, condemned health care insurance companies for prioritizing profits and praised the “Unabomber”. Police and criminologists suggest the attack was a "symbolic takedown" to protest perceived injustices within the healthcare system. Many, Many with liberal or left leaning politics praised the blatant assassination and branded the shooter Mangione a hero.

In addition to this tragedy, the average household is experiencing the rising costs of groceries, fuel, and overall living expenses continue to plague citizens, a lingering consequence of Joe Biden's four lengthy years in office.

UNIVERSITIES & COLLEGE CAMPUSES

The past few years the responses from American universities after the terrorist attack in Israel on October 7th reveal a disconcerting increase in anti-Semitism in campuses countrywide. The passionate anti-Israel protests that have unfolded since October 7th have led to a rise in antisemitic expressions, clear support for terrorism (Hamas), and violent incidents. Many student organizations appeared to be somewhat prepared for this, with groups like SJP initiating protests and distributing anti-Zionist literature as early as October 8, before the Israeli Defense Forces began their ground operation in Gaza.

Across the United States, universities like Harvard, Columbia University, UC Berkeley, and dozens of others in the California UC system have experienced various forms of activism, including 'Free Palestine' and 'Support Hamas.' This activism has taken the shape of protests, riots, and other civil discourse on campus. Many incidents have led to severe vandalism, blockades, and confrontations with Campus Security or police in riot gear, resulting in barricaded situations, clashes with opposing groups, and the deployment of less-lethal projectiles, chemical agents, and anti-riot measures. Both sides have utilized gas masks and riot shields. Streets adjacent to campuses have been barricaded to prevent the public from entering these 'conflict zones,' where insurgents create destruction and chaos both on and off campus. In the early mornings, these individuals often retreat, blending into society in everyday clothing or returning to their classrooms.

Many of them are our own children, sent to college or university to seek higher education. Parents are spending thousands of dollars to educate their kids, only to discover that they are being 'indoctrinated' at a level far beyond the nonsense encountered in high school, such as DEI, critical race theory, and other Marxist ideologies that have infiltrated elementary education. The educators, professors, instructors, and administrators have all adopted the 'WOKE' ideology, leading to institutions that are fundamentally corrupt. Unless there is a comprehensive overhaul of current internal policies and a reinforcement of American foundational principles, along with a restoration of the core organizational tenets and mission statements, the situation will not improve.

That's a ‘psyop’ for another day.

I'm of the thought that Obama was running the country during Joe's tenure from his offices down the street from the Whitehouse. He was once quoted as saying paraphrasing "If I had capability to have a Stand-In, I'd complete a 3rd term". I'm certain he had additional comments. In another instance he also said, "He wanted to, "Fundamentally Change the Make-Up of the United States."

INTERNAL TREASONIST AFFAIRS-ODNI DE-CLASSIFICATION EFFORTS

Recent findings and public news release of declassified documents by the Director of National Intelligence (DNI) Tulsi Gabbard only made it to a few dozen youtube channels, and were tactfully not widely covered by mainstream media (MSM) outlets, in yet another effort to suppress the truth from Americans. The documents DNI Gabbard released are actual physical evidence that former President Barack Hueissen Obama aka Barry Sotero, along with, former Secretary of State Hillary Clinton, James Comey (Former FBI Director), James Clapper (former DNI), John Brennan (former DCIA), Susan Rice, Joe Biden (VP at the time) and several others attended a high level meeting essentially conspiring to manufacture and produce false intelligence using British foreign Agent Christopher Steele's unsubstantiated phony dossier in a larger effort to paint the narrative. Additionally, Gina Haspel working for Brennan was assigned to British field operations during this period per Col. Tony Shaffer's interview. The narrative that Donald John Trump was a Russian asset or was, at minimum, colluding with Russia our foreign adversary. All totally fabricated as most of America already knew. However half the country still believes this very divisive story.

Source:𝕏- Left to Right:Comey, FBI-Brennan, CIA

This manufactured narrative authorized by Clinton and Obama was intended 1) Dissuade attention from Clinton's classified email crimes and scandal, 2) Cast doubt on DJT. Another document revealed that a senior CIA analyst was a whistleblower on the conspiracy as they had refused (at the time) to provide the analysis requested by conspirator John Brennan, reflecting the Russia narrative. This was all done to subvert "the will" of the people and the US Constitution. Effectively, Treason. More insulting is the 30 million dollar tax payer funded Mueller investigation that yielded absolutely nothing except fat-ass paychecks for his investigative staff while Mueller pretended there was a case.

In essence, there was an administrative coup against Trump and the populace. Although he reclaimed the presidency in 2024, the coup remains active today in a manner, as the deception has been unveiled yet Democratic leaders continue to propagate falsehoods, with no one facing consequences for acts of treason and sedition. The communist protesters, who are taking advantage of our rights to free speech, are effectively halting street traffic, disrupting businesses,wide distribution of real protective riot equipment like gas masks, engaging in mass vandalism with prearranged bricks to throw and using spray paint to deface the walls of establishments, as well as obstructing travelers and public transportation. They represent the militant faction of the coup, and their actions are far from over.

This was not the first time I had heard that John Brennan had Communist tendencies and is an Islamic convert after being Chief of Station in the Middle East, specifically Saudi Arabia. I read about his communist and Islamist leanings after reading Diana West's book "Red Thread".I also learned about Brennan from John Guandolo, a national security expert I've studied for a decade

who discusses these highly concerning issues on Tom Trento's podcast, prior to his appointment as Director of Central Intelligence Agency.

John Brennan had two specific roles in Saudi Arabia during his career with the CIA: a diplomatic post in the 1980s and a senior intelligence role in the 1990s

.

1. DoS-Political officer in Jeddah (1982–1984)

- From 1982 to 1984, Brennan served with the State Department as a political officer at the U.S. embassy in Jeddah, Saudi Arabia.
- He joined the CIA in 1980 and, after completing his training, served in this official diplomatic post, which provided him with early on-the-ground experience and cultural knowledge of the region.
-

2. CIA-Chief of Station in Riyadh (1996–1999)

- From 1996 to 1999, Brennan returned to Saudi Arabia to serve as the CIA's Chief of Station, a senior intelligence role, in the capital city of Riyadh.
- His knowledge of the Arabic language and cultures in the Middle East made him a valuable asset during his career and helped him land this key leadership position.
- During his time as director of the CIA under the Obama administration, Brennan would later be a strong advocate for working with Saudi Prince Mohammed bin Nayef (MbN) on counterterrorism, according to a 2020 *Politico* report.

Fordham University, where he earned a B.A. in Political Science in 1977.
American University in Cairo, where he spent his junior year studying Arabic.
The University of Texas at Austin, where he received a Master of Arts in government with a concentration in Middle East studies in 1980.

"As the Chief of Station (COS) in Riyadh from 1996 to 1999, John Brennan's primary responsibility was to serve as the senior Central Intelligence Agency (CIA) official in Saudi Arabia and manage all of the agency's operations in that country. This role involved a combination of intelligence gathering, operational oversight, and diplomatic liaison with Saudi counterparts. "

Key aspects of his role included:

- **Managing intelligence collection:** Brennan directed and supervised the CIA's intelligence gathering efforts within Saudi Arabia. This involved leading the case officers and intelligence officers working under him to collect human intelligence (HUMINT) from sources, both through declared diplomatic cover at the U.S. embassy and non-official cover. His fluency in Arabic and knowledge of regional cultures, developed during an earlier posting in Jeddah, were valuable assets.

- **Liaison with Saudi intelligence:** A crucial part of the job was maintaining a close working relationship with Saudi Arabia's own intelligence services. This required diplomatic and negotiation skills to ensure coordination on projects and resolve any disagreements over CIA activities.
- **Counterterrorism operations:** Brennan's tenure occurred at a critical time for U.S.-Saudi relations, as extremist groups were increasingly active. The Khobar Towers bombing, which killed 19 U.S. servicemen in 1996, took place during his time as COS. This event would have placed immense pressure on his station to intensify counterterrorism intelligence efforts in partnership with Saudi authorities.
- **Reporting and analysis:** The COS is responsible for analyzing the intelligence gathered and reporting findings to CIA leadership and policymakers in Washington. This involves providing context and assessments of the local political and security environment to inform U.S. foreign policy.
- **Serving as the senior intelligence representative:** As the CIA's top official, Brennan acted as the senior representative to the Saudi government on intelligence and national security matters, and managed any grievances or issues that arose.“

In essence, Brennan's role was to be the "commander" of the CIA station, ensuring the successful execution of its mission while balancing the sensitive intelligence work with the complex diplomatic relationship with the Saudi government.

A few weeks ago I listened to a youtube podcast by MEL-K where she interviews **John Donovan** and **Ian Trottier** co-publisher of the new book HighStakes Treason also found at (www.highstakestreason.com) essentially a private investigation conducted by former FBI Analyst and current Open Source Analyst John Donovan. Trottier and Donovan dive deep into an independent investigation into John Brennan and his past activities. This investigation was done by a former career FBI Intelligence Analyst using primarily open sources. The investigation takes a look throughout Brennan’s tenure at the agency having held several KEY positions and posts throughout his career.

Although I have never been fond of Brennan mainly due to all the negative comments I’ve heard about him over several years, and after hearing former Sr. CIA Operations officer John Kiriakou’s recollections of Brennan and what he did to him personally after blowing the whistle on the “Torture Program”.This podcast was devastating for myself, as a career security/intelligence professional the betrayal level and from a critical “Insider Threat” National Security standpoint, I’m still shocked. There are several allegations of treason or sedition and subversion and perhaps conspiracy. This includes highly likely involvement with or facilitation of the 09/11/01 hijackers, prior knowledge of ChristChurch New Zealand massacre, fraud involving millions, violations of banking laws, the Vegas shooting and perhaps involvement in decades of nefarious activities aimed to injure America or its people. He needs to be publicly handcuffed and arrested,

following public trial, and if warranted publicly executed, again if the law permits surrounding charges of Treason, Sedition, or Subversion..

The below are suggestions from their site for IMMEDIATE action.

WHAT NEEDS TO HAPPEN

1) An immediate investigation must continue against this person for treason.

2) The relevant TS/SCI code-word compartments need to be accessed.

3) If the circumstantial evidence presented in the book serve true, this person must be arrested, tried and convicted of treason. I believe, based on the contents of the book, that this person has committed a treasonous act on the United States of America and its people.

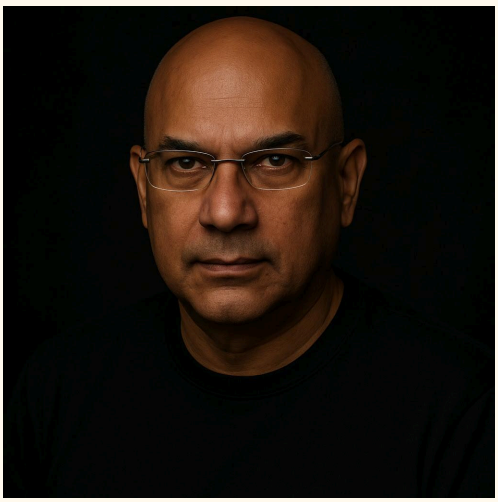
4) To the best of my knowledge, a legal action called a Qui Tam lawsuit under the False Claims Act of 1863, must be filed. "Fraud by Way of Inducement" are the terms. Brennan allegedly defrauded the US government by inducing the government to spend more money to stop terrorism than it needed to because of his actions.

Additional items that need to be immediately exercised:

a) Full forensic accounting of Mr. John Brennan
a.a) Review of all Brennan's devices. Suggested search of home
b) Review of computer logs of Michael Jone's workstation prior to every meeting he had with anyone in the White House to see what he was looking at. Looking for downloads or page printouts
b.a) Search Jone's devices texts, email and home
b.b) Geofence Brennan and Jones phones for intersections of location
b.c) Geofence Greg Sahene and Caroline Krency phones for intersection with Jones
c) Review of Brennan's phone text emails from 2009 to 2014.
d) Forensic accounting of TAC/SOTERA retirement accounts
e) Review of Alexander Drew's phone text emails and financials
e.a) Review of Andrea Drew Solomon' phone text email
f) Review NSA data for Ares Management related to SOTERA purchase
g) Review office of foreign asset control (OFAC) records related to purchase of SOTERA by Ares Management
h) Forensic accounting of all shares purchased by Ares Management (to ID any other USG employees who were aware of the alleged scam)

IDENTIFYING MORE INSURGENTS & FINANCIERS

Neville “Roy” Singham, another “elitist philanthropist” who has direct ties to the Chinese Communist Party (CCP) and actually resides in Shanghai, China, establishing direct foreign influence. The CCP controls who holds residence therefore they have approved Singham.



Source: X-Neville Roy Singham

Singham is a U.S born tech entrepreneur and self-described socialist. He is the son of leftist academic Archibald Singham. During his youth, he was a member of the ***League of Revolutionary Black Workers***, a Black **nationalist–Maoist** group.He made his fortune as the founder of “Thoughtworks”, an IT consulting company, which he sold in 2017 for an estimated $**785 million**. This leaves him much room to cause chaos around the world. After selling his company, Singham moved to Shanghai and began funding a network of nonprofit groups, think tanks, and media outlets globally.

According to a 2023 *New York Times* investigation, this network promotes talking points aligned with the Chinese Communist Party (CCP). He and his wife (Jodie Evans) are tied to the financing of ultra-radical groups like **ANWSER** Coalition, **Code-Pink**, Party for Socialism and Liberation (**PSL**), Armed Queers **(AQ**),National Students for Justice in Palestine (**NSJP**),Students for Justice in Palestine (**SJP**), International People's Assembly **(IPA), “Indivisable”, “Action Network”** that powers and builds everyone's website,Tricontinental Institute for Social Research(**TISR**)**, the Maku Group** and likely many others more hidden from public view.

Most of these groups work in tandem to cause mass chaos and destruction as they have exploited our rights to free speech and protest. Groups like ***Code-Pink***, his wife's organization, are notorious for attacking or disrupting the U.S. defense contractor landscape like Lockheed Martin; Raytheon (now RTX), Northrop Grumman, General Dynamics, Boeing, Sierra Nevada Corporation (SNC), Crye Precision. Overseas they are fond of attacking ELBIT Systems, Israel's largest arms manufacturer, and the company's drone, surveillance, and weapons systems have been a key focus for ***Code Pink*** and other pro-Gaza pro-hamas and other anti-war groups. SJP is notorious for radicalizing students on college and university campuses nation-wide. Another group

They've unleashed violence, shut-down complete transportation systems, shut-down freeways, blocked maritime shipping ports, destroyed defense facilities among a few things. There are over 400 chapters across North America. Singham's model is distinct in its alleged alignment with foreign state interests (the Chinese Communist Party) and its support for revolutionary, anti-capitalist, and anti-imperialist groups. Donors operating in similar far-left or "dark money" networks are often harder to identify.

Much like Singham's network, groups use "fiscal sponsors" and other intermediaries to fund specific far-left campaigns. Organizations like the **Tides Foundation** and the **Alliance for**

Global Justice provide an administrative and financial home for smaller, more radical groups, including some involved in pro-Palestinian and anti-capitalist organizing.

Investigators call them **"Dark Money"** Networks, but to the public they are “for-profit” consulting firms like **Arabella Advisors** who manage and create a network of non-profit entities (such as the **Sixteen Thirty Fund** and the **New Venture Fund**) that funnel tens of millions of dollars toward progressive and left-wing initiatives and activities, often with minimal transparency. While not usually aligned with a foreign state, this structure for obscuring donors mirrors many elements of Singham's type of network.

To be fair, attacks against the LGBTQ community have risen to 932 incidents (as of September 2025) that occurred between May 1, 2024-01 May 2025. It should be noted that these are not fatal attacks and this is not government tracked data, not that this would make it anymore reliable given the recent manipulation of FBI crime stats, Biden border numbers and Jobs report numbers during the Biden admin.

GEORGE SOROS

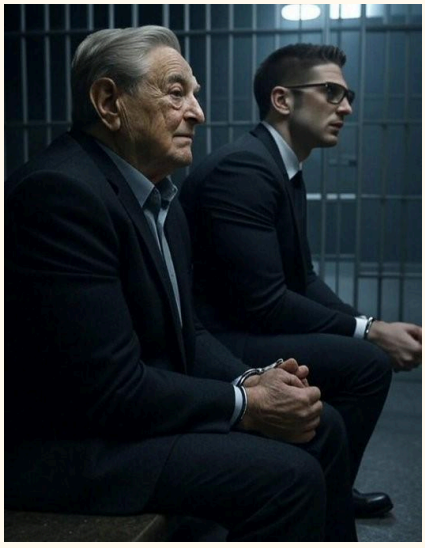

Image Source: X

George Soros is an ultra-wealthy disaffected and disgruntled Hungarian Jewish philanthropist. Soros was born in Budapest, Hungary, in 1930, to a Jewish family. He survived the Nazi occupation by using a false identity and later fled to England before immigrating to the U.S in 1979. He was educated at the London School of Economics, where he was influenced by the philosopher Karl Popper and the concept of an "open society". He became a highly successful

investor and hedge fund manager on Wall Street, founding Soros Fund Management in 1970 and ‘Open Societies’ in 79’ based on Popper’s vision. I want to further highlight that in 2023 George handed control to his son Alexander. Alex took over as chair of the Open Society Foundations and is now a central figure in carrying on the family's legacy. Other board members include **Tamiko Bolton Soros,** George Soros's third wife, **Andrea E. Soros,** a daughter of George Soros. His fellow philanthropist is **Mark Malloch-Brown** friend since the 1990s, served as a former UN Deputy Secretary-General and British diplomat and has been involved with the OSF for over 15 years. **Muhammad Yunus, a Nobel** Peace Prize winner and founder of Grameen Bank, **Shashi Tharoor-** A long-time Indian MP and former diplomat,and **Fori Nehru-** A close personal friend.

Soros, also an author of multiple books, is famously known as "the man who broke the Bank of England" for his profitable short-selling of the British pound in 1992. Soros founded the Open Society Foundations (OSF) in 1979 to promote democracy, human rights, and social reform globally; he does so by literally overthrowing governments, causing societal collapse, and funding madness and chaos around the globe. He’s also a major donor to Democratic and progressive causes in the U.S., Soros also funds pro-Gaza group Jewish Voices for Peace **(JVP)** one of the most leftist radical groups there is.

SOROS Financing ANTIFA Investigation by Ryan Mauro.

FRSO another extreme Marxist organization in an EpochTimes Instagram Post Trevor Loudodn longtime investigative journalist tracking the Communist Party movements explains HERE.

He’s been financing and paying for violent agitators, “**Color Revolutions**” (CIA/DoS/**USAID**/USIWP subsidized) to further sow dissent and create chaos wherever they can. The main goal is to cause societal instability and in some cases governmental collapse. The U.S. Campaign for Palestinian Rights **(USCPR)**, Muslim Students Association **(AZ,CA) (MSA)** has received funding from **OSF**. **Al-HaQ is** a Palestinian human rights organization that Israel has designated as a "terror organization" due to links to the Popular Front for the Liberation of Palestine (**PFLP**), a terror group in Gaza almost akin to Palestinian Islamic Jihad (PIJ). He also funds the biased **ACLU**, the child murdering **Planned Parenthood** partially responsible for US population decline, and the **TIDES** Foundation.

Here are some examples of the specific claims made about Soros's globalist activities:
Interference in democratic processes

- **Funding political campaigns and protests:** Claims allege that Soros uses his wealth to bankroll liberal and progressive political campaigns in the U.S. and around the world. Critics contend his goal is to install sympathetic politicians who will advance his "globalist" agenda and destabilize conservative or nationalist governments.

- **Engineering "color revolutions":** Soros has been accused of using his Open Society Foundations (OSF) to instigate and fund "color revolutions"—popular uprisings aimed at overthrowing existing regimes in former Soviet and Eastern European nations. These claims are prominent in Russian state media and among right-wing critics.
- **Influencing judicial appointments:** A frequent target for critics is Soros's funding of campaigns to elect progressive district attorneys and other judicial officials. Claims suggest he is using these elections to weaken the criminal justice system and promote a radical agenda.
-

Manipulation of social and cultural issues

- **Orchestrating migration and refugee crises:** Some claims allege that Soros funds migrant caravans and supports pro-immigration policies to flood Western countries with migrants. The goal, in this narrative, is to weaken national borders, undermine national identity, and create societal division. Hungary, his native country, has even passed "Stop Soros" legislation aimed at thwarting alleged immigration schemes.
- **Controlling the media and spreading propaganda:** Critics claim that Soros secretly influences mainstream media outlets to promote his political narratives while suppressing alternative viewpoints. Some have alleged that he uses his wealth to pay journalists to write favorable stories.
- **Financing social unrest and protests:** Soros has been falsely accused of funding protests and riots, including Black Lives Matter protests, and demonstrations against political figures like Brett Kavanaugh and Donald Trump. These narratives often allege that participants are not genuine protesters but rather paid "crisis actors".
-

International financial schemes

- **Currency manipulation:** In the 1990s, Soros became famous for "breaking the Bank of England" by shorting the British pound, reportedly earning $1 billion in profit. While a documented financial event, critics have exaggerated this and similar market moves into a broader claim that he deliberately manipulates global markets to destabilize national economies.
- **Exploiting economic crises:** Some narratives claim that Soros profits from global economic crises and uses his financial influence to push neoliberal policies that benefit his own interests.

‘The Hopewell Fund is one of several nonprofits boosting transformative neo-Marxist causes under the management of liberal dark money juggernaut Arabella Advisors, a

major *for-profit* consultancy established by Clinton administration veteran Eric Kessler and funded by some of the worst anti-freedom advocates around the globe, including:

- Bill Gates: Through the Bill and Melinda Gates Foundation, he has been one of the largest donors to the **Arabella network**, focusing on various globalist policy advocacy issues.
- George Soros: He has provided multi-million dollar donations to the network, with affiliations noted through his funding to groups like the Sixteen Thirty Fund.
- Mark Zuckerberg: Specifically, his philanthropy through the Chan Zuckerberg Initiative has committed significant funds, particularly noted for social justice issues.'

It's a fact that many of Soros' operations at one point were funded by or supported in some fashion by USAID, NED . NED or National Endowment for Democracy mission is as a private, nonprofit foundation primarily funded by the U.S. Congress. It provides grants to support the development of democratic institutions and processes, including political parties, trade unions, and independent media, in over 90 countries worldwide. The NED was created in 1983 as a bipartisan effort during the Reagan administration to promote democracy and counter communist influence abroad. It distributes grants both directly and through four core affiliated institutions.

According to investigations by "Influence Watch" a watch dog group, "*The Atlantic*, a left-leaning magazine, has called the Sixteen Thirty Fund "the indisputable heavyweight of Democratic dark money" which funneled "roughly $61 million of effectively untraceable money to progressive causes," making it the "second-largest super-PAC donor in 2020." Of Arabella Advisors, *the Atlantic* noted that the "mothership" company runs a "massive progressive dark-money group you've never heard of." It added: "Democrats have quietly pulled ahead of Republicans in untraceable political spending. One group helped make it happen."

Additionally, according to former Department of State official Mike Benz a historical guru when it comes to researching original geopolitical sources like DoS and CIA records stated something like "USAID & NED "the godfather of completely manufacturing then operationalizing an entire populace or movement to mobilize for "direct action" against societies and institutions was

inspired by **Gene Sharp's** “198 Methods of Nonviolent Action”, this dynamic resource provides the framework for facilitators, educators, and community members to lead a small revolution enough so to overthrow a government. There's several volumes and the United Institute For Peace even has an online course and even an Anti-Coupe manual and course.

In 2023 George Soros stepped down and passed the throne to his son Alexander Soros.

Source: X-Fromerly Twitter: Former President Barack H. Obama (Sortero) & Alexander Soros

Speaking plain text Soros funds and facilitates insurgencies, revolutions, civil wars around the globe.

WHO THE HELL IS 'PIERRE OMIDYAR'

Retired career CIA Operations Officer, and the Founder of 'AND' Magazine, Sam Faddis recently wrote an investigative piece about another "funder" that I had not heard of, Pierre Omidyar. Faddis Writes……

"Pierre Omidyar, who was born in Paris and is of Iranian descent, is most recognized as the creator of eBay. He is extremely wealthy, with a net worth estimated to be more than $10 billion. Omidyar supports a multitude of non-profit organizations, through which he attempts to guide the United States according to his personal preferences. One of the organizations he is involved with is the Democracy Fund. "The Democracy Fund is a public policy foundation that is left-leaning. It is chaired and entirely funded by Pierre Omidyar, the founder and former chairman of eBay.

"This organization provides financial assistance to center-left and left-wing media outlets, groups that aim to limit campaign speech rights, left-of-center voter registration organizations, and nominally non-partisan public policy organizations. Located in Washington, D.C., the Democracy Fund has reported that it has granted over $275 million to various organizations. It has also supported the left-of-center Voter Registration Project, along with projects in journalism, artificial intelligence policy, and election law, often collaborating with other left-leaning grant makers." Influence Watch The Democracy Fund finances an initiative called the Governors Action Alliance (GovAct)."

GovAct has now established the Governors' Public Health Alliance. Many governors are joining this organization, which has been created by Omidyar's associates and is funded by him. The individuals overseeing GovAct are the usual leftists with predictable backgrounds."

"Omidyar hates Trump. He has made it his personal mission since at least 2016 to do everything in his power to destroy Trump politically and to resist his agenda. Public comments Omidyar has made about Trump include:"

> "I can't be contrarian about Donald Trump anymore. He's terrifying."
>
> "Trump is a dangerous authoritarian demagogue."
>
> "Endorsing Donald Trump immediately disqualifies you from any position of public trust."

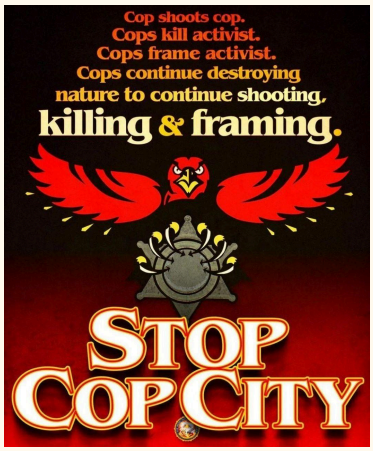
A quick glance at a few other Elitists indicate Bill Gates is logically a major progressive donor as is Laurene Powell Jobs the widow of Steve Jobs and founder of the Emerson Collective, she

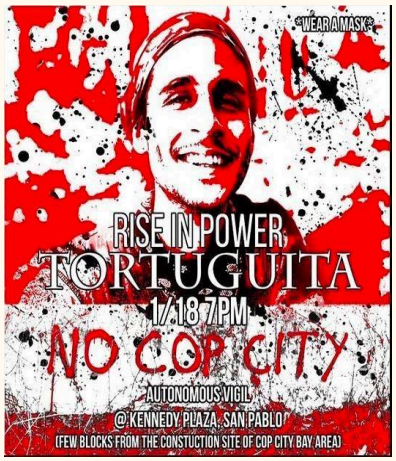
is a major funder of progressive causes, particularly focused on immigration, equity, and climate. Other obvious ones include “The Clintons” through the “**Bill, Hillary & Chelsea Clinton Foundation**”.This is the primary umbrella organization, formerly known as the William J. Clinton Foundation. The Rockefeller Foundation, The Ford Foundation, Tom Steyer, Michael Bloomberg and I’m sure there are many many more because there are literally thousands of these small radical groups that all have their own cause, but all unite under one banner to create chaos and provide the perception that these groups reflect a majority opinion when in truth they don’t. I believe it's highly likely there are many more elite globalists (nameless) with billions of dollars on standby to support the Agenda-21/30 Great Reset and the many different ways it manifests in society.

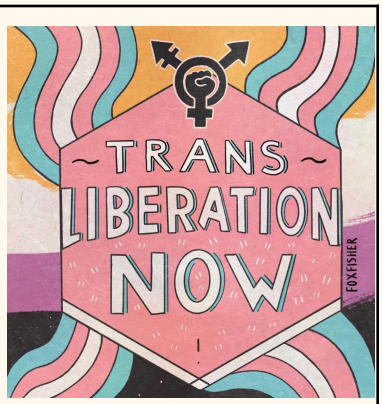
Excerpt from a Prior Report is as follows:

Where the PRC and communist party fit into this aspect I’m not exactly fullproof, perhaps organized, stateside positioned, enemy military ground assault teams, easily assembled from imported PRC, and military trained illegal immigrants. This is why it’s a good time to discuss the ***UNITED FRONT because this is likely the connection****.* The worldwide protests that are occurring around the globe, in support of Gaza and Hamas, are all seemingly interconnected, possibly commanded by, albeit coordinated events by U.S based Hamas representatives like Council for American Islamic Relations (CAIR), Palestinian Youth Movement (PYM), Students for Justice in Palestine (SJP)(200 SJP chapters), Muslims For Palestine, Americans For Justice In Palestine Educational Foundation, U.S. Palestinian Community Network (USPCN), USCPR, National Students For Justice In Palestine + Chapters, ISNA , Muslim Students Association (MSA), and after deep investigations, hundreds of other similar organizations all hiding under the cover of, or behind the front of, Islamic charity organizations and under 501-(c)3 protections. ‘All of these organizations openly support Hamas and the agenda of the Global Islamic Movement’. Backing these charity groups are other social/gender/racial justice groups, such as the group **CODEPINK**, #StopCopCity, **Jane’s Revenge**; #ShutDownDC, #DefendATLForrest, **Unity of Fields** (formerly Palestine Action) the, **Chinese Progressive Association (**CPA), Freedom Road Socialist Association (FRSO), Liberation Road, Asians 4 Black Lives, American Muslims for Palestine (AMP), **Black Lives Matter** (BLM), Black Futures Lab (BFL), Left Roots (LR), **Chinese Association for International Friendly Contact** (CAIFC), Democratic Socialist of America

(DSA), United Front Workers Department (UFWD) and can't leave out the obvious, **Communist Party USA** (CPUSA), and so many more unlisted or named groups, all in unison. According to John Guandolo's 2024 investigative report titled, "Hamas in America" , **"Senior U.S. Hamas official Hatem Bazian was a founding member of AMP and is its current Chairman of the Board, and was the founder of SJP. Convicted Hamas terrorist Salah Sarsour is also on AMP's national board. The Executive Director of AMP, Osama Abuirshaid, served in the now-defunct Hamas organizations IAP (Islamic Association for Palestine) and**





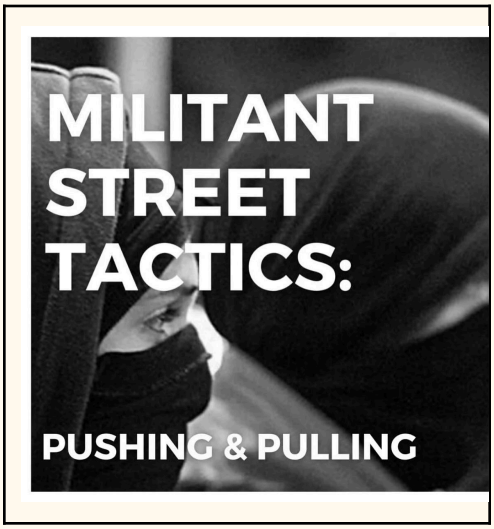


UASR (United Association for Studies and Research)."

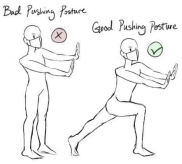
As mentioned earlier I have had the opportunity to investigate many of these groups as a USG contractor in the past and their nefarious activities. Groups such as Palestinian Youth Movement (PYM), National Students for Justice in Palestine (***NSJP***), ***#ShutDownDC***, ***BlackLivesMatter*** (BLM) and its Marxist leadership Patrisse Cullors; Others like ***#StopCopCity*** out of Georgia or #SaveATLForrest, *ExtinctionRebellion* ***(XTR)***; *Janes Revenge*, Party for Socialism and Liberation (PSL), *Revolutionary Communist* ***(RevCom)***; Palestinian ACTION (**PAL-Action**) and of course *Democratic Socialist of America* (DSA), ***Communist Party USA*** (CPUSA), *SunRise Movement*, *Liberation Road*, ***Freedom*** *Road Socialist Organization* (FRSO), *BlackFuturesLab*, Refuse Fascism!, *Asians4BlackLives* out of Norcal and literally dozens of others. Some GOOD non-profits are now dedicated to investigating and analyzing these groups because there are deep connections to the Chinese Communist Party and other avenues of foreign influence through their international reach and through organizations like the CCP's "***Thousand Talents Programs***", through the many ***Confucius Institutes*** (some already shut down, but are just rebranding) that were on many many U.S campuses to influence students, but specifically through the communist "***United Front Workers Department" (UFWD)*** and *Chinese Association for International Friendly Contact* (CAIFC).

Major investigations have been conducted by groups like Canary Mission, Influence Watch, Middle-East Forum, Jihad Watch, Campus Watch

For those who have their heads buried in the sand, In 2013, the Black Lives Matter movement was founded by three Black women: Alicia Garza, Patrisse Cullors, and Ayọ Tometi. The movement began with the social media hashtag #BlackLivesMatter after the acquittal of George Zimmerman in the killing of Trayvon Martin. While Black Lives Matter is a decentralized movement with no official, unified political ideology, the personal beliefs of its founder **Patrisse Cullors**, one of the co-founders, has explicitly stated “The first thing, I think, is that we actually do have an ideological frame. Myself and Alicia in particular are trained organizers,” she said, referring to BLM co-founder Alicia Garza.



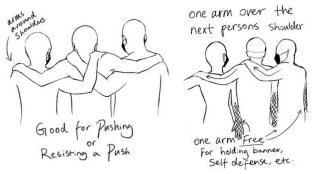
PUSHING: POSTURE



Take note of the legs here. Leaning forward with one foot in front of the other creates a stronger forward push because the angle enables your legs to end more energy forward. This posture also ensures more stability if you get pushed back. This is something many of us already instinctively understand, but sometimes seem to forget at actions.

PUSHING AT ACTIONS:

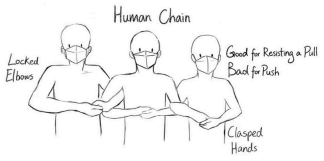
At the front line of action, consider not pushing your opponent with your arms, instead applying force with your full body while your arms maintain a hold on the shoulders of the comrades on your left and right side. If you have to hold a banner or umbrella, keep one arm free and use the other to maintain your grip. This is more efficient and more stable as a formation. Moreover, cops are less likely to consider it assault if you don't use your hands.



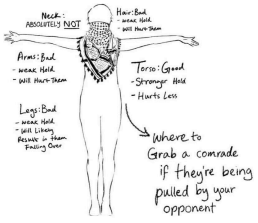
Arms around shoulders
Good for Pushing or Resisting a Push
one arm over the next persons shoulder
one arm free
For holding banner, Self defense, etc.

HUMAN CHAIN:

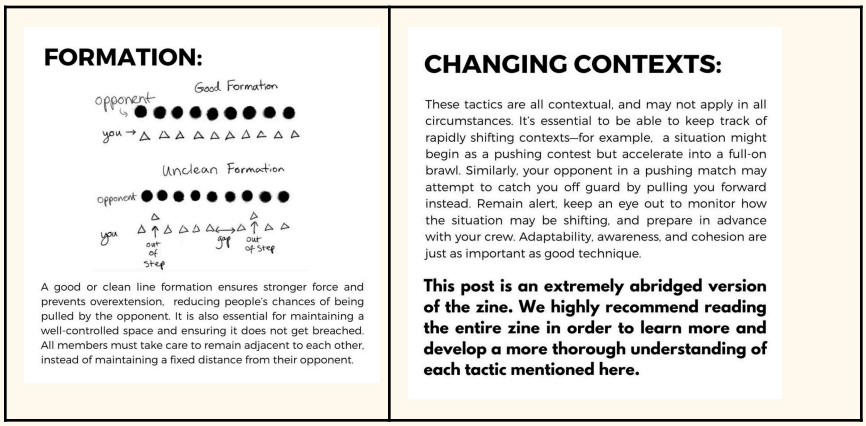
The 'Human Chain' has almost universally become a very popular formation for symbolic resistance. However, this is a bad formation for pushing against an opponent, or for confronting a push. A long chain of linked arms can help protestors hold onto each other and can be effective in resisting a pulling/separation attempt, but can become a liability when pushing is involved. It is inefficient for pushing and unstable for defending against a push; moreover, if one person falls, everyone falls back with them.



PULLING:



Pulling can be employed in preventing arrest. If a comrade is being grabbed by cops who haven't quite gotten hold of them yet, pulling them away may be an effective de-arrest. Get a hold of their torso; avoid limbs and sensitive parts. Maintain strong situational awareness: after any attempt, do not remain exposed.



FORMATION:

A good or clean line formation ensures stronger force and prevents overextension, reducing people's chances of being pulled by the opponent. It is also essential for maintaining a well-controlled space and ensuring it does not get breached. All members must take care to remain adjacent to each other, instead of maintaining a fixed distance from their opponent.

CHANGING CONTEXTS:

These tactics are all contextual, and may not apply in all circumstances. It's essential to be able to keep track of rapidly shifting contexts—for example, a situation might begin as a pushing contest but accelerate into a full-on brawl. Similarly, your opponent in a pushing match may attempt to catch you off guard by pulling you forward instead. Remain alert, keep an eye out to monitor how the situation may be shifting, and prepare in advance with your crew. Adaptability, awareness, and cohesion are just as important as good technique.

This post is an extremely abridged version of the zine. We highly recommend reading the entire zine in order to learn more and develop a more thorough understanding of each tactic mentioned here.

"We are trained Marxists. We are super-versed on, sort of, ideological theories. And I think that what we really tried to do is build a movement that could be utilized by many, many black folk," Cullors added in the interview with Jared Ball of The Real News Network.

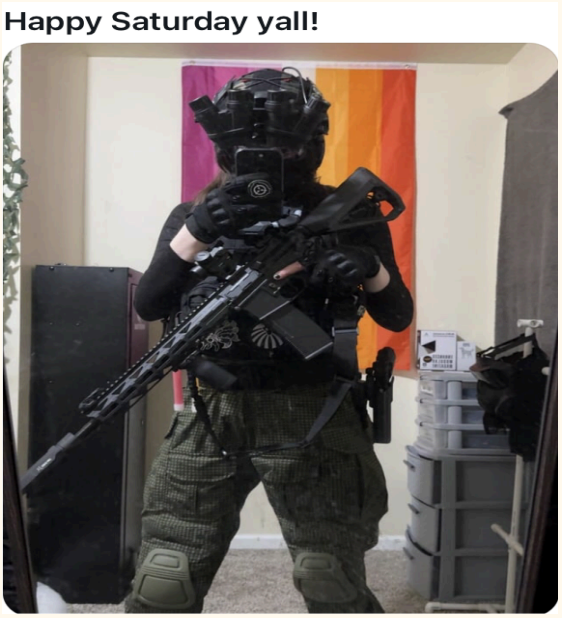
In a 2020 video, she reaffirmed her belief in Marxist philosophy, stating she learned about it early in her organizing career. **Alicia Garza** has also made statements consistent with Marxist views.

In 2015, she said that social movements "have used Marx and Lenin as a foundation to interrupt these systems" of oppression. Millions were captivated by this inherently Marxist movement only to be "duped" as truths about Floyd's history and facts surrounding his death surfaced. Many counter-movements surfaced like WhiteLivesMatter and AllLivesMatter, in my analysis all lives do matter and no one life is more important than another in the grand context of "LIFE". The 2020 BLM protest yielded much mass property destruction of both public and private properties, countless injuries and some deaths.

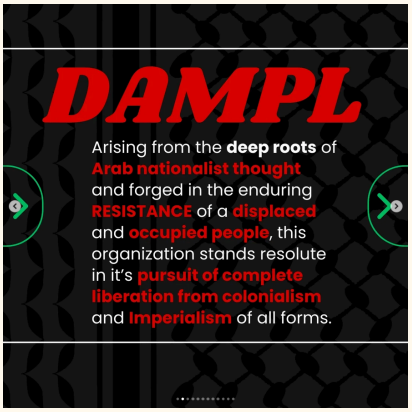
There were other controversial incidents resulting in this, such as the justified self-defense shooting by Kyle Rittenhouse, a 17 year old. During protests of Floyd killing and just after the police shooting of Jacob Blake. in Kenosha, Wisconsin, in August 2020, Rittenhouse shot and killed two men, Joseph Rosenbaum and Anthony Huber, and injured a third, Gaige Grosskreutz. At the time, Rittenhouse was 17 years old and had been attacked while defending a property and later seeking help from authorities. He was basically villainized in the media as a Neo-Nazi, put on public trial, and eventually acquitted of all charges against him. An October 2020 report from ***The Guardian***, citing data from a nonprofit monitoring political unrest, stated that at least 25 Americans were killed during 2020 protests and associated political unrest that year.

- This included both those participating in demonstrations and others killed in incidents linked to the unrest, such as looting or altercations with counter-protesters.
-

The Socialist Rifle Association (SRA) is basically the opposite of the CRPA, NRA or FPC when it comes to our country. The majority believes in the Constitution, the SRA on the surface shows legitimacy, but below surface exploits the Second Amendment (2A) by likely using it (facilities & trainers) to arm and train insurgents for 'direct action' against the US government, local governments, and US Patriots who by definition are the true Patriots. Democrats frequently signal that they are Patriots when in reality they truly despise our nation and its principles. I also suspect SRA produces many TRANTIFA adherents since I'm almost certain recent investigations revealed SRA trains ANTIFA members and many are indeed Trans. Another group to include is the long time standing John Brown Gun Club.



PALESTINIAN LIBERATION
The Direct Action Movement for Palestinian Liberation sees the liberation of the homeland as inseparable from the broader fight against global imperialism as well as domestic reactionary and bourgeois forces.



DAMPL
Arising from the deep roots of Arab nationalist thought and forged in the enduring RESISTANCE of a displaced and occupied people, this organization stands resolute in it's pursuit of complete liberation from colonialism and Imperialism of all forms.

WHO ELSE IS AGAINST AMERICA

Effectively this was a soft “coup d'é·tat” to get Biden in office. It was supposed to be Hillary for eight years according to **Patrick Byrne**, former CEO Overstock.Com and also a verified US government intelligence asset (not CIA) and whistleblower. Byrnes was recently on a few podcasts where he revealed severe election integrity issues like, US ballots on servers in Serbia, meddling by Venezuela and the CCP along with office staff funded by Soros. I also recently read Byrne's book DANGER CLOSE where he confirms all this and also discusses the FBI/CIA using him to blackmail Hillary Clinton for several million.

An Excerpt from his book

“The CIA was not involved; they were nowhere to be seen. In fact, I sensed the CIA was deliberately being kept away from it. But the Director of the CIA was now giving orders to the FBI, which had just had me set up a “Can-O’-Russia-Scandal,” and had just had me bribe Hillary Clinton then tell me to forget about it.”

**"And now the go-between for James Comey and John Brennan was sitting with us.
I let them know that their explanation as to why I needed to forget it did not sit well with me. And after some hemming and hawing, this is what I finally was given to understand in that first week of February 2016, from three federal agents:"**

"What's going on, Patrick, it is at this point President Obama has his people across the federal bureaucracy, but especially the Department of Justice. Hillary is going to be president for eight years and nothing is going to stop that. But while she's president think of there as being a "Bunsen burner" within the DOJ, and the evidence about the bribe is going to be sitting on that Bunsen burner. The hand on that Bunsen burner is going to be of one of President Obama's people. If Secretary Clinton is a good girl, defends Obamacare and such, that flame will stay on "Low". If she is a bad girl, if she starts thinking for herself, that hand [mimes twisting a dial] will turn the Bunsen burner to "High." That way, for the eight years she is president, Hillary Clinton is going to be managed by Barack Obama. Then she is going to step down, and Michelle is going to run ...And Patrick, that's the plan."

"Later I learned that the name of the plan was *"Operation Snow Globe*." Hillary was to spend eight years as president in a Snow Globe that Brennan, Comey, and Obama could shake up anytime they wanted."

BRENNAN IN THE MIX AGAIN

According to an American First Legal Investigation the below information was derived about the Authoritarian Biden Administration.

EXCLUSIVE – New Docs Reveal the Brennan-Clapper-Led DHS Committee Proposed Americans Report Neighbors to the Feds

"WASHINGTON — Director of National Intelligence Tulsi Gabbard on Friday declassified a set of internal federal documents showing that the Biden administration labeled Americans who opposed COVID-19 mandates as potential "Domestic Violent Extremists" (DVEs), triggering government monitoring and pressure on tech platforms to censor dissent.

The disclosures, first obtained by Michael Shellenberger's *Public* and journalist Catherine Herridge, include a 2021 intelligence bulletin co-authored by the FBI, Department of Homeland Security (DHS), and National Counterterrorism Center (NCTC). The bulletin, titled *"DVEs and Foreign Analogues May React Violently to COVID-19 Mitigation Mandates,"* suggested that

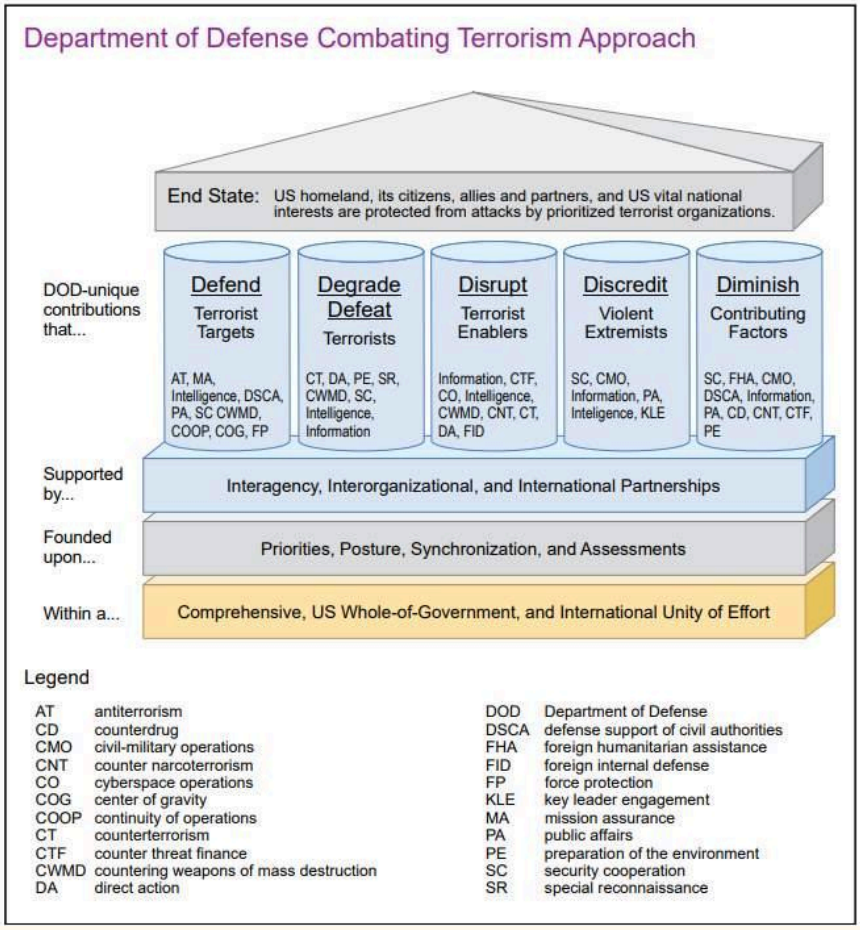
expressing concerns over vaccine safety, particularly for children, or asserting that mandates violated civil liberties, could indicate extremism."

Department of Homeland Security (DHS) "Homeland Intelligence Experts Group," **As part 1, newly obtained documents reveal that the advisory committee that included John Brennan and James Clapper discussed ways for DHS to increase efforts to collect intelligence on Americans across the country, including attempting to "get into local communities in a non-threatening way."**

By the time the Homeland Intelligence Experts Group was announced in September 2023, the Group had already been meeting for as long as four months. However, during that September meeting, the Group held a discussion on "Collection Posture and Associated Challenges," where a Group member (likely someone from DHS) complained that there was "no mandate for state land local partners" to collect information which resulted in "limited access in I&A."

Indeed, the Brennan-Clapper Intelligence group suggested that the best way to combat domestic extremism is to get mothers and teachers to turn in their children or students to the federal government under the guise of "public health."

The Group highlighted Denver's "behavioral analysis response" as a potential solution and an "ambiguous approach."



Department of Defense Combating Terrorism Approach
End State: US homeland, its citizens, allies and partners, and US vital national interests are protected from attacks by prioritized terrorist organizations.

Source: ARMY Field Manual

At this point I'm going to start referring to all these traitors as **subversive insurgents**. You may ask, What is an Insurgency anyways? Well according to my past military studies and someone I am not particularly fond of at the moment is General David Petraeus and his bowing to Al Qaeda terrorist and current leader of Syria, Al Julani. Unfortunately Petraeus wrote the manual of operations for US Counterinsurgency Operations (COIN) which I will reference and quote, "1-2. Insurgency and its tactics are as old as warfare itself. ***Joint doctrine defines an insurgency as an organized movement aimed at the overthrow of a constituted government through the use of subversion and armed conflict*** (JP 1-02). Stated another way, ***an insurgency is an organized, protracted politico-military struggle designed to weaken the control and legitimacy of an established government, occupying power, or other political authority while increasing insurgent control.***" Very fitting for us within the U.S.

"At the heart of insurgencies and counterinsurgencies lies the issue of "**political power**"; both sides seek to have "the people" view their governance or authority as legitimate. **Insurgents**

leverage all possible tools political (including diplomatic strategies), informational (which includes appeals to religious, ethnic, or ideological beliefs), military, and economic to challenge the existing authority. This authority might be a formal government or a provisional governing body. On the other hand, counterinsurgents apply all instruments of national power to uphold the established or emerging government and decrease the likelihood of another crisis occurring."

HEARTLESS, GODLESS, CHURCH ATTACKS

Corruption all the way at the top, but at street level view the republic is also under attack in many other physical ways such as all the despicable church attacks that have taken place the last 6 years. In 2024 over four hundred (415) Christian churches were attacked in some form or fashion from vandalism and property destruction all the way to active attack shooters.

In 2025 this number is set to be reached again or higher. "California experienced the highest number of incidents in 2024 with 40, followed by Pennsylvania with 29. Florida and New York each reported 25, Texas saw 23, and both Tennessee and Ohio had 19." "CatholicVote has recorded at least 518 attacks on Catholic parishes since May 2020. The organization's ongoing tracker shows that the frequency of such incidents surged following the leak of the *Dobbs* decision in 2022 and has remained elevated."

"CatholicVote's data includes incidents such as arson, theft, beheaded statues, and desecrated altars — many of which occurred during politically charged moments, including attacks specifically linked to pro-abortion protests."

For a full selection of Church Security information check out retired Police Officer and Instructor **Christian Warrior**.

SPIRITUAL WARFARE

Christian teachings hold that Marxism is an atheistic and materialistic philosophy that is diametrically opposed to Christianity's Christ-centered, God-ordained worldview. In this

interpretation, Marxist tactics against Christians amount to a form of spiritual warfare, using worldly power to attempt to suppress, control, and ultimately, eliminate religious faith.

Christian perspectives (and I'm sure other religions) on communism and Marxism view them as fundamentally hostile ideologies that engage in spiritual warfare against the church.

Examples of communist and Marxist spiritual warfare against Christians are most visible under historically communist and totalitarian regimes. These regimes saw religion as a rival for people's loyalty and sought to control or destroy it. Overt and violent persecution
Under communist rule, the spiritual battle often manifested in physical and institutional attacks on the church and its members.

- **Execution and imprisonment:** In the Soviet Union, the communist regime executed tens of thousands of clergy, monks, nuns, and laypeople and imprisoned many more in gulags (forced labor camps). A similar fate befell religious leaders in other Eastern Bloc countries, like Romania.
- **Destruction of religious sites:** Soviet and other communist authorities destroyed thousands of churches, monasteries, mosques, and synagogues or converted them into secular buildings, such as cinemas and museums.
- **Banning of religious education:** Communist authorities systematically removed religious instruction from schools. During the Khrushchev era, the state banned children from attending church services.
- **Forcible assimilation:** In Albania, communist dictator Enver Hoxha declared the country to be the world's first atheist state in 1967, and anyone practicing religion risked imprisonment.

Covert and deceptive tactics

Communist regimes also employed more subtle tactics to undermine faith and turn believers against the church.

- **Infiltration:** The Soviet government sought to control religious institutions by placing docile clergy, many with ties to the KGB, into positions of power. They also exploited theological disagreements to create internal divisions.
- **Propaganda and ridicule:** Communist ideology dismissed religion as a "superstitious and backward" tool of the ruling class used to "befuddle the working class".
  State-sponsored atheism was promoted heavily in education and media through entities like the League of Militant Atheists in the USSR.
- **Exploitation of social issues:** In communist countries, the state absorbed charitable and social work, previously performed by the church, to remove the church's influence from public life. They also used famines and other crises to confiscate church property.

- **Creating "state-run" churches:** In countries like China, the state created supervised, state-operated churches that required loyalty to the communist party. Those who practiced their faith outside these official channels were (and still are) subject to intense persecution.

Beyond specific tactics, the underlying ideology of Marxism itself is considered a form of spiritual warfare by many Christians because it presents a false, man-centered gospel.

- **Atheism as a core tenet:** Unlike a neutral secularism, Marxist-Leninist ideology actively pursues the elimination of religious belief and the propagation of state atheism.
- **Offering a "worldly salvation":** Marx famously called religion the "opium of the people," arguing that it offered illusory happiness and distracted the poor from their real suffering. The Marxist worldview offers a different kind of "salvation" a classless utopia achieved through revolution.
- **Idolatry of the state and party:** By replacing God with the state as the ultimate authority, Marxism fundamentally shifts worship from the divine to the temporal, which Christians interpret as a spiritual attack on the first commandment.
- **Erosion of traditional values:** Many Christians see Marxist influence as a spiritual threat to institutions like the traditional family, arguing that it promotes values and ideologies that contradict biblical principles.

Critiques of "globalism" often involve claims about specific tactics used by international institutions and elites. A common theme in these critiques is the idea that globalist tactics aim to erode national sovereignty, traditional culture, and individual liberties in favor of a centralized global order.

Economic Tactics

- **Encouraging international migration to impact labor markets:** This tactic is viewed by some as an attempt to suppress wages in developed nations and create a more pliable workforce. The increased supply of labor is also seen as a way to undermine national identity and social cohesion by promoting multiculturalism over traditional, long-established cultures.
- **Advocating for policies that benefit corporations over national interests:** This includes lobbying for reduced trade barriers, relaxed environmental regulations, and lower taxes on multinational corporations. The result, critics say, is a "race to the bottom" where countries compete to offer the most favorable business environment, often at the expense of local workers and communities.
- **Using international financial bodies to exert control:** Organizations like the International Monetary Fund (IMF) and the World Bank are sometimes criticized for imposing economic austerity measures on developing nations. These policies can lead to cuts in public spending, privatization of national assets, and increased debt, effectively giving global financial institutions control over a country's economic future.

-

Political and Social Tactics

- **Weakening national sovereignty:** This involves pushing for international treaties and agreements that override national laws and diminish the authority of national governments. The goal, according to critics, is to gradually shift power from democratically elected national bodies to unelected global institutions like the United Nations.
- **Promoting multiculturalism to erode national identity:** Proponents of this view argue that "globalists" actively promote policies that celebrate diverse cultures at the expense of a dominant, traditional national identity. They believe this is a deliberate tactic to create a less cohesive and more easily controllable population.
- **Manipulating media and information:** Some argue that global elites control mainstream media and use it to promote a globalist agenda. This includes shaping public opinion on issues like immigration, climate change, and international conflicts while suppressing dissenting viewpoints. This is often framed as "manufacturing consent" to advance a specific political narrative.
- **Using NGOs to advance a political agenda:** Non-governmental organizations (NGOs) that receive funding from global foundations are sometimes accused of acting as agents of globalist interests. These NGOs may push for specific social policies, human rights agendas, or environmental regulations that critics claim are designed to bypass national democratic processes.
- **Promoting gender ideology and undermining traditional families:** Critics of "globalism" sometimes allege that international bodies and foundations promote certain gender and family ideologies that are seen as a threat to traditional Christian family structures. This is viewed as a tactic to weaken one of the most fundamental institutions of society, thereby making the population more susceptible to global control.

ATTACKS ON FEDERAL “ICE” FACILITIES

As of late September 2025, several attacks on DHS and ICE facilities have been reported, amidst escalating tensions over immigration policy. The attacker information, which is primarily based on reports from the Department of Homeland Security (DHS) and law enforcement, often links these events to anti-ICE rhetoric and "Antifa-aligned domestic extremism".

September 2025

Location: **Broadview Processing Center, Broadview, Illinois**-Dates and times: Starting **September 19** and again on **September 26**- Description: Groups of rioters, described by DHS as "**Antifa-aligned**," repeatedly attacked the facility. They blocked entry, threw tear gas canisters and fireworks, and slashed tires. During a clash on September 26, rioters chanted "shoot ICE, kill ICE" and one was apprehended with a gun. Attacker(s): DHS has linked the attacks to "Antifa-aligned domestic extremism". In response, a fence was erected around the facility.

Location: **ICE Field Office, Dallas, Texas**-Dates and times: Wednesday morning, **September 24**-Description: A sniper opened fire on the facility from a nearby rooftop,

hitting a transport van and killing one detainee while critically injuring two others. The shooter died from a self-inflicted gunshot wound, and "anti-ICE messages" were found on shell casings. The DHS described it as a "targeted attack". Attacker(s): The gunman was identified as Joshua Jahn.

August 2025

Location**: ICE office, Yakima, Washington.** Date: **August 5**-Description: A suspected arsonist threw a rock through a window of the ICE building before setting it on fire. Attacker(s): A suspect was identified as an "arsonist," but further details were not immediately available in the sources.

July 2025

Location: **Prairieland Detention Facility, Alvarado, Texas**-Date: **July 4**-Description: A group of approximately a dozen people ambushed the facility. They used fireworks to initiate the attack before others, hidden nearby, opened fire on responding law enforcement. A local police officer was shot in the neck. Attacker(s): Federal officials arrested 15 individuals identified as "leftwing extremists" associated with the attack, charging them with offenses including terrorism and attempted murder. An 11th suspect, Benjamin Hanil Song, was arrested after a manhunt and identified as a known "Antifa agitator".

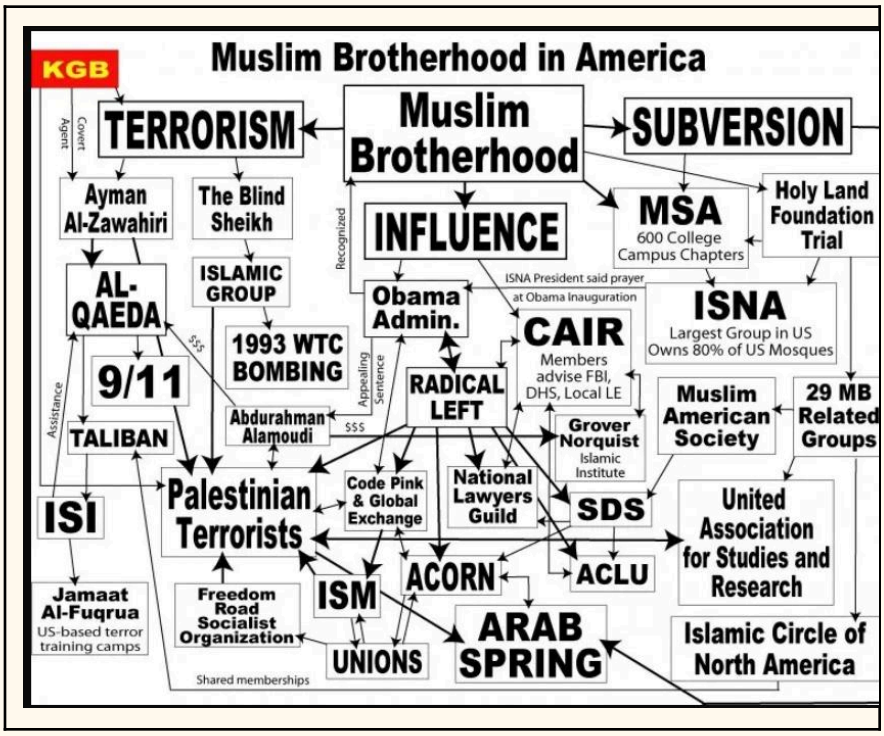
June 2025
Location: **ICE facility, Portland, Oregon.** Date: Throughout June, including specific incidents on **June 18** and **June 24**. Description: Rioters clashed with ICE officials outside the facility for about a week. Tactics used included shining high-powered lasers at officers, launching fireworks and smoke grenades, throwing rocks, and attempting to forcibly enter the building. In one incident, a rioter rolled a guillotine into the area.Attacker(s): Federal officials reported making several arrests and charged multiple "Antifa-affiliated rioters" with assault on a federal officer and other offenses.

Location: **ICE facility, Portland, Oregon**.-Date: Monday, **September 1**-Description: In a separate incident from the summer, ICE agents again clashed with rioters outside the Portland facility and used tear gas to disperse the crowd. Attacker(s): The DHS and law enforcement identified those involved as rioters, though no specific names were listed in the cited reports for this incident.

Note to file -These only represent higher profile attacks. ICE agents are frequently assaulted, spit on, rocks, bottles and other dangerous objects frequently thrown at their heads causing injury. Protesters do this everyday

across the US at detention facilities and in public with hardly any repercussions. Additionally, operatives will collect personally identifiable information on the agents or officers and publish this private data online. This is referred to as DOX'ing where a home address or children's elementary school (personal data) is published so that other operatives may threaten, stalk, harass and attack agents in their off-time. This is why they normally wear a mask for identity protection. However, governors like Newsom who have absolutely zero respect for the law enforcement mission as a whole, recently approved a law which is un-enforceable that states, "its illegal for federal agents conducting business to wear a mask in California". For reference he's been governor since 2018 and has NEVER met with any of his fifty-eight (58) county constitutional Sheriff's on any topic relative to the public or policing in general. He continues to work against Law Enforcement and his people, he is a dictator.

ISLAMIST INFLUENCE AND PENETRATION



ISLAMIST DEFINED: An "Islamist" is a person who advocates for Islamism, a political ideology that believes Islam should be THE guiding force for a country's social and political systems.

The term is used to distinguish from a regular "Muslim," which refers to a person who follows the religion of Islam. Core beliefs of Islamism

- **ISLAM AND POLITICS ARE INSEPARABLE:** Islamists believe that Islamic law (Sharia) should influence state policy & Governance.
- Islamist groups use a wide range of methods to achieve their political goals. Some participate in democratic processes, while others resort to subversion or militant violence and extremism.

- Covers a broad spectrum of movements with varying goals, such as the reformist Muslim Brotherhood, the political party Hamas, and transnational extremist organizations like Al-Qaeda and ISIS.
- **Influence of Islamic traditions:** Islamism draws inspiration from Islamic symbols and traditions to pursue its sociopolitical objectives.
- Islamic Sunni or Shia Fundamentalism
- **Islamism:** A political ideology that seeks to impose a specific interpretation of Islam on all aspects of society, often with a rigid worldview that rejects secular **governance.** Most with the view that Western lands should be conquered and a Caliphate established.

The Muslim Brotherhood has been in the US since the 1980's. The MB is Hamas. They established a core set of entities that are a conglomerate of Islamic charities, outreach , civic engagement, or civil rights that cover areas like- The Movement Department +The Secretariat Department, Education Department + Dawa'a Com, Sisters Department, The Financial Department + Investment, Committee + The Endowment, Youth Department + Youths, Organizations Department, The Social Committee + Matrimony, Committee + Mercy Foundation, The Security Committee, The Political Depart. + Palestine Com., The Group's Court + The Legal Co muslim outreach, Islamic Advocacy groups etc. Most if not all play a strategic role for the MB including financing overseas terrorist operations. These core organizations were laid out in their "Strategic Document" and it was discovered during the HolyLand investigation and trial. The entities were named below.

They are:1- ISNA = ISLAMIC SOCIETY OF NORTH AMERICA, 2- MSA = MUSLIM STUDENTS' ASSOCIATION,3- MCA = THE MUSLIM COMMUNITIES ASSOCIATION, 4- AMSS = THE ASSOCIATION OF MUSLIM SOCIAL SCIENTISTS, 5- AMSE = THE ASSOCIATION OF MUSLIM SCIENTISTS AND ENGINEERS, 6- IMA = ISLAMIC MEDICAL ASSOCIATION, - ITC =ISLAMIC TEACHING CENTER8- NAIT=NORTH AMERICAN ISLAMIC TRUST, 9- FID=FOUNDATION FOR INTERNATIONAL DEVELOPMENT, 10- IHC= ISLAMIC HOUSING COOPERATIVE, 11- ICD= ISLAMIC CENTERS DIVISION, 12- ATP= AMERICAN TRUST PUBLICATIONS, 13- AVC= AUDIO-VISUAL CENTER, 14- IBS= ISLAMIC BOOK SERVICE, 15- MBA= MUSLIM BUSINESSMEN ASSOCIATION, 16- MYNA= MUSLIM YOUTH OF NORTH AMERICA, 17- IFC= ISNA FIQH COMMITTEE, 18- IPAC= ISNA POLITICAL AWARENESS COMMITTEE, 19- IED= ISLAMIC EDUCATION DEPARTMENT, ISLAMIC TEACHING CENTER, = NORTH AMERICAN ISLAMIC TRUST, = FOUNDATION FOR INTERNATIONAL DEVELOPMENT, = ISLAMIC HOUSING COOPERATIVE, = ISLAMIC CENTERS DIVISION, = AMERICAN TRUST PUBLICATIONS+ several more.

Below is essentially their mission statement and a special memo to its patrons explaining/outlining their establishment in the U.S homeland.

":Bate #ISE-SWI 1B1010000415

(1) In the name of God, the Beneficent, the Merciful

Thanks be to God, Lord of the Two Worlds

And Blessed are the Pious

Subject: A project for an "***Explanatory Memorandum"*** for the General Strategic goal

for the Group in North America mentioned in the long-term plan

One: **The Memorandum is derived from:**

1- The general strategic goal of the **Group in America** which was approved by the Shura Council and the Organizational Conference for the year I987 is "**Enablement of Islam in North America,** meaning: establishing an effective and a stable Islamic Movement led by the **Muslim Brotherhood** which adopts Muslims' causes domestically and globally, and which works to expand the observant Muslim base, aims at unifying and directing Muslims' efforts, presents Islam as a civilization alternative, and supports the global Islamic State wherever it is".

2- The priority that is approved by the Shura Council for the work of the Group in its current and former session which is "**Settlement**".

3- The positive development with the brothers in the Islamic Circle in an attempt to reach a unity of merger.

4- The constant need for thinking and future planning, an attempt to read it and working to "shape" the present to comply and suit the needs and challenges of the future.

5- The paper of his eminence, the General Masul, may God keep him, which he recently sent to the members of the Council.

Two: An Introduction to the Explanatory Memorandum:

- In order to begin with the explanation, we must "summon" the following question and place it in front of our eyes as its relationship is important and necessary with the strategic goal and the

explanation project we are embarking on. **The question we are facing is: "How do you like to see the Islam Movement in North America in ten years?", or "taking along" the following sentence when planning and working, "Islamic Work in North America in the year (2000): A Strategic Vision".**

Also, we must summon and take along "elements" of the general strategic goal of the Group in North America and I will intentionally repeat them in numbers. They are:

[I- Establishing an effective and stable Islamic Movement led by the Muslim Brotherhood.

2- Adopting Muslims' causes domestically and globally.

3- Expanding the observant Muslim base.

4- Unifying and directing Muslims' efforts.Bate #ISE-SW 1B10/0000416

5- Presenting Islam as a civilization alternative

6- Supporting the establishment of the global Islamic State wherever it is].

- It must be stressed that it has become clear and emphatically known that all is in agreement that we must "settle" or "enable" Islam and its Movement in this part of the world.

- Therefore, a joint understanding of the meaning of settlement or enablement must be adopted, through which and on whose basis we explain the general strategic goal with its six elements for the Group in North America."

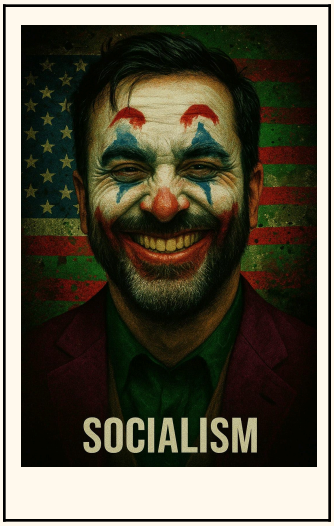
4- Understanding the role of the Muslim Brother in North America:

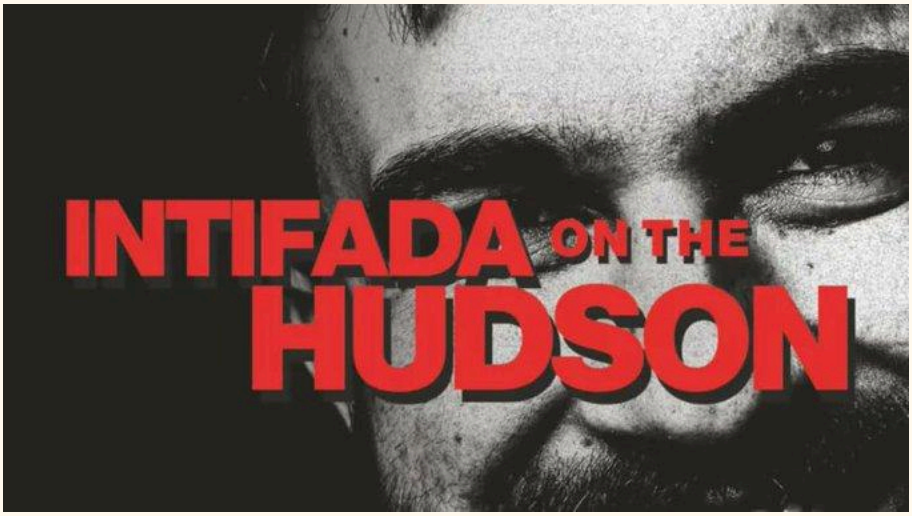
The process of settlement is a "Civilization-JihadistProcess" with all the word means. The Ikhwan must understand that their work in America is a kind of grand Jihad in eliminating and destroying the Western civilization from within and "sabotaging" its miserable house by their hands and the hands of the believers so that it is eliminated and God's religion is made victorious over all other religions. Without this level of understanding, we are not up to this challenge and have not prepared ourselves for Jihad yet. It is a Muslim's destiny to perform Jihad and work wherever he is and wherever he lands until the final hour comes, and there is no escape from that destiny except for those who chose to slack. But, would the slackers and the Mujahedeen be equal

FULL DOCUMENT HERE ***FOR FULL IPT ANALYSIS*** HERE

I never thought I'd see the day that any Mayoral candidate

Tennessee Rep. Andy Ogles sent a formal letter to Attorney General Pam Bondi on June 26, 2025, requesting an investigation into whether Zohran Mamdani should face denaturalization proceedings under 8 U.S.C. § 1451(a) for misrepresenting pro-terrorist sympathies to obtain citizenship.





Source: Front Page Mag, By Robert Spencer, October 20, 2025

Zohran Mamdani identifies with the “most apocalyptic and dangerous sect of Islam – Twelver Shiism”. Further, Zohran Mamdani is a card-carrying member of the Democratic Socialists of America, America’s largest Marxist Organization.

Under the “Grounds for Revocation of Naturalization,” according to federal law:

> A person is subject to revocation of naturalization if the person becomes a member of, or affiliated with, the Communist party, other totalitarian party, or terrorist organization within five years of his or her naturalization.

According to the Geller report.”In 2022, 153 Muslim candidates ran for office across the U.S., with 89 securing seats in local, state, and federal roles. This wasn’t a random surge, it was a coordinated push, backed by groups like the Council on American-Islamic Relations (CAIR) and Jetpac, who openly celebrate their growing influence.”

On March 8, 2025, Donald Trump announced his intention to nominate Amer Ghalib, the mayor of Hamtramck, Michigan, to be the next U.S. Ambassador to Kuwait. Amer Ghalib immigrated from Yemen to the United States as a teenager, became a medical professional, and was elected mayor of Hamtramck in 2021. Some sources have noted Ghalib's past political statements and actions, including his vocal criticism of Israel's war in Gaza and a controversial city council resolution banning LGBTQ+ Pride flags from city property, a very bright signal that Sharia Law is within Michigan’s near future. We know how bad Dearborn is already.

Hamas leader **Chowdhury** is a political figure and is a co-founder of the "Muslims for Trump" organization, which likely caught Trump’s attention when seeking nominees. Prior to that he was president of MSA 2013-2015, an organization found to be established by the Muslim Brotherhood via FBI investigation and strategic planning documents. He’s also a CAIR affiliate, a Hamas led organization. MSA was named as an un-indicted co-conspirator in the 2008 HolyLand Foundation trial. **The Brotherhood created Hamas and Al Qaeda.**

Senior Muslim Brotherhood leader Oussama Jamaal at one point in 2019 was USCMO Secretary General and likely remains as such . According to the US Center for Security Policy USCMO is the U.S. Muslim Brotherhood’s political umbrella group and is closely affiliated with the pro-HAMAS Turkish Justice and Development Party (AKP). Jamaal uses cover as an activist and community leader. He has accomplished his subversion under the guise of engaging in public affairs, interfaith relations, and civic engagement.

Mohamed Magid; The White House appointed Mohamed Hag Magid, a prominent imam from Virginia, to serve in the U.S. Commission on International Religious Freedom (USCIRF). He was the imam of a mosque (Area Dulles Muslim Society) that was credibly accused of serving as a conduit for terror financing.The ADAMS center was named in a federal investigation as part of the SAAR network, an alleged terror finance organization funded by Saudi donors. Magid was also president of the Islamic Society of North America (ISNA) which was founded by members

of the Muslim Brotherhood in 1981. Again Magid has accomplished his government penetration by using activism, promoting interfaith dialogue, peace, and human rights. However the ultimate goal is overthrowing the government, imposing Sharia law, eroding the Constitution, and dismantling the very freedoms that define this nation.
https://www.globalmbwatch.com/mohamed-magid/

John GUANDOLO, Islamic Terrorism SME**,** Former FBI Agent, Marine RECON, Naval Academy Graduate, White House Advisor- **WRITES:**

“Concurrently, the U.S. Islamic Movement is in overt mode demanding sharia be implemented in the United States and, literally, hosting strategic planning meetings in the U.S. in the month of September to determine how and when to best go kinetic on a mass scale.”

Several sources indicate Osama bin Laden's sons already have at least a thousand soldiers in the United States prepared to launch attacks on a wide scale. Since the beginning of the Clinton administration, throughout 6 administrations, the U.S. government has failed to identify the enemy in a war America is losing.

That enemy is the Islamic and communist Movement and those who support them. The communists and jihadis have published doctrine and strategy, hundreds of lines of operation, thousands of organizations in each network, and have penetrated all levels of American society.”

ILLEGAL CRIMINAL ALIEN INVASION

It is believed that the Biden administration, particularly under the leadership of Alejandro Mayorkas, the former Secretary of DHS, likely acted at the behest of former President Biden (or a representative), following directives from the United Nations, with assistance from entities such as the CCP, WEF, WHO, and even Cuba. He clearly ignored his oath of office to safeguard and uphold the homeland, its citizens, and the Constitution, subsequently choosing to publicly welcome, fund (through various NGOs), and facilitate the unlawful entry of between eleven and twenty-five million (11-25 million) illegal immigrants from over 140 different nations into the United States. A significant number of these individuals include early release felons, murderers, rapists, and other repeat offenders, including former inmates and patients from mental health facilities. This operation was carried out systematically without the approval of the populace, aiming to demoralize, dilute, and undermine U.S. citizenship and to alter the American electoral landscape.

Based on media and police reports from 2022–2025, here is a list of instances where U.S. citizens were allegedly murdered or raped by one of these criminal immigrants. Numbers are

highly likely LOW due to non-reporting or intentional mis-categorization. However, these citizens had the absolute right to be safe from harm or added threat in their communities or wherever they chose to be in this country and now they are DEAD because someone “felt” letting these people inside was a moral thing to do.

In an effort to be sympathetic to Democrats facilitating an invasion of our country it should be noted that thousands upon thousands of people died a shitty death while enroute to the U.S and that's a terrible shame, waste of life.

Based on reports from the media and law enforcement between 2022 and 2025, here is a summary of incidents where U.S. citizens were allegedly murdered or sexually assaulted by these criminal immigrants. The figures are probably understated due to a lack of reporting or intentional misclassification. However, these citizens had every right to be protected from danger or additional threats in their neighborhoods or wherever they decided to be in this country, and now they are dead because someone thought that allowing these individuals in was a morally right decision. In a bid to empathize with Democrats who are facilitating an invasion of our country, it should be emphasized that thousands upon thousands of individuals have met tragic ends while attempting to reach the U.S., which is a heartbreaking waste of life.

LETS DISCUSS THE CHILDREN

The issue of child trafficking warrants significant attention, particularly in light of the alarming statistics reflecting the plight of vulnerable children. Over the past four years, an OSINT analyst has dedicated volunteer efforts to the Anti-Human Trafficking & Intelligence Initiative (AT-II) as well as the Guardian Group PURSUIT Team, focusing on the identification and tracking of individuals involved in the heinous activities of trafficking and the localization of victims, predominantly young women and girls.

According to estimates, more than 350,000 children, primarily female, have either gone missing or are currently unaccounted for during the Biden administration, raising concerns regarding the systemic failures within governmental agencies. Investigations initiated by congressional bodies have unveiled numerous discrepancies in the management of these cases, drawing attention to a lack of timely action even in the face of alarming reports from whistleblowers over a year ago. The leadership of DJT and Secretary Kennedy has since been instrumental in responding to these issues.

Furthermore, the actions of Secretary Kennedy within the Department of Health and Human Services (HHS) suggest an ongoing struggle to implement necessary reforms. Recently, he publicized findings indicating that the consumption of Tylenol during pregnancy may elevate the risk of autism, thereby suggesting the possibility of broader implications requiring further scrutiny. The complexity of these matters indicates a pressing need for continued investigation

into the systemic challenges faced in addressing the crisis of child trafficking and the overall welfare of children in the current environment.

SHORT SUMMARY OF CRIMINAL IMMIGRANT CRIMES

2025- **Murders**

February 3, 2025, Lynn, Massachusetts: Illegal immigrant Eric Dionida German-Pena from the Dominican Republic was accused of killing sub shop owner Ilias “Louie” Mavros during a robbery. **Source:** Federation for American Immigration Reform (FAIR)

July 23, 2025, Kentucky: Gildardo Amandor-Martinez from Mexico was accused of killing 15-year-old Luis Jocsan Nanez Lopez while attempting to rape his mother. He also allegedly assaulted the victim's sister. **Source:** DHS news release.

August 6, 2025, Wisconsin: An 18-year-old and 19-year-old, Hallie Helgeson and Brady Heiling, were killed in a car crash allegedly caused by Noelia Saray Martinez-Avila from Honduras. **Source:** DHS news release.

2024-**Murders**

March 22, 2024, Grand Rapids, Michigan: An illegal immigrant from Mexico shot and killed 25-year-old Ruby Garcia before leaving her body on the highway. **Source:** Statement from Senator John Cornyn.

April 29, 2024, Lancaster County, South Carolina: Honduran nationals Asael Aminadas Torres-Chirinos, Jarby Ardon Ramos-Odari, and Jeyson Sobied Pineda-Salgado, along with three minors, allegedly shot and killed Larisha Sharell Thompson. **Source:** Federation for American Immigration Reform (FAIR) report.

June 21, 2024, Houston, Texas: Johan Jose Rangel Martinez and Franklin Jose Pena Ramos, both from Venezuela, were charged with the capital murder of 12-year-old Jocelyn Nungaray. **Source:** New York Post, House Committee on Homeland Security.

July 2, 2024, Texas: An illegal immigrant from El Salvador was charged with the rape and murder of Maryland mother Rachel Morin. **Source:** Fox News, YouTube (citing NBC News).

October 14, 2024, Stamford, Connecticut: Venezuelan Tren de Aragua gang members Gregory Marlyn Galindez-Trias and Moises Alejandro Candollo-Urbaneja were accused of killing 59-year-old Angel Samaniego. **Source:** Federation for American Immigration Reform (FAIR) report.

October 13, 2024, Bastrop County, Texas: Jorge Miguel Peralta, an illegal immigrant, was charged with intoxication manslaughter after causing a fatal multi-vehicle crash that killed Grayson Christopher Davis. **Source:** Federation for American Immigration Reform (FAIR) report.

February 22, 2023, Houston, Texas: Jose Ibarra was accused of murdering Laken Riley. **Source:** New York Post.

November 2023, Texas: Lizbeth Medina, a 16-year-old, was killed in her home. An illegal immigrant was arrested in connection with the crime. **Source:** New York Post.

Rapes- 2025-2023

- **January 29, 2023, Queens, New York (Arrested in February 2025):** Kail Cardenas, an Ecuadorian national, was arrested by ICE in 2025 for a rape he allegedly committed in January 2023. **Source:** Federation for American Immigration Reform (FAIR) report, citing unnamed media.
- **August 20, 2025, Location not specified:** Luis Miguel Dominguez-Barrios and Jose Fernando-Lux Morales, both from Guatemala, were charged with rape, aggravated sodomy, and kidnapping. **Source:** DHS news release.
- **August 6, 2024, New York:** A 13-year-old girl was sexually assaulted by an Ecuadorian national who was in the U.S. illegally. **Source:** House Committee on Homeland Security.
- **February 2024, Location not specified:** ICE arrested a 26-year-old from El Salvador in Houston for aggravated sexual assault with a firearm. **Source:** ICE news release.
- **February 2023, Location not specified:** In its 2023 year-in-review, ICE reported assisting 7,110 victims, including 1,647 victims of child exploitation. **Source:** ICE news release.
- DHS Honors Victims of Illegal Alien Crime - Homeland Security-Aug 6, 2025 — 18-year-old Hallie Helgeson and 19-year-old Brady Heiling were both killed in a car crash caused by Noelia Saray Martinez-Avila of Honduras in Wisconsin in 2025

IMMIGRANT CRIMINAL GANGS

Image Source: Getty Images

On 20 January 2025 the President of the United States, by Executive Order, authorized the designation of certain international cartels and other organizations as foreign terrorist organizations (FTO's), noting that international cartels constitute a national-security threat beyond that posed by traditional organized crime.Tren de Aragua (TdA) was designated as such, moving it from TCO to FTO status.

Tren de Aragua is a transnational criminal organization that originated as a prison gang at Tocoron Prison in Aragua, Venezuela and has continued operations nearby in Lara, Yaracuy, Bolivar, Sucre, Miranda, Tachira, Carabobo, Trujillo, and Zulia. The group's criminal network has expanded through South and Central America and into the U.S. in recent years, with identified cells in Bolivia, Brazil, Chile, Colombia, Ecuador, and Peru.

‘Tren de Aragua's illicit enterprise includes human smuggling, extortion, and drug/weapons trafficking, where it also leverages its transnational networks to smuggle people, especially migrant women and girls, across borders for sex trafficking, debt bondage, and forced labor. In addition, Tren de Aragua has expanded internationally as it followed and targeted migrants fleeing from countries socio-, political, economic crises.

Héctor Guerrero Flores has led Tren de Aragua since its inception, including during his incarceration at Tocoron Prison, from which he was serving a 17-year sentence for several crimes, including murder and drug trafficking. Guerrero escaped from Tocoron Prison in September 2023; his current location is unknown.’ Yohan Jose Romero, AKA "Johan Petrica" controls the main area of control. Petrica is involved in Politics and in the Military sector of Tren de Aragua and provides Tren de Aragua most of the military grade weapons used to control the streets of Venezuela and to fight against the Colombian guerrillas,

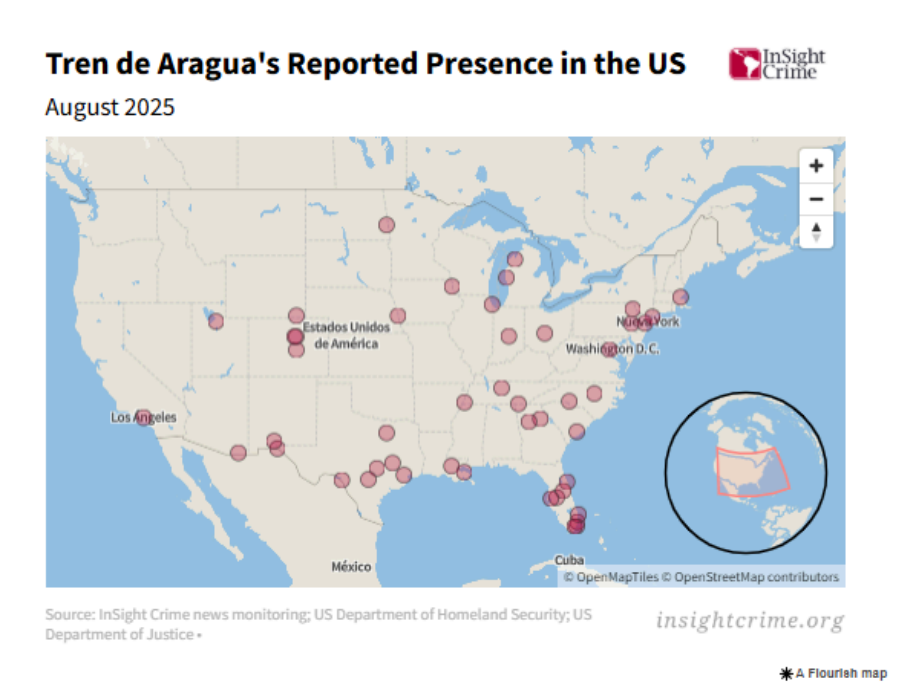
RUMINT has indicated that Nicholas Maduro Venezuela's dictator took measures to militarily train and arm members of TREN de ARGUA (TdA) which has strategically established a presence in multiple countries in South America by following migratory routes from Venezuela. The Kingpin is ‘Héctor Rusthenford Guerrero Flores’ ***alias*** ‘Niño Guerrero’.
Their presence in the USA first surfaced in 2021. MS-13 has also attempted to set up shop and re-establish its presence within our borders also. During Trump’s first term he deported thousands of MS-13 and Barrio-18 members.

- **Venezuela:** The gang originated in the Tocorón prison in Aragua state, its former operational hub. Despite losing its prison stronghold in a 2023 raid, the gang's transnational operations persist, with remnants of the group active in Bolívar and Sucre states.
- **Colombia:** TdA operates across the border between Venezuela's Táchira state and Colombia's Norte de Santander department. Its presence is also noted in urban areas like Bogotá.
- **Peru:** The gang has established a significant presence in cities such as Lima, contributing to criminal activities and an increase in xenophobia toward migrants.
- **Chile:** TdA has established cells, including in the capital Santiago, and was linked to the high-profile murder of a Venezuelan dissident in 2024.
- **Ecuador and Bolivia:** Both countries have seen reports of TdA activity.
- **Brazil:** TdA members have reportedly been jailed in Roraima state and have ties to the Primeiro Comando da Capital, a Brazilian gang.
- **Argentina:** In May 2025, authorities arrested 12 alleged TdA members, and the country has classified the group as a terrorist organization.
-

Reports indicate that TdA has a presence in Mexico and the United States, targeting migrant communities. The most activity was reported in Colorado where two apartment complexes were overtaken by them, months later after political theatrics denying their presence, subsequent police raids were eventually conducted, but the group had prior warning, so arrests were minimal if any at all. TdA has been known to operate in Mexico and at the U.S. border to smuggle people and drugs. At this time it is unknown exactly how many members are within the United States. A map below provided by 'InsightCrime' depicts their US presence.

- **United States:** Authorities have accused dozens of people of belonging to TdA in at least 16 states, with the most organized presence reported in Colorado, Florida, Illinois, New York, Texas, and Virginia. Other states with reported activity include: Arizona, California, Delaware, Georgia, Indiana, Louisiana, Maryland, Michigan, Montana, Nevada, New Jersey, New York (Bronx and Queens), North Carolina, Tennessee, Utah, Wisconsin, Wyoming.

  The last TdA report I heard was from Tennessee. According to a Washington Post article references a DHS Intelligence Memo with fresh data at the time.



According to CBP intelligence & media reports,'On October 5, 2024, law enforcement executed "Operation Aurora," a sting targeted at TdA members occupying a San Antonio apartment complex that had been forcefully taken over by the violent gang, similar to the situation recently seen in Aurora, Colorado.5 Authorities arrested 19 Venezuelan illegal aliens , four of whom are

confirmed TdA members, after receiving numerous complaints of TdA seizing vacant apartment units for drug-related crimes and human trafficking, and threats to apartment employees. One of the arrested suspects was reportedly a TdA gang leader.6 Moreover, 15 of the 19 detained individuals had immigration detainers placed on them by Homeland Security Investigations (HSI) for likely removal from the U.S.

'Thankfully, the raid concluded without incident. The task force, comprised of law enforcement officials from the San Antonio Police Department (SAPD), the Texas Department of Public Safety (DPS), the Federal Bureau of Investigation, Border Patrol, and HSI, should be commended for their efforts. While the apprehension of TdA members and other foreign criminals is a welcome development, this dangerous incident, and similar incidents, may have been avoided if DHS took appropriate action to secure the border and stop the mass release of illegal aliens into our Communities.

Indeed, this is not the first incident involving TdA in Texas. On September 26, 2024, reports revealed DPS arrested over 20 suspected TdA members at an El Paso hotel for human smuggling, prostitution, and narcotics possession, among other crimes.9 On September 19, 2024, HSI and SAPD reportedly arrested two individuals linked to TdA for their involvement in a firearms smuggling operation.10 In March 2024, more than 100 suspected TdA members were arrested for their involvement in charging at National Guardsmen and DPS troopers at the El Paso border in March 2024.'

MEXICO'S (TCO's) RE-DESIGNATED FTO'S

Source: Sentry OPs Group **(SOG-IS)**

Cartel De Sinaloa (CDS) and Cartel Jalisco New Generecion (CJNG) are two of the most significant threats to the public health, public safety, and national security of the United States. The cartel uses their vast distribution networks to transport drugs into the United States, primarily through ports of entry (POEs) in California and Arizona. CDS and CJNG associates, facilitators, and affiliates operate in almost all 50 U.S. states, and these thousands of cartel-linked drug traffickers supply illicit drugs and drive violence across American communities. A web of illicit drug wholesalers one step removed from the cartels in Mexico operate in most major cities throughout the United States, including Los Angeles, Phoenix, Houston, Chicago, Atlanta, and Miami. These U.S.-based affiliates use social media platforms and encrypted messaging applications to advertise and distribute their deadly products, as well as to recruit couriers and traffickers. They supply networks of local independent drug trafficking groups, street crews, and gangs whose main aim is to get the illegal drugs into the hands of users. Some gang members and independent traffickers are so prolific they have direct contact with cartel-connected wholesalers, allowing them to become regional-level suppliers.Cartels have an established operational presence within each state within the USA. In California I'd be willing to bet they are in each large county and city.

CJNG has significantly broadened its criminal activities beyond drug trafficking and money laundering to reinforce its financial base and shield its core operations from law enforcement pressure. In addition to producing and distributing narcotics, CJNG is involved in extortion, kidnapping, arms trafficking, human smuggling, and the large-scale theft of fuel. The cartel has increasingly embedded itself in legitimate sectors such as agriculture, construction, transportation, and mining—not only to generate illicit profits but also to disguise and protect its broader criminal network. It has also been tied to real estate scams, including fraudulent timeshare schemes, which are used as tools for laundering money and concealing assets.

This diversification strategy boosts CJNG's resilience and reach, allowing it to sustain operations even under intense law enforcement scrutiny. By infiltrating legal industries and manipulating economic systems, the cartel erodes the distinction between lawful and illicit enterprises, complicating efforts to disrupt its activities. These non-drug ventures not only strengthen CJNG's financial position but also contribute to widespread instability in both Mexico and the U.S. Local communities bear the brunt of this impact through increased violence, economic manipulation, and systemic corruption, all of which expand CJNG's influence and reinforce its role as a transnational threat.

The PRC utilizes the different cartel factions as a proxy force against the US as an asymmetric warfare tactic. Killing over 400k US citizens since 1999, many of which could have been future warfighters or otherwise productive members of society, at minimum, producing, bearing or fostering a significant number of offspring, offsetting population decline. Each of those people was a son, daughter, brother, sister, a grandchild whose loss touched someone here unnecessarily, and continues to create a traumatized, distraught, emotionally broken,

demoralized sector of society. The CCP has full control of the California Illegal Marijuana trade with operational control of crops on farmlands, rural and suburban growhouses.

They also operate in states like Oklahoma, Colorado and Maine. Many of these illegal grows that have armed foreigners protecting them, get their product certified and validated as legitimate legal regulated marijuana (approval seal of testing) and are sold illegally in shops across America poisoning many people. Meanwhile the Mexican Cartels are taking all the heat for the Fentanyl killing people as designed by the CCP GrayZone/Irregular Warfare protocol; Additionally, Venezuela and Maduro's Cartel Del Sole are also pushing Fentanyl. The CCP controls the precursor chemicals required to synthesize them into distributable Fentanyl in powder, liquid or paste formulas. The CCP, Maduro, Iran, Russia, and never forget Cuba are nefariously involved in grayzone warfare against the U.S.

In the past 10 years, Chinese TCOs have come to dominate the cultivation and distribution of marijuana in the U.S. while nearly doubling the average THC content. Chinese criminal groups purchase land, sub-divisions, single track homes, and farming operations, either through U.S. citizens with ties to China, or they pay legitimate farms and individuals to cultivate marijuana to be smuggled and sold in other U.S. states where marijuana use is illegal. Chinese criminal organizations' connection to money laundering for Mexican drug cartels creates large amount of cashflow and the low-cost of land and existing cannabis laws in Oklahoma made it an ideal investment. In 2024, 66% of illicit marijuana seizures conducted by the Drug Enforcement Agency (DEA) occurred in Oklahoma.

In 2024, marijuana use between the ages of 12 to 17 increased by 16%.The DEA noted "the combination of: increased U.S. production, lowered risk perception, all-time-high THC levels, and enticing product marketing, have resulted in increased injury due to unintentional exposure to marijuana and THC products, particularly among children." Aside from the monetary benefits and its connectivity to money laundering for Mexican cartels, illicit marijuana cultivation exploits legislation to strain State resources and destabilize American communities. The prevalence of Chinese/Asian TCOs and illegal marijuana cultivation are further illustrated by the results from a three-month long, DEA-led, 2024 operation in California:

- 161 of the total 855 sites had connections to Chinese/Asian TCOs.
- The processed cannabis seized at these sites accounted for 41 percent (22.5 tons) of the total amount seized during the operation.
- 33 percent (70) of the total arrests had connections to Chinese/Asian TCOs.

Although offshoots from previously established FTOs continue to emerge, DEA assesses the following six Mexican FTOs as having the greatest drug trafficking impact on the United States: Sinaloa Cartel, CJNG, Juarez Cartel, Gulf Cartel, Los Zetas Cartel, and Beltran-Leyva Organization (BLO). Each of these FTOs maintains drug distribution cells in designated cities across the United States that either report directly to FTO leaders in Mexico or indirectly through intermediaries. The following is a background on each of the six major Mexican FTOs, with examples of their drug trafficking impact on distinct U.S. cities: Sinaloa Cartel – The Sinaloa Cartel, based in the Mexican State of Sinaloa, is one of the oldest and more established drug trafficking organizations in Mexico. The Sinaloa Cartel controls drug trafficking activity in various regions in Mexico, particularly along the Pacific Coast.

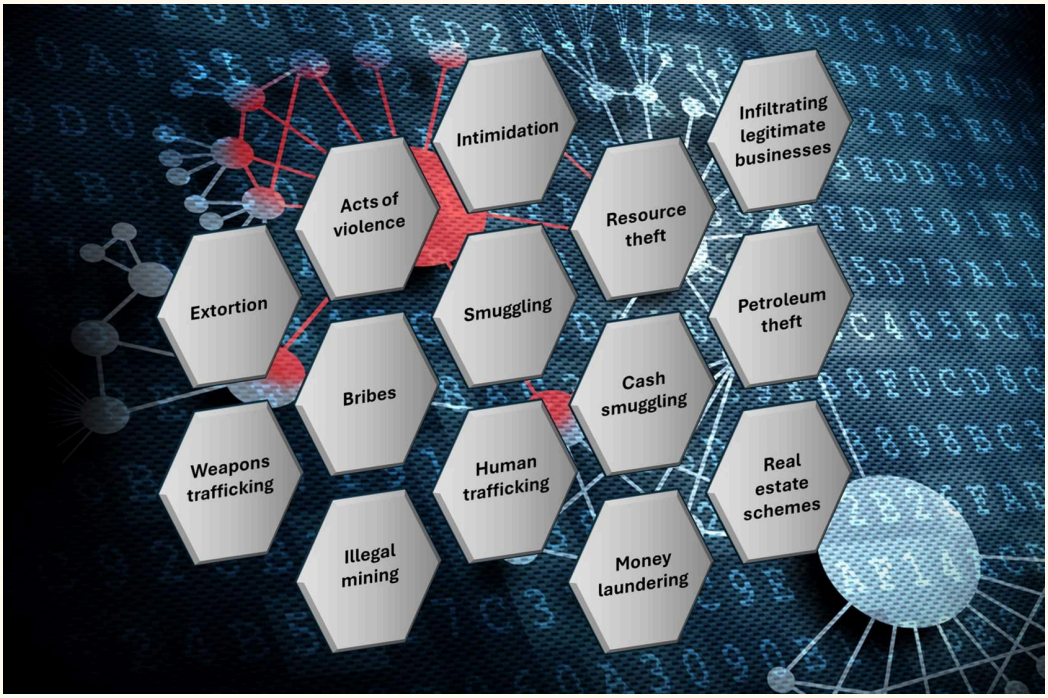
‘Additionally, it maintains the most expansive international footprint compared to other Mexican FTOs. The Sinaloa Cartel exports and distributes wholesale amounts of methamphetamine, marijuana, cocaine, heroin, and fentanyl in the United States by maintaining distribution hubs in cities that include Phoenix, Los Angeles, Denver, and Chicago. Illicit drugs distributed by the Sinaloa Cartel are primarily smuggled into the United States through crossing points located along Mexico’s border with California, Arizona, New Mexico, and west Texas. Jalisco New Generation Cartel – CJNG, based in the city of Guadalajara in the Mexican state of Jalisco, is the most recently formed of the six Os.’ (DEA)

Additionally, since the Trump administration has rightfully engaged Mexican FTO’s, there lies an inherent danger to US society. Since FTOS are heavily embedded and intermeshed within United States communities they are considered individual cartel assets in their respective designated Areas of operation (AOO). These assets at any given point during the Armed Conflict between the U.S vs Cartels, could hypothetically be activated and authorized to attack, disrupt or manipulate activities within any given community. It's the same concept with Hezbollah/Hamas/IRGC/CCP operatives that are all forward deployed within U.S borders, all ready to act against America, each holding allegiance to their respective home nation.



With drug distribution hubs in the U.S. cities of Los Angeles, New York, Chicago, and Atlanta, it is one of the most powerful and fastest growing cartels in Mexico and the United States. CJNG smuggles illicit drugs into the United States by accessing various trafficking corridors along the SWB to include Tijuana, Juarez, and Nuevo Laredo. CJNG's rapid expansion of its drug trafficking activities is characterized by the organization's willingness to engage in violent confrontations with Mexican Government security forces and rival cartels. Like most major Mexican FTOs, CJNG is a poly-drug trafficking group, manufacturing and/or distributing large amounts of cocaine, heroin, methamphetamine, and fentanyl. CJNG reportedly has a presence in 22 of 32 Mexican states. Both Sinaloa and CJNG have operational presence in over forty (40) separate countries.

The CDS habitually resorts to extreme acts of violence—such as murder, torture, and abduction—or the intimidation that accompanies such threats to coerce civilians, public officials, and members of the media. Apart from its drug trafficking operations, the cartel partakes in a wide array of other criminal activities, which encompass money laundering, business extortion, the theft of natural resources like oil, trafficking in firearms, human smuggling, managing prostitution networks, and involvement in the illegal wildlife trade. The profits derived from these supplementary criminal endeavors serve to enhance the cartel's financial robustness and operational sustainability, allowing for continued growth and a broader global presence. (DSCU-IWC 110)

ADDITIONAL CRIMINAL MIGRANT DATA

Almost 13,990 murders, some pending these are people walking the streets everyday they are amongst us or someone we know and care for, totally unacceptable for civilized society.

ICE criminal data: A September 2024 letter from ICE Deputy Director Patrick Lechleitner detailed the number of criminal non-citizens on ICE's docket as of July 21, 2024. This docket included:

- **662,566** total non-citizens with criminal histories.
- **14,944** for homicide (including pending charges).
- **20,061** for sexual assault (including pending charges).

Convicted vs. pending charges: The total figures include both individuals with prior convictions and those with pending charges. Fact-checking by AFP noted that the vast majority of these individuals were not detained by ICE, and some may have served their time or left the country.

Donald J. Trump
@realDonaldTrump
JUST OUT: 13,000 people convicted of murder have crossed into our Country through Kamala Harris' Open Border - NON DETAINED, NON CITIZEN, CONVICTED CRIMINALS! I've been saying this from the beginning of the Harris-Biden Administration, as soon as I learned they opened the Borders. Nobody who has allowed this to happen to our Country is fit to be President of the United States! Bad timing for her to show up to the Border today, after not going for four years. Why didn't she release these numbers earlier?
NON-DETAINED NONCITIZEN CONVICTED CRIMINALS
13,099
CONVICTED OF HOMICIDE
15,811
CONVICTED OF SEXUAL ASSAULT
425,431

President Trump - Truth Social Post

236(c) does not apply, ICE officers may use their discretion in making custody determinations and release noncitizens with conditions. ICE custody determinations are made on a case-by-case basis and take into account the individual case circumstances, primarily considering risk of flight, national security threat, and threat to public safety. ICE takes other factors into consideration as well, including when a noncitizen has a serious medical condition, is the primary caregiver of minor children, or other humanitarian considerations.

FACT SHEET: GOP FACTSHEET

KNOWN OR SUSPECTED TERRORIST (KST) ATTEMPTING ENTRY

From fiscal year (FY) 2021 through FY 2024, Customs and Border Protection (CBP) encountered a total of 734 individuals on the terrorist watchlist trying to cross into the U.S. between ports of entry at the northern and southern borders

.

Specific numbers for encounters with known or suspected terrorists (KSTs) at the border between fiscal years 2021 and 2024 include:

- **FY 2021: 16** encounters.
- **FY 2022: 98** encounters.
- **FY 2023: 169** encounters.

SPECIAL INTEREST ALIENS RELEASES INTO USA

According to internal CBP data cited by Senator Ted Cruz, border patrol agents apprehended over 70,000 SIAs between ports of entry. Encounters from specific Middle Eastern countries included:

- **Afghanistan:** 6,386
- **Egypt:** 3,153
- **Iran:** 659
- **Syria:** 538
- **Iraq:** 123
- **Lebanon:** 164
- **Jordan:** 185

Data released by the Federation for American Immigration Reform (FAIR) in late 2024 revealed that thousands of SIAs with final orders of removal remain in the U.S. This data does not indicate how many were initially released, but it does show that a significant portion were not removed after their court proceedings. For Middle Eastern countries, this included:

- **Iran:** 2,618
- **Iraq:** 1,299
- **Afghanistan:** 1,708

- **Syria:** 714
- **Libya:** 89

Disclaimer: An individual's status as a special interest alien does not automatically categorize them as a national security threat. The designation means they are from a country that promotes terrorism, or that they have suspicious travel patterns that require additional screening.

Now that I've established that the U.S is not only in a current internal Civil ideological war, a battle against the Globalist Cabal of the UNITED NATIONS (U.N), WORLD ECONOMIC FORUM (WEF), WORLD HEALTH ORGANIZATION (WHO), ASSOCIATED FOUNDING FAMILIES, BRITISH EMPIRE etc, Russia, CCP, Iran Red/Green Axis, CUBA, VENEZUELA but also a spiritual battle for America as a whole, with multiple active insurgencies taking place at once by proxies in the capacity as Anarchist, Communist, Marxist, Soclamist,Jihadist, MEXICAN CARTELS and Non-assimilating Criminal Aliens .

THE GRAND JIHADI THREAT

Image Source: Survival Dispatch News

There exists a looming threat of an Islamic Jihadi attack on the homeland. I have been closely monitoring the investigations conducted by Sarah Adams, which she has shared on the Battleline Podcast since its inception. I became part of her professional network on LinkedIn as she subsequently appeared on various podcast platforms, including the Shawn Ryan show, consistently striving to inform the public. I have received and disseminated relevant data, and she has remained resolute in her call for public awareness and preparedness.

Additionally, a coalition of influential figures has pledged to vocalize these concerns extensively, as emphasized by Lieutenant Colonel Scott Mann. Others who have actively participated in this effort include Dave "Boon" Benton, Lieutenant Colonel Scott Mann, Shawn Ryan and his team, Jane Doe, Commander Masoud, Khalid Muhammad, and Command Eleven staff and in particular Chris Heaven and his team at Survival Dispatch News who has developed Red-Teaming on the issue and extensive preparation for this likely mass-casualty event. Many others whose contributions may not be widely recognized. In response to these developments, I have established a security awareness email distribution list that provides timely updates and new information to individuals within my security network. I have briefed as many contacts as possible within the security and intelligence community who are willing to engage with

this critical information. I have contacted the JRIC,OCIIAC,NRIC, CIA, DOD, DTRA, DNI, FBI, DHS, LA-Infragard, Army INSCOM, & CID, State Department - CT Dept, DSS local and state governments.

The responsibilities I hold as a counterterrorism analyst, along with the obligation to provide warnings, have been thoroughly fulfilled, as were those of Sarah almost 2 years ago. It is important to note that even if only a single individual is alerted, this act may result in saving a life. Although many individuals are aware of the situation, this level of awareness is insufficient. Recently, Sarah conducted a meeting with Joe Kent, the new Director of the National Counterterrorism Center (NCTC) within the Office of the Director of National Intelligence (ODNI), under Director Gabbard. Kent possesses the necessary knowledge and has been briefed accordingly, and it is hoped that he will allocate resources to support Sarah's investigation. Until definitive actions are taken to apprehend or neutralize these individuals, a minimum of 1,500 up to 6,000 trained terrorists remain poised to execute multi-city, multi-county, complex coordinated attacks involving 8-10 member fire teams targeting multiple selected soft targets. I will defer to Sarah's statements for a more authoritative perspective.

SARAH ADAMS, FORMER-TARGETING OFFICER CENTRAL INTELLIGENCE AGENCY, CONGRESSIONAL ADVISOR, AF-DOD ANALYST, CO-FOUNDER-ASKARI MEDIA GROUP **WRITES-**

"Hamza's War:

The Plot to Bring America to its Knees Al-Qaeda's homeland plot was set in motion in December 2021, around the time Hamza bin Laden was first put in charge of al-Qaeda's military. He was later made Emir in November 2022, solidifying his destiny as the bin Laden heir. All we know for certain is that al-Qaeda wants all attackers in the U.S. near the end of this year, fully ready to launch. Stop asking for an exact date—the terrorists aren't gonna to announce it. Complacency will get you killed. Here's the need-to-know. Who's behind it? Hamza bin Laden and his brothers Abdullah, Saad and Uthman are driving the homeland plot while Saif al-Adel handles the external-ops piece. The plan borrows tradecraft and ruses from the late Dr. Ayman al-Zawahiri who assisted in the initial design and operational theory from Abu Musab al-Suri.

This is not one-group warfare; It's a cross-pollinated campaign, receiving support from ISIS's Military Commission and numerous other groups and affiliates

including: ISKP, ISIS–Somalia, TTP, HTS, LET, AQIM, Al-Shabaab, IMU, the Haqqani Network, the Taliban, AQAP, Ansar al-Sharia (Libya and Yemen), JEM, JNIM, Hurras al-Din, and others tied to the jihadi battlefields in Bosnia, Algeria, Afghanistan, Libya, Yemen, and Syria. What's the overall design? Think three headline pieces that work in tandem: catastrophic aviation attacks, a Mumbai-style hostage siege in Washington, and mass-casualty operations in U.S. cities where our Veterans call home.

Aviation piece: A nod to Bojinka, the 2006 transatlantic plot, and the underwear bomber—this operation is designed to take down a dozen airliners over the U.S. using an evolved version of the underbomb, also known as the invisible or hidden bomb. To maximize the prevention of loss of life, enforce the use of millimeter-wave scanners—forcing attackers to rely on insiders, which creates more opportunities to thwart their plans. Mumbai-style siege on Washington, D.C.: A hostage/assault operation meant to bring the U.S. again to its knees in honor of the late Osama bin Laden, avenge captured or killed Islamist operatives, and paralyze a federal response elsewhere. Expect some previously known names to surface in this piece; symbolism matters as much as casualties."

"**Attacks where you live, work, and play:** This campaign is designed to make people feel unsafe in their everyday lives—especially veterans and communities who have served overseas. The goal is for veterans to experience in their hometowns the same fear their families faced while they were deployed in Iraq, Afghanistan, and Syria. Think mass-casualty attacks. **Targets include churches, hospitals, shopping centers, public transit, and first responders.** These will be carried out by 5–10 person urban-assault teams using fully automated weapons, IEDs, VBIEDs, and suicide tactics; they can choose, change, and adapt targets in real-time. Important: teams are mixed. Don't think a five-person team equals five members of one organization. A single assault team could include fighters from ISIS, HTS, Lashkar-e-Taiba, AQIM, & Al-Shabaab." **Note:** Includes synagogues, temples, some mosques.

"The government won't find these cells by focusing on one group at a time. Jabbar from New Orleans was actually part of one of these cells and seems to have gone off script early, chasing his own glory. Our government lied that he was a 'lone wolf'. We should demand they wrap up his cell. Bottom line: A war is coming to the U.S. homeland—whether you like it or not. A terrorist plot of this scale has never been set into motion here, with al-Qaeda leading on one front and ISIS on another. The U.S. government's failed counterterrorism strategy is enabling and funding the plot, and they

show no willingness to change course. No one is coming to save you. Don't underestimate the Bin Laden sons—those who dismissed their father paid the ultimate price on 9/11. Waiting for all the answers won't make you ready. The terrorists are already in motion. It's time for you to roll.

Operational design: three linked campaigns — (1) catastrophic suicide bombing aviation attacks (Bojinka echoes, using an advanced version of the hidden-bomb aka underwear bomb), (2) a Mumbai-style hostage/assault in Washington, D.C., and (3) mass-casualty urban attacks where you live, work and play targeting churches, hospitals, malls, transit, and first responders — intended to terrorize veterans' hometowns. Assault teams (5–10 people) will be mixed cross-group, multinational cells. Jabbar from New Orleans was a member of one of these cells, not a lone wolf.

Bottom line: A war is coming to the U.S. homeland—whether you like it or not. A terrorist plot of this scale has never been set into motion here, with al-Qaeda leading on one front and ISIS on another. The U.S. government's failed counterterrorism strategy is enabling and funding the plot."

"No one is coming to save you. Don't underestimate the Bin Laden sons—those who dismissed their father paid the ultimate price on 9/11. Waiting for all the answers won't make you ready. The terrorists are already in motion. We must prepare at every level. It's time for you to roll."

A Final Note from Sarah:

"Thank you for doing the right thing for your communities. If this threat is not thwarted by our federal government, it falls to us to be prepared, to limit casualties in our hometowns, and to protect the people we love the most."-https://x.com/TPASarah/status/1970893300660916290

DISLOSURES: 9/11 2.0 Disclosure HUMINT "It's not a prediction. If people are unaware. We've been running human networks into Al Qaeda for a decade now. Of course it was to identify the terrorists who attacked us in Benghazi. But since the fall of Kabul, a lot of those Libyans went to Afghanistan, right, and we've been tracking this homeland plot since then" -@TPASarah

DISCLOSURE: High Veracity Intelligence and Reporting Coming Through Veteran Channels Instead of Formal Channels "Where are these veterans getting this. Like, why aren't we getting this from the intelligence community or why aren't we getting this from the formal institutions? By the virtue of abandoning 98 to 99% of our intelligence capability and our commandos and our special ops, the veteran community stepped into the breach and took over those relationships for primarily humanitarian reasons. But here we are four years later. And what you have is high veracity intelligence and reporting coming through these channels instead of formal channels" - @RooftopLeader

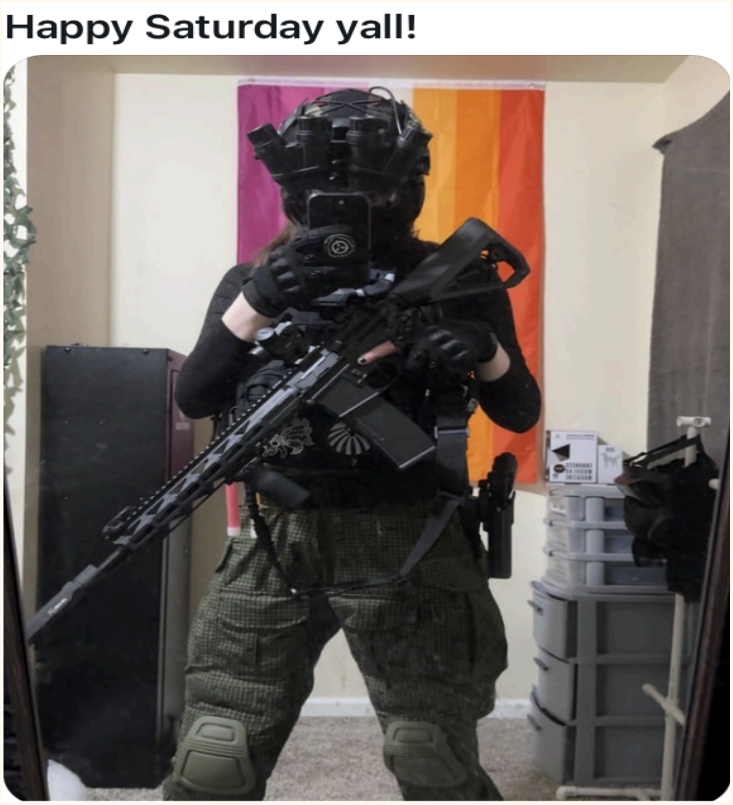
Essentially, the manual says that governments can be overthrown in a variety of ways. For example, an unplanned and spontaneous outburst of popular will could lead to a revolution akin to that of France in 1789. Conversely, there is the coup d'état, where a small group of conspirators replaces state leaders with little support from the broader public (technically done by Obama). Insurgencies generally occupy a middle ground between these two extremes. They typically pursue one of two aims: to topple the existing social order and redistribute power within a single state, or to break away from state control and create an autonomous entity or ungoverned area that they can dominate. Insurgency is usually a type of internal conflict, occurring mainly within a state rather than between states, and it often contains elements of civil war.

Source: 𝕏-Obama

An exception to this pattern of internal conflict is represented by resistance movements, where local groups attempt to expel or overthrow what they consider to be a foreign or occupying government. Such a resistance movement could be organized by a legitimate government in exile or by factions competing for that role.

Even in the realm of internal conflict, the involvement of external actors is expected. During the Cold War, both the Soviet Union and the United States engaged in many such conflicts. Nowadays, external actors are often transnational organizations driven by ideologies based on extremist religious or ethnic beliefs. These organizations exploit the unstable internal conditions that afflict failed and failing states. However, this external involvement does not change one essential fact: the long-term objective for all parties remains the acceptance of the legitimacy of one side's claim to political power by the people of the state or region.

MILITANT TRANSGENDER THREAT



Militant Transgenderism is on the rise in America. In plain speak, these are highly confused “gender identity” questioning leftist, **AnarchoCommunist** or **Marxist** that espouse and exploit popular and accepted ‘American Gun Culture’ to extremist levels, while mixing it with their radical ideologies. Their ideology is already unstable at best, Marxism demanding revolution as a core tenet; Adding the weaponry (exploiting America’s 2A rights) and ideation of power and validation naturally brings unwanted

terroristic violence. The USG has recently tossed around the idea of defining these groups via the FBI, categorizing transgender militant individuals as "**Nihilistic Violent Extremists**" (NVEs) or create a whole new category of domestic terrorism called "**Transgender Ideology-Inspired Violent Extremism**" (**TIVE**).

INTENTIONAL SHUNTING & DEMORALIZATION OF PATRIOT MOVEMENT

MVE-Critics such as myself, state this is a manufactured term, subsequently weaponized by both Obama era government and media to demoralize, de-popularize and disarm. Specifically used to cast constitutionally protected advocacy as “extremism” and to target political rivals who most likely side with Patriots. Most Patriots in my view simply want to preserve America and its Constitution aside from private property, rights etc. I tend to agree as it is similar to the manufacture and use of the term“**Islamiphobia**” to target opponents for merely criticizing or questioning Islam (by design OIC) and popular categories like “**Militia Violent Extremist**” (**MVE**) , a militia, being another constitutionally protected category, is actually “in” the U.S Constitution where it reads, “**being necessary to the security of a free State”** this targets Patriotic Americans “the vanguards” of this nation. Regardless, the newest of the groups, they’ve earned this “**NVE**” designation through demonstrated acts of terrorist violence and I hope FBI leadership will review and possibly abolish some of the others that were actually politically motivated as biased and partisan as it sounds. Equally important is the re-establishment and use of “IslamicTerrorism” as opposed to “extremism” and “Islamic Terror” VS “Islamic Extremism” as an exact descriptor. If they control our words they control the “Narrative” if they control this, they control the “ 5G battlespace” which is Information Warfare.

This report seeks to address critical concerns while maintaining objectivity, despite the challenges surrounding political implications. It is evident that the Biden administration was caught leveraging key federal agencies such as the FBI, DHS, SS-NTAC, CIA, DNI, and NCTC in ways that raised concerns about overreach and misuse of authority.

Specifically the DHS under leadership of Alexandro Mayorakas who weaponized DHS and therefore the federal Government to include specifically 'the Interagency' against law abiding American citizens. Among those targeted were individuals with conservative values, alongside White, Christian, heterosexual Americans, as well as those rightfully questioning COVID-related policies, including vaccine hesitancy or skepticism about media narratives surrounding the pandemic. In addition, "Covid Denyers" of all flavors, were labeled and classified as **"Domestic Terrorist"** if you didn't believe in or want the vaxx. Or those that knew it was not what the media portrayed it to be, especially after Covid2 death counts were found to be manipulated, and facial masking policies didn't help.

Also of note, the FBI targeted a Catholic Church (an abomination) by emplacing undercover operatives to spy, justification were claims they were ritualistic and radical. They also relied on intentionally biased reports from the ADL and SPLC who claimed the whole church was extremists, both ADL and SPLC are proven "Intelligence Operations". FBI Agents were also dispatched to open investigations on parents that had a local policy dispute regarding the school PTA and children with regards to bathroom use by trans kids. Clearly not an FBI issue and doesn't warrant labeling American parents as 'domestic terrorists' for voicing their opinion, obviously political persecution.

Recently, the FBI has publicly separated from the ADL & SPLC. During my time working for a specific organization my Director of Intelligence always insisted that junior analysts utilize anything and everything related to ADL and SPLC produced as a "Primary Source". In fact their intelligence products were praised. I recognized right at the beginning of my three year tenure that their material and investigations were not only extremely biased on behalf of left wing politics, but also seemed to "spin" all investigations negating them as a true SOURCE for any Domestic extremist or

Counterterrorism investigation report or any legitimate report not parroting the Obama/Biden/Brennan conspiracy that “White, radical, right winged extremism was on the rise “ painting everyone and thor brother as a domestic threat..

Background on the partnership
The collaboration between the FBI and the ADL had existed since at least the 1940s and involved joint efforts to train law enforcement officers and monitor extremist threats.

- The ADL provided expertise and training to FBI agents on hate crimes, violent extremism, and antisemitism.
- Former FBI Director James Comey had previously praised the ADL for its work.
- As recently as November 2022, former FBI Director Christopher Wray had publicly acknowledged the FBI's collaboration with the ADL in combating hate crimes and domestic terrorism.

The ADL rightfully faced criticism for including information on Turning Point USA founded by Charlie Kirk, in its glossary. Following Kirk's death in September 2025, right-wing figures, including Elon Musk, seized on the entry to accuse the ADL of being biased. The ADL ultimately removed the glossary, stating that some entries were being "intentionally misrepresented and misused". ADL also administers the Hate Group Heat Map, which exaggerates or mis-charactorizes several instances.

Despite the ADL's move, FBI Director Kash Patel announced the termination of the partnership. He accused the ADL of being a "political front masquerading as a watchdog" and alleged that the group had previously spied on Americans. He also cut ties with the Southern Poverty Law Center (SPLC). The controversies are too many to list.

Image Source: X Feed @AndyNgo

@MrAndyNgo, a popular independent media investigative journalist who identifies himself as a "gay conservative" has had my attention for years due to his specific reporting that nobody else had access to. I have followed his journalism closely to ensure I receive truthful intelligence reporting on subjects like ANTIFA. I also followed the tracking of ANTIFA prosecutions across the US or their lack thereof.

Ngo operates the Post Millennial" an alternative digital news outlet where on-ground (on-scene) reporting takes place at various protests and riots nationwide. Ngo has stated there are up to 500 different protests each day on the typical topics of Climate Change, Gender Identity, Illegal Immigration, Abortion Rights, Womans Rights, Gay RIghts you name it someone is bitching about something somewhere. He and his teams tackle reporting on groups like ANTIFA and the damage, injury and destruction they cause. Ngo actually became a victim several years back after being seriously assaulted receiving head injuries. He won a small lawsuit against his ANTIFA attacker and only a modicum of justice. This also prompted him to write a best selling book "UNMASKED" where he goes into detail about ANTIFA's operational methodology.

Below Ngo writes. "A Minnesota Catholic school is the latest on a startling list of mass shootings carried out by transgender individuals in recent years. There has been an uptick in mass shooters and killers who are trans over the past few years."

"Minneapolis, Minnesota, Robert "Robin" Westman, 2025
Robert "Robin" Westman, the suspect who has been identified as the shooter in the killings, identified as transgender. Westman died of a self-inflicted gunshot wound at the scene.2 two children, ages eight and 10, were killed and 17 other people, including 14

children, were injured after Westman opened fire outside the Annunciation Catholic Church and school. Students had been inside the church for the first mass of the year.
As a minor, Westman changed his name from Robert to Robin, with the form stating that Westman "identifies as a female and wants her name to reflect that identification." In his manifesto, Westman expressed regret: "I am tired of being trans, I wish I never brain-washed myself."

Nashville, Tennessee, Audrey "Aiden" Hale, 2023
In March 2023, Audrey "Aiden" Hale entered the Covenant School in Nashville, Tennessee, killing three young students and three staff members before police shot Hale dead. Pages of writings released in the wake of the shooting detailed Hale discussing her "imaginary penis" and needing to see a "trans doctor." She wrote, "This female gender role makes me want to not exist." Another entry stated, "My penis exists in my head. I swear to god I'm male." Yet another section stated, "I finally found the answer—that changing one's gender is possible."
Colorado Springs, Colorado, Anderson Lee Aldrich, 2022
On November 19, 2022, five people were killed and 40 others injured after Anderson Lee Aldrich opened fire in Club Q, a Colorado Springs LGBTQ nightclub. He was sentenced to life in prison in June 2023. Aldrich identifies as nonbinary and uses they/them pronouns. Aldrich was stopped by patrons at the nightclub.

2022-Flashback: In November 2022, a #trans nonbinary suspect named Anderson Aldrich allegedly carried out the deadly mass shooting at gay nightclub, Club Q. The shooting was quickly blamed on the right by left-wing activists, Democrats & Antifa. When it emerged Mx. Aldrich is trans nonbinary, they said they didn't believe it.
https://x.com/MrAndyNgo/status/1640481011581734914
—-----
2019-Derrick Erickson-Flashback: In May 2019, a female-to-male identifying #trans shooter named Alec McKinney & accomplice Devon Erickson carried out a deadly mass shooting at STEM School Highlands Ranch in Douglas County, Colo. McKinney told investigators transphobic students were targeted.
https://x.com/MrAndyNgo/status/1640485638515441665
—----------
2018 Mosely-Flashback: In September 2018, a female-to-male identifying #trans shooter named Snochia Moseley murdered three colleagues at a Rite Aid distribution center in Aberdeen, Md. Moseley then shot himself dead rather than face being arrested."

ANTIFA RESOURCES

I just learned and noted that a recent CRP investigation by Ryan Mauro factually connects 'Open Societies Foundation' to factions of **ANTIFA** operating in the United States.

COORDINATED UPRISINGS

Protests in 2025 with anti-fascist or anti-Trump themes

- **Protests against Project 2025 and new immigration policies:** Following the inauguration of Donald Trump in January 2025, grassroots organizations and millions of demonstrators participated in protests against his administration's policies, especially those targeting illegal immigration and Project 2025, a plan created by the conservative Heritage Foundation.
- **Nationwide "50 states 50 protests":** These rallies took place at state capitals across the country in early 2025.
- **Anti-ICE protests in Los Angeles:** Riots and protests began in Los Angeles in June after Immigration and Customs Enforcement (ICE) agents raided parts of the city.
- **National "No Kings" protest:** On June 14, 2025, multiple "No Kings" demonstrations were held in conjunction with other anti-Trump protests. This was part of a larger nationwide day of action against the administration's perceived authoritarianism, with follow-up events scheduled for October 18, 2025.
- **Independence Day protest in San Francisco:** On July 4, 2025, the group Refuse Fascism organized a march in San Francisco, protesting the "One Big Beautiful Bill Act" passed by the Trump administ

---

No Kings protests (June 14, 2025) An estimated 5 to 11 million people participated in the "No Kings" protests on June 14, making it one of the largest single-day protests in U.S. history. Protests took place in thousands of locations in all 50 states, with major rallies held in large metropolitan areas like New York, Chicago, and Los Angeles. The protests were organized in opposition to the Trump

administration's policies, which organizers described as defying the courts, deporting people, and attacking civil rights. The movement took its name from the slogan "No thrones. No crowns. No kings," in opposition to one-person rule. The protests occurred as President Trump held a military parade in Washington, D.C. for the U.S. Army's 250th anniversary. Trump responded by deploying tanks and thousands of troops to the capital in a show of force against the popular opposition.

Protests against Project 2025 (February 5, 2025)-Organized by the grassroots movement #50501, which represents "50 protests, 50 states, one day," these rallies took place at state capitals nationwide. Protesters demonstrated against Project 2025, a conservative policy playbook, and other early Trump administration moves. Demonstrations focused on concerns over moves against immigrants, diversity, federal agencies, and perceived executive overreach. Signs frequently included the hashtags "#buildtheresistance" and "#defenddemocracy".

Anti-ICE and anti-deportation protests (June-July 2025)-Protests against Immigration and Customs Enforcement (ICE) and Trump's mass deportation efforts occurred in cities nationwide, including Los Angeles, New York, and Chicago. In early June, clashes between protesters and law enforcement in Los Angeles led Trump to federalize the California National Guard. The protests targeted Trump's immigration crackdown and ICE raids, with demonstrators chanting slogans like "ICE out of New York!" and demanding an end to mass deportations. Concerns were raised about potential civil rights violations and the use of federal military forces for domestic law enforcement.

Anti-Trump Labor Day protests (August 19, 2025)-The 50501 movement organized another series of nationwide anti-Trump protests for Labor Day, adopting the theme "Workers Over Billionaires".

Since January 2025, a significant number of protests and some attacks have occurred in response to increased immigration enforcement under the new administration

. A Princeton University analysis found a record high in immigration-related demonstrations in early 2025, with protests occurring in all 50 states and Washington D.C..

Attacks on ICE operations

Attacks on federal law enforcement, including incidents targeting ICE facilities, have been reported since January 2025.

- **Dallas field office shooting (September 2025):** A "targeted" shooting attack occurred at the Dallas ICE field office. The White House explicitly linked the attack to "anti-ICE" rhetoric.
- **Broadview, IL facility riot (September 2025):** Following the Dallas attack, protesters gathered outside a facility in Broadview, Illinois, chanting threats that included "Arrest ICE, Shoot ICE".
- **Chicago vehicle ramming (October 2025):** Federal law enforcement officers in Chicago were ambushed by individuals who used vehicles to ram agents. The Department of Homeland Security (DHS) described the perpetrators as "domestic terrorists".

- **Pacific Northwest incidents (since June 2025):** Small groups of "domestic violent extremists" have leveraged lawful protests in Portland and Eugene, Oregon, to damage ICE property and engage in violent confrontations with law enforcement.
- **Car-ramming incidents at protests (February 2025):** The Bridging Divides Initiative identified at least three suspected car-ramming attacks targeting large immigrant rights protests in Texas, Arizona, and Utah.
-

Major protests against ICE and deportations

- **Nationwide "Day Without Immigrants" (February 3, 2025):** Businesses across the country closed in a coordinated protest against the new administration's immigration policies.
- **June 2025 Los Angeles protests:** Widespread protests and riots erupted in Los Angeles following a large series of ICE arrests. In response, the president authorized the deployment of thousands of National Guard members and Marines to the city.
- **Solidarity protests (June 2025):** Following the events in Los Angeles, solidarity protests were held in dozens of other major cities, including New York, Chicago, Houston, and Seattle.
- **January 2025 inauguration protests:** Following the inauguration and subsequent announcement of stricter enforcement policies, large-scale protests took place in cities across the country, such as Dallas, Fort Worth, Chicago, Atlanta, and Denver.
- **Ongoing protests in Portland, Oregon:** Federal facilities in Portland have been the site of consistent anti-ICE protests throughout the year.
- **Demonstration in Minneapolis (June 2025):** An encounter between federal agents and community members at a Mexican restaurant escalated into a street protest and physical altercations.
-

Factors contributing to the rise in demonstrations

- **Rescission of protected areas policy:** On January 20, 2025, the new administration rescinded a policy that limited immigration enforcement actions in "sensitive locations" like schools and churches.
- **Uptick in raids and enforcement actions:** Multiple reports highlight increased ICE enforcement operations, including large-scale raids in major metropolitan areas in January.
- **Hardline immigration rhetoric:** Many organizing groups cite inflammatory statements from officials regarding immigration as a key driver of the increased protest activity.

"Tesla Takedown" protests (April 19, 2025)-A campaign targeting Tesla CEO Elon Musk's role in the Trump administration saw over 100 protests held nationwide. This effort was part of the broader 50501 resistance movement. Protesters criticized Musk's influence and actions within the Trump administration.

It shall be noted that during any given week within the United States there are over five hundred (500) organized protest in the United States. As 0f 10/18/2025 the below event is estimated at 2000 protest plus Europe and Australia.

“NO KINGS” 10/18/25

HEADED FOR ANOCRACY, THE RISE OF POLITICAL INSTABILITY

Anocracy is a hybrid political system that is neither a full democracy nor a full autocracy, combining elements of both. This instability and mix of regimes make anocracies more susceptible to political instability, internal conflict, and human rights violations.
Defining characteristics

- **Hybrid system:** Anocracies include a mix of democratic and autocratic practices. For instance, they might hold competitive elections but lack robust civil liberties, fair application of the rule of law, or checks on executive power.
- **Political instability:** Anocratic regimes are prone to political violence and sudden, adverse changes in leadership. This instability can create a volatile environment, as evidenced in studies linking anocratic conditions with a higher risk of civil war.
- **Weaker institutions:** These regimes often have weak governing institutions, which can undermine the democratic process. This weakness can also be exploited by political factions, heightening the risk of conflict.
- **A "catch-all" category:** Political scientists often use the term as a broad, intermediate classification for governments that don't neatly fit into the categories of autocracy or

democracy. For example, the Polity data series, a widely used tool for measuring democracy, includes anocracy as a specific regime type.

Examples of Anocracies
The designation of a country as an anocracy can change over time.

Cambodia: The government has exhibited both democratic aspects, such as elections, and authoritarian measures, like the violent suppression of protests.
Thailand: The country's frequent coups and political upheaval since the 1990s have led to it being categorized as an anocratic state.
United States: In early 2021, the Center for Systemic Peace downgraded the United States' rating from a democracy to an anocracy, citing concerns about political polarization and institutional instability during the final years of the Trump administration.
Pakistan: Some political observers describe Pakistan's political system as an anocracy, pointing to the interference of the military establishment in politics.

The Danger of Anocracy

Political scientists and other experts have noted that anocracies are often a breeding ground for political violence and civil unrest. The mixed nature of these regimes can lead to profound dissatisfaction among the population, who may feel that their participation in the political process is limited or ineffective. This can result in increased protests, civil rights abuses, and a heightened potential for civil conflict. Democracy, anocracy, and autocracy represent a spectrum of political systems, ranging from the free and competitive to the repressive and absolute. They differ fundamentally in how they distribute power, protect civil liberties, and ensure government accountability.

Feature	Democracy	Anocracy (Hybrid Regime)	Autocracy
Source of power	Power is derived from the people through open, free, and competitive elections.	A mix of democratic and autocratic elements exists, where some power may come from elections, but a significant portion is held by a limited group.	Power is concentrated in the hands of a single person or a small, elite group. Rulers are not chosen through fair elections.
Elections	Elections are competitive, free, and fair, with multiple parties and meaningful participation for citizens.	Elections may take place, but they are often neither free nor fair. They are used to create a facade of legitimacy, with opposition heavily restricted.	There are no free or fair elections. If they are held, they are controlled by the ruling power to maintain control and have no genuine power.
Civil Liberties & Rights	Individual liberties and rights are legally protected and upheld through the rule of law.	Civil liberties are restricted and often violated, with human rights abuses being common.	Individual liberties are suppressed and tightly controlled by the state. Dissidents often face repression and violence.
Accountability	Government officials are held accountable to the people through regular elections, free media, and a system of checks and balances.	Accountability is inconsistent and weak, with governing institutions often lacking the independence and strength to hold leaders in check.	Rulers are not accountable to the public and are not subject to any meaningful legal or constitutional restraints.
Political Stability	Generally considered more stable, as it provides a peaceful mechanism for change and the redress of grievances.	Highly susceptible to political violence, instability, and armed conflict. This makes anocracies a volatile regime type.	Can appear stable due to the suppression of dissent, but it is often fragile and can be overturned by a coup or popular rebellion.
Examples (as of 2025)	Norway, Switzerland, Iceland, and Finland are considered full democracies.	Mexico's history includes periods of anocracy. Somalia, Cambodia, and Thailand have all been categorized as anocracies at various times due to their mix of characteristics.	Notable examples include China, Russia, and North Korea, as identified by various sources.

It's important to recognize that regimes are dynamic in nature, a country's status can change over time. Regimes can transition, or "backslide," from one type to another, with anocracy often acting as an intermediate stage.

Democratic Decline: Nations that were once stable democracies can experience a weakening of their institutions and increasing polarization, causing them to slip into anocracy.

Failed States and transitions: When autocracies collapse or enter a period of prolonged civil conflict, they can also evolve into anocracies. Scholars often place such regimes in this "catch-all" category due to their transitional nature and instability.

"Electoral Autocracies": Some modern autocratic regimes hold flawed elections to create a veneer of democracy. These regimes may sometimes be classified as anocracies, or more specifically "electoral autocracies," reflecting their hybrid nature.

While a normal citizen within an insurgency may not even be aware of all the political dynamics, they can identify key signs affecting their daily life. An insurgency is essentially *an organized political struggle conducted by a non-state group using subversion and violence to challenge the government's control of a region.* For the general population, this often means **widespread instability, disrupted services**, and **pervasive insecurity**.

A Few Common Political and Security Signs

- **Declining government control:** You may notice the government's decreased ability to protect its supporters, enforce laws, or control certain territories, such as rural areas or specific city neighborhoods.
- **Escalating violence:** The area may experience a rise in guerrilla tactics, terrorism, ambushes, targeted assassinations, and bombings. This violence is often directed at government forces and civilians rather than fighting large-scale conventional battles.
- **Military responses:** You might see an increased presence of military forces, roadblocks, and checkpoints. The government's actions to combat the insurgency may also lead to collateral damage and heightened civilian anger.
- **Government instability:** A weakening government might face increasing coup attempts or military plots as it progressively loses its coercive power.
- **Alternative authority:** Insurgent groups may attempt to replace the government by providing their own social services, such as courts or aid, to win over the

Typical Life Disruption Indicators

- ☐ **Constant insecurity:** The "expectation of violence" is a defining feature of life in an insurgency, leading to widespread fear and insecurity that disrupt normal routines. People may live with the constant threat of bombings, checkpoints, and clashes.
- ☐ **Targeted violence:** Civilians can become direct targets of violence through terrorist attacks, or they may be caught in the crossfire between insurgents and government forces.
- ☐ **Economic decay:** The national economy is likely weakened by insurgent activity. This can be caused by the destruction of infrastructure, looting, and corruption, all of which disrupt businesses and livelihoods.
- ☐ **Damaged services:** Daily life is affected by the deterioration and disruption of basic infrastructure and public services, including healthcare, schools, and access to food and water.
- ☐ **Displacement:** Insurgencies often lead to mass displacement as people flee conflict zones in search of safety. This creates both internally displaced persons (IDPs) and refugees who must leave their homes and livelihoods behind.

Social and Psychological indicators

- **Community division:** Insurgents may exploit or deepen existing ethnic, religious, or ideological divisions to gain support or splinter society.
- **Erosion of trust:** Insurgents and the government will both seek to manipulate the population. A lack of reliable information erodes trust in both sides, as well as within communities.
- **Shift in allegiances:** You might see signs of the population's growing sympathy for or acquiescence to insurgent groups. This can happen if people feel the government is failing them or if they believe the insurgent's cause is just.
- **Persistent propaganda:** Both sides will use narratives to promote their cause. Insurgent groups communicate their goals and justify their violence through propaganda, while the government attempts to counter it with its own consistent message.

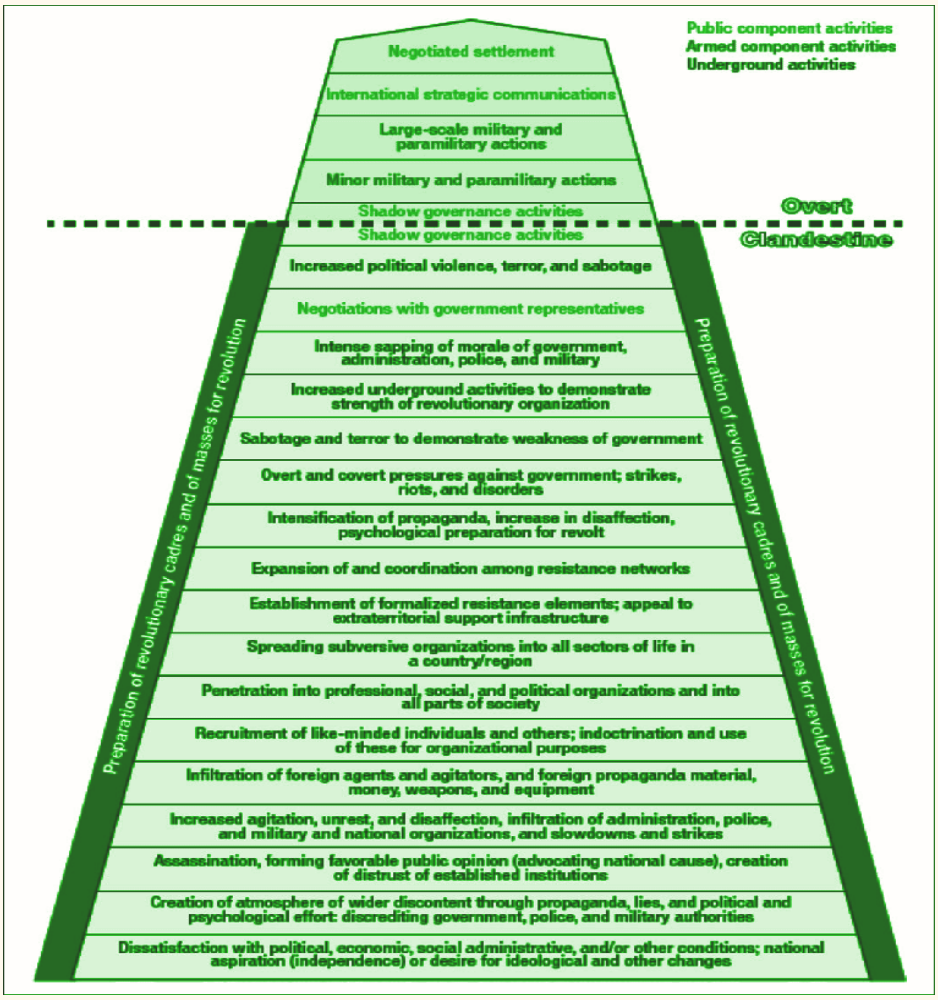
PREPARATION OF REVOLUTIONARY CADRES AND OF MASSES FOR REVOLUTION
PREPARATION OF PARALLEL HIERARCHIES FOR TAKING OVER GOVERNMENT POSITIONS

Figure 1: Original version of the SORO pyramid. 1966 (Molnar, Tinker, & LeNoir 1966: 29)

SOME ANALYSIS & COURSES OF ACTION (COA)

The conceptual framework of the pyramid provides a structured model for examining the progression and regression of political movements. The foundational tier of this structure is characterized by widespread dissatisfaction and the strategic dissemination of propaganda, serving as the catalyst for fostering collective unrest among the populace. As the movement advances through subsequent stages, it transitions into active recruitment, systematic infiltration, and the establishment of auxiliary front organizations.



Public component activities
Armed component activities
Underground activities
Negotiated settlement
International strategic communications
Large-scale military and paramilitary actions
Minor military and paramilitary actions
Shadow governance activities
Overt
Clandestine
Shadow governance activities
Increased political violence, terror, and sabotage
Negotiations with government representatives
Intense sapping of morale of government, administration, police, and military
Increased underground activities to demonstrate strength of revolutionary organization
Sabotage and terror to demonstrate weakness of government
Overt and covert pressures against government; strikes, riots, and disorders
Intensification of propaganda, increase in disaffection, psychological preparation for revolt
Expansion of and coordination among resistance networks
Establishment of formalized resistance elements; appeal to extraterritorial support infrastructure
Spreading subversive organizations into all sectors of life in a country/region
Penetration into professional, social, and political organizations and into all parts of society
Recruitment of like-minded individuals and others; indoctrination and use of these for organizational purposes
Infiltration of foreign agents and agitators, and foreign propaganda material, money, weapons, and equipment
Increased agitation, unrest, and disaffection, infiltration of administration, police, and military and national organizations, and slowdowns and strikes
Assassination, forming favorable public opinion (advocating national cause), creation of distrust of established institutions
Creation of atmosphere of wider discontent through propaganda, lies, and political and psychological effort: discrediting government, police, and military authorities
Dissatisfaction with political, economic, social administrative, and/or other conditions; national aspiration (independence) or desire for ideological and other changes
Preparation of revolutionary cadres and of masses for revolution
Preparation of revolutionary cadres and of masses for revolution

Figure 2: Updated version of the SORO pyramid (Tompkins **2013:** 6)

At the pyramid's median, efforts intensify into acts of sabotage, covert violence, and the operationalization of underground networks. Ultimately, the apex represents the culmination of these stages, manifesting as overt guerrilla warfare and the subsequent overthrow of established regimes.

The model is clearly defined by an indicator labeled "Overt/Clandestine," denoting a critical phase marked by minor guerrilla operations and instances of sabotage. However, emerging evidence reveals that the nation is simultaneously engaged in activities characteristic of two distinct tiers within this framework. While propaganda and psychological conditioning persist as dominant forces within the foundational level, sporadic episodes of violence and sabotage

underscore a concurrent movement toward the higher stages of escalation. This simultaneous engagement within disparate phases positions society in a precarious transitional state, wherein rapid progression to heightened conflict remains an imminent path.

Assessing the current US stage or **State of Affairs;** Several key indicators highlight where the nation currently stands.

The Use of widespread unrelenting **Propaganda Warfare** has facilitated the spread of disinformation, malinformation, or misinformation and the manipulated media has taken hold of public discourse; driving deep wedges of division and eroding trust. The consistent spread of hateful rhetoric by politicians like AOC, Maxine Waters, Chuck Schumer, Ilan Omar and countless others ignites the left, sparking individual acts violence heard and seen widespread. Consistently referring to conservatives as Nazis, Fascist, White Supremacist and comparing U.S citizens to Hitler or Mussolini is bound to fuel anger and perceived injustice, hence why radical leftist “feel” it's “ok” to physically attack their political opponents.

Carefully crafted narratives aim to pit citizens against one another and against established institutions, intensifying societal polarization. The media is complicit in amplifying these false narratives and this is mainly because the Smith-Mundt Act must be amended again to reflect pre-Obama legislation. Without addressing the Smith-Mundt Act the “PROPAGANDA” as we know it will continue to brainwash our countrymen. As seen popularly on social media any new legislation should affectionately and appropriately be named the “Charlie KIrk Act”. Another aspect is that these large news outlets offer former intelligence officers handsome financial incentives for becoming part of their network. As one can imagine, having such assets on the payroll and part of the studio can be lucrative in many ways for both parties.

The ongoing conflict we face is distinctly characterized by the adversary as a form of ‘Information Warfare’. This insidious warfare infiltrates our system through various forms, including political stratagems, influence campaigns, and the subversion of core societal institutions such as governance, education, religion, and media infrastructures. However, instead of prioritizing countermeasures tailored to this domain, our governmental framework remains fixated on kinetic confrontation instances of violence like shootings, bombings, and coordinated acts of terror. As a consequence, our position within the information battleground remains alarmingly weak.

We are not merely failing to gain ground in this critical arena; we lack meaningful engagement altogether due to an overarching failure to recognize it as the enemy's principal focus and strategic effort. Even on occasions where attempts are made to contribute to the information battle-space, such interventions often prove ineffective and misdirected because they lack a thorough understanding of the adversary’s doctrine. The methodologies behind the enemy's plans, whether they concern acts of violence within U.S. borders or conflicts escalating in regions like Mexico, Iraq, Afghanistan, and other global hotspots, while significant, serve only as

a subsidiary component within their broader strategy of Information Warfare. Our inability to grasp the foundational importance of this tactical approach severely hampers our capacities to counteract and strategically engage the adversary where their most concentrated efforts are being directed.

Recruitment and Radicalization; Many marginalized youth boys and girls, (many fatherless) with zero structure, discipline and/or guidance and, vulnerable communities, are increasingly being preyed upon for recruitment and mobilization of these youngsters. Digital platforms have become fertile hunting grounds for indoctrination, militarization, and the organization of agitated mobilized insurgent movements like ANTIFA, BLM, PSL, SJP, Unity of Fields. Trends in **Emerging Violence,** while we see isolated incidents of vandalism, sabotage and targeted acts of violence that have been emerging for sometime, these incidents still remain individually symbolic like Charlie's assasination, rather than it being a widespread phenomenon, such as contagion. However, these initial occurrences are testing the waters for potentially larger-scale operations as has been identified in many threat assessments such as COMMAND ELEVEN's recent publication.

U.S Government Strain

The U.S under Donald Trump's leadership & Governments around the world face a delicate challenge, balancing their response to growing civil- unrest. Acting with insufficient force risks exacerbating instability, while heavy-handed measures could ignite claims of authoritarianism which DJT faces as a normal regular slander, further playing into the insurgent narrative of "Trump is a dictator" giving legitimacy to the false claim.

Course of Action-1 (COA#1): Escalation Toward Societal Collapse

If the pyramid continues its upward progression, the next phase is likely to feature larger-scale guerrilla activities. These could include coordinated attacks on key critical infrastructure, a rise in targeted assassinations, and more frequent armed confrontations between militant groups like ANTIFA or 100's different factions and Active Clubs, Proud Boys, Patriot Front and government forces like National Guard or Marine Corps. Civilians would face widespread fear and displacement, creating an environment ripe for further radicalization.

Meanwhile, foreign powers (CCP, Iran, Russia, Cuba, Venezuela, MX Cartels) through use of HVE, foreign terrorist, intelligence or political operatives, will likely exploit the situation by providing financial aid, weaponry, or intelligence to insurgent factions. Under this trajectory, government institutions face mounting strain from both internal unrest and external meddling. Public trust in state mechanisms erodes rapidly, leading to societal fragmentation as competing factions emerge. Eventually, this could escalate into full-blown conflict where the government risks losing control over significant cities or regions.

Course of Action-2 (COA#2): Stabilization and Containment

Stabilization presents an alternative path, where movement halts between phases and is unable to ascend further down on the pyramid. Achieving this requires decisive leadership measures and collective resilience from society. Authorities must take proactive steps to unearth and unveil propaganda, interrupt recruitment channels or networks, and dismantle front groups before they solidify into active guerilla networks. DJT recent actions signify the correct courses of action are being pursued.

Simultaneously, rebuilding trust between the citizenry and institutions becomes essential. This demands complete transparency, expeditious accountability, and actionable efforts to address the root causes of discontent. Communities that successfully resist the intentional division and strengthen cohesion can significantly weaken the impact of sabotage and terrorism campaigns.

When executed effectively, stabilization ensures the nation remains stagnant between stages. While propaganda may persist, the escalation of violence into full-blown warfare is thwarted. The pyramid remains incomplete, and the insurgent efforts ultimately crumble under the strain of their own contradictions.

SUMMARY OF: FUTURE COURSES OF ACTION

The overall outcome, whether escalatory or a stability operation, hinges on several critical elements; Number would be **Public Situational Awareness,** when people become attuned to the tactics of revolutionary strategy, the effectiveness of propaganda diminishes significantly. We must continue to wake people up and educate them on the madness created .

Secondly, is the **Government Response,** Any overreactions through the use of harsh repression, censorship or voice suppression will likely intensify the insurgency, whereas overly lenient enforcement might encourage it. Deploying the NG to DC saw an immediate reduction in crime, specifically murders or gun violence. Yet, we saw an increase in large loud protracted rhetoric over deportations, we saw a mass of federal lower level, “radical activist” judges exercising authority where they have none, Trump has asserted the same use of NG will be repeated in Memphis, Chicago, St. Louis, Los Angeles, Portland etc until full order is restored in every state of the Union. He was elected to protect and enforce the U.S Constitution which democrats have not been following, but rather Rules for Radicals by Saul Alinsky or Communist manifesto, but certainly not our founding doctrines which are being restored daily. A measured, yet resolute approach is critical to stability operations.

Thirdly, we must address **Foreign Influence.** We must continue combating external forces that seek to exacerbate the conflict, which requires either neutralizing their impact or bringing their actions to the surface for all to see. This indeed would be much simpler if they weren't our own

countrymen, because then I'd say place them all on electronic monitoring, some jailed while awaiting trial, clearances revoked, suspension from sensitive positions/post, access terminated.

Overall Unity versus Division-Insurgencies have always thrived on fostering division. Most of us are aware of this, but many are not. A nation that stands unified and resists fragmentation presents a formidable barrier against attempts to overthrow it. There is a large divide right now. I pray that the upcoming terrorist attack is not the major event (SUCH AS 09/11) that will re-unite our nation. Charlie's death should have been enough. However, I believe, in unison political operatives were activated in order to amplify the message that "many were happy Charlie was assassinated". When in fact, there is highly likely many less people that actually believe this narrative. It was likely a campaign by actors like Russia to amplify the "digital media rhetoric" thus amplifying the perception of a divided America.

National Turning Point

Our nation finds itself precariously positioned between two critical stages of the resistance pyramid. The initial phase, marked by widespread propaganda efforts and strategic recruitment campaigns, has yet to reach its conclusion, while the subsequent phase, characterized by sabotage operations and guerrilla warfare tactics, is only beginning to gain momentum. This transitional juncture represents an exceptionally pivotal moment in the trajectory of current events. The future now hinges on the impending actions of both insurgent factions and national institutions alike.

Their decisions and maneuvers will ultimately dictate whether the nation plunges headlong into overt conflict or manages to stabilize sufficiently, halting any progression toward completion of the pyramid's uppermost tier. History has repeatedly demonstrated that periods of uneasy equilibrium do not endure indefinitely. What lies before us is a critical struggle to determine whether the nation continues its ascent further into disorder and chaos or succeeds in maintaining its fragile grip on the precarious balance it has achieved thus far.

History teaches us that such precarious middle ground is never permanent. The pressing question now is whether the nation will be drawn deeper into disorder or manage to hold its current position and resist further destabilization.

As I wrap up this paper the below are excerpts of a report published by RAIR that has been producing a lot of content and analysis on the topic.

Dallas, TX – September 23, 2025 — Federal immigration authorities this week detained **Marwan Marouf**, a top official of the Muslim American Society (MAS) in Dallas and the brother-in-law of a member of the Elashi family at the heart of the Holy Land Foundation terror-financing case.

This arrest represents a significant win in the fight against militant Islamic influence in the United States — and a direct strike at the Hamas support networks that once made Dallas ground zero for Islamic financing.

The arrest immediately triggered a coordinated response from the Muslim Legal Fund of America (MLFA), which rushed out a statement to its supporters lamenting Marouf's detention and urging the community to mobilize.

"Our community was momentarily shaken by ICE's pickup of our beloved brother, Marwan Marouf," the group declared, framing the arrest as "shocking, disturbing, and unjust." MLFA vowed to assemble a high-powered legal team, asked for "fierce and vocal support" at the right time, and claimed Marouf was targeted for "speaking truth to power" and "advocating for Palestine."

The pushback wasn't limited to MLFA. One of the most radical imams in Texas, Omar Suleiman, founder of the Yaqeen Institute for Islamic Research, rushed to defend Marouf, his close friend. Suleiman described him as the "heart of our community," accused ICE of "abducting" him, and vowed to mobilize support.

NOTE: This report doesn't cover the CYBER Warfare being employed by Nation State actors daily. The below terrorist was just picked up in Lousianna hopefully he is successfully interrogated with retrieval of terrorist operational intelligence. There was also an attempted attack at a California Coast Guard Base by alleged Leftist using a U-Haul. Things are escalating.

The upcoming attack if not thwarted, this attack being, Multi-State, Multi-County/City, Multi-Soft-Targets, coordinated, complex, consisting of trained combatants, men in teams of 5-10 terrorists, trained in urban warfare tactics, using explosives, small-arms pistol/rifle, RPG, grenades, drones (UAS) , "S-Vest", "SIED", or Suicide Improvised Explosive Device and possible other tactical weapons baton, clubs, brass knuckles, tactical knifes or machetes. The attack is slated to hit between November and next February. There will be main events and subsequent follow-up attacks. It will cause a nationwide paralysis of our whole society. We must plan, prepare, exercise plans and be ready to put things in motion when the time comes. I highly recommend civilian/military Pistol/Rifle training, combatives training such as Combat Juijitsu or Krav Maga, and at minimum "Stop the Bleed" course, preferably TCCC, TECC, EMT-1,2,3 with focus on trauma care. Creating a response/defense framework for your family and neighborhood is highly advisable. A communications plan is highly advisable as well as EVAC/Bugout plan. The house and vehicle should have emergency supplies, GO-Bags, trauma medical kit, IFAKS, body armor, pistol, rifle, ammo etc.

In any form of battle people will always get killed, in the coming events it will likely be friends and family, even though we're doing everything to prevent and protect each other.
But if your wife or child is killed, wouldn't you want to make sure they end up in Heaven ?

This is why a Bible in your bug out bag is absolutely necessary. Gods word is Eternal Matthew 5:18 and it's up to us to make sure our family and friends know Jesus Christ is Gods Son so we have to share Gods word by example Deuteronomy 6:6-9

We often wonder if we are qualified to remember Isaiah 6:8-9, send me.
Loving the Lord your God has to come before everything else Luke 10:27-28 (in 10:28 is the only place in the Bible Jesus says "your right")

There are requirements too we must be born again John 3:3 because we don't want the second death Revelation 19:20

Paul considers everything else worthless compared to knowing Christ , Philippians 3:8-11
All the best preparations to survive are fantastic bullets, beans and bandaids are vital for survival, but if you or your family and friends don't is your Soul prepared for its Eternal consequences ?

Pastor-Ron Blackmon
